

2023 ANNUAL REPORT

About Us

Ryman Hospitality Properties, Inc. (NYSE: RHP) is a leading lodging and hospitality real estate investment trust that specializes in upscale convention center resorts and entertainment experiences. The Company's holdings include Gaylord Opryland Resort & Convention Center; Gaylord Palms Resort & Convention Center; Gaylord Texan Resort & Convention Center; Gaylord National Resort & Convention Center; and Gaylord Rockies Resort & Convention Center, five of the top seven largest non-gaming convention center hotels in the United States based on total indoor meeting space. The Company also owns the JW Marriott San Antonio Hill Country Resort & Spa as well as two ancillary hotels adjacent to our Gaylord Hotels properties. The Company's hotel portfolio is managed by Marriott International and includes a combined total of 11,414 rooms as well as more than 3 million square feet of total indoor and outdoor meeting space in top convention and leisure destinations across the country. RHP also owns a 70% controlling ownership interest in Opry Entertainment Group (OEG), which is composed of entities owning a growing collection of iconic and emerging country music brands, including the Grand Ole Opry, Ryman Auditorium, WSM 650 AM, Ole Red, Category 10, Nashville-area attractions, and Block 21, a mixed-use entertainment, lodging, office and retail complex, including the W Austin Hotel and the ACL Live at the Moody Theater, located in downtown Austin, Texas. RHP operates OEG as its Entertainment segment in a taxable REIT subsidiary, and its results are consolidated in the Company's financial results.

Dear Ryman Hospitality Properties Shareholders,

2023 was a remarkably successful year, as our businesses achieved certain new financial performance records at both the segment and consolidated levels. These strong results enabled us to deliver a total shareholder return of 40%, outperforming both the FTSE NAREIT All Equity REITs Index, which returned 14%, and the broader S&P 500 Index, which returned 26%. In December, our stock reached an all-time high of \$111, which we have already surpassed in 2024.

We are immensely proud of what we accomplished as a team in 2023:

- Our Hospitality business generated record revenue, RevPAR, Total RevPAR, ADR, same-store operating income and same-store Adjusted EBITDA_{re} in 2023.¹ Same-store Hospitality group production marked a return to pre-pandemic levels, totaling over 2.9 million gross definite room nights booked in 2023, an increase of 10% over 2022 and 7% over 2019. Same-store Hospitality new definite rooms revenue and ADR production in 2023 were all-time records. These results demonstrate the strength of our relationships with meeting planners and the value we provide to our customers with the strategic investments we have made over the past several years.
- In June, we completed the acquisition of the 1,002-room JW Marriott San Antonio Hill Country Resort & Spa. Located in an attractive and growing market with no emerging competitive supply, this unique resort is a natural complement to our existing Gaylord Hotels portfolio (and one we have been interested in acquiring for some time). In the near term, we are focused on getting to know the JW Marriott customer and leveraging our scale to create growth and profitability synergies. Over the next several years, we intend to enhance and expand this property, much as we have done elsewhere in our portfolio.
- Our Entertainment business delivered record revenue, operating income and Adjusted EBITDA_{re} in 2023, driven by continued robust demand for live entertainment experiences. The momentum in our business, and the country music and lifestyle category broadly, positions us favorably to continue pursuing growth. Ole Red Las Vegas, our sixth and largest location to date, opened in mid-January 2024 to an encouraging early start. Several other investments are underway, including the repositioning of the Wildhorse Saloon to Category 10, our newest brand partnership with country music superstar Luke Combs, and the renovation of the W Austin, part of Block 21 in Austin, Texas.
- Our balance sheet is in excellent shape, supported by strong operating cash flow generation. Over the course of 2023, we declared dividends of \$3.85 per share, and as of year-end 2023, our total available liquidity was \$1.3 billion, and our leverage levels remained comfortably within our targeted range.

None of these accomplishments would be possible, of course, without our people. Guided by our people-first approach, employee engagement and development remain top priorities. In 2023, employee turnover remained well below the broader industry despite a competitive labor market, driven in large part by high employee satisfaction and engagement. Furthermore, we enhanced our leadership development opportunities, which we believe will set the stage for our next phase of growth by equipping leaders with the skills they need to take on new opportunities.

We continue to advance diversity and inclusion as a catalyst for broadening the customer base and thus inducing demand for what we do. We are proud to report that the artists who took the Opry stage in 2023 were more racially diverse than in years past, surpassing the meaningful strides we made in 2022.

¹ The same-store Hospitality portfolio excludes the JW Marriott San Antonio Hill Country, which was acquired on June 30, 2023.

Looking forward to 2024 and beyond, as we discussed at our recent investor day, our differentiated business model and the underlying strength of our brands affords us many ways to grow the business and thus create shareholder value:

- In our Hospitality business, we are monetizing the enhancements we have made to the customer value proposition over the last several years, and we have outlined more than \$1 billion of high-return capital investments that will drive growth in the years to come. Major enhancements include transforming and expanding the carpeted meeting space at Gaylord Opryland, allowing us to capture more premium group business; repositioning and expanding food and beverage capacity at Gaylord Opryland to meet demand; repositioning the Grand Lodge, adding a new group pavilion, and expanding the room count at Gaylord Rockies, inducing incremental demand and allowing us to maximize out-of-room spend; and analyzing feasibility of our successful SoundWaves water amenity at Gaylord Rockies and Gaylord Texan, potentially enhancing our leisure offerings at those properties.
- In our Entertainment business, we continue to pursue growth and scale in three verticals – (1) venues and live experiences, (2) artist partnerships, and (3) direct-to-consumer and content distribution. We look forward to opening Category 10 and completing the comprehensive renovation of the W Austin later this year.

As a result of these initiatives, we have many ways to grow the Company and thus create shareholder value.

In closing, we extend a sincere thank you to our employees, partners, customers and board of directors, for their support of our Company in 2023. We are so proud of the work we have already accomplished together, and we are confident we will continue to create value for you, our shareholders, in 2024 and beyond.

Warm Regards,

Colin V. Reed
Executive Chairman

Mark Fioravanti
President & CEO

OVERVIEW

Ryman Hospitality Properties, Inc. (“Ryman” and, together with its subsidiaries, “we,” “us,” “our” or the “Company”) is the successor to Gaylord Entertainment Company (“Gaylord”), a Delaware corporation originally incorporated in 1956. As part of the plan to restructure our business operations to facilitate our qualification as a real estate investment trust (“REIT”) for federal income tax purposes, Gaylord merged with and into its wholly-owned subsidiary, Ryman, on October 1, 2012, with Ryman as the surviving corporation, and Ryman succeeded to and began conducting, either directly or indirectly, all of the business conducted by Gaylord immediately prior to the merger. Ryman is a Delaware corporation that began operating as a self-advised and self-administered REIT for federal income tax purposes on January 1, 2013. We specialize in group-oriented, destination hotel assets in urban and resort markets. As a REIT, we generally will not be subject to federal corporate income taxes on that portion of our capital gain or ordinary income from our REIT operations that is distributed to our stockholders. This treatment substantially eliminates the federal “double taxation” on earnings from our REIT operations, or taxation once at the corporate level and again at the stockholder level, that generally results from investment in a regular C corporation. Our non-REIT operations, which consist of the activities of our taxable REIT subsidiaries (“TRSs”) that lease or sublease our hotels from our qualified REIT subsidiaries, as well as businesses within our Entertainment segment, continue to be subject, as applicable, to federal and state corporate income taxes.

Our owned assets include a network of five upscale, meetings-focused resorts totaling 9,917 rooms that are managed by Marriott International, Inc. (“Marriott”) under the Gaylord Hotels brand. These five resorts, which we refer to as our Gaylord Hotels properties, consist of the Gaylord Opryland Resort & Convention Center in Nashville, Tennessee (“Gaylord Opryland”), the Gaylord Palms Resort & Convention Center near Orlando, Florida (“Gaylord Palms”), the Gaylord Texan Resort & Convention Center near Dallas, Texas (“Gaylord Texan”), the Gaylord National Resort & Convention Center near Washington D.C. (“Gaylord National”), and the Gaylord Rockies Resort & Convention Center near Denver, Colorado (“Gaylord Rockies”), which was previously owned by a joint venture (the “Gaylord Rockies joint venture”), in which we owned a 65% interest. On May 7, 2021, we purchased the remaining 35% interest in the Gaylord Rockies joint venture. Our other owned hotel assets managed by Marriott include the Inn at Opryland, an overflow hotel adjacent to Gaylord Opryland, the AC Hotel at National Harbor, Washington D.C. (“AC Hotel”), an overflow hotel adjacent to Gaylord National, and effective June 30, 2023, the JW Marriott San Antonio Hill Country Resort & Spa (“JW Marriott Hill Country”).

We also own a controlling 70% equity interest in a business comprised of a number of entertainment and media assets, known as the Opry Entertainment Group (“OEG”), which we report as our Entertainment segment. These assets include the Grand Ole Opry, the legendary weekly showcase of country music’s finest performers for 98 years; the Ryman Auditorium, the storied live music venue and former home of the Grand Ole Opry located in downtown Nashville; WSM-AM, the Opry’s radio home; Ole Red, a brand of Blake Shelton-themed bar, music venue and event spaces; two Nashville-based assets – the Wildhorse Saloon and the General Jackson Showboat (“General Jackson”); and as of May 31, 2022, Block 21, a mixed-use entertainment, lodging, office, and retail complex located in Austin, Texas (“Block 21”). Prior to June 16, 2022, we owned 100% of OEG.

Our operations are organized into three principal business segments: (i) Hospitality, which includes our Gaylord Hotels properties, JW Marriott Hill Country (effective June 30, 2023), the Inn at Opryland and the AC Hotel; (ii) Entertainment, which includes the entertainment and media assets comprising OEG; and (iii) Corporate and Other, which includes corporate expenses. These three business segments – Hospitality, Entertainment, and Corporate and Other – represented approximately 85%, 15% and 0%, respectively, of our total revenues for the fiscal year ended December 31, 2023.

Financial information by business segment and for each of our Gaylord Hotels properties as of December 31, 2023 and for each of the three years then ended appears in “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and in “Note 13 – Financial Reporting by Business Segments” to our consolidated financial statements included herein.

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

“Management’s Discussion and Analysis of Financial Condition and Results of Operations” generally discusses 2023 and 2022 items and year-to-year comparisons between 2023 and 2022. Discussions of 2021 items and year-to-year comparisons between 2022 and 2021 that are not included in this annual report can be found in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s annual report for the fiscal year ended December 31, 2022.

Overview

We are a Delaware corporation, originally incorporated in 1956, that, following our REIT conversion in 2012, began operating as a self-advised and self-administered REIT for federal income tax purposes on January 1, 2013, specializing in group-oriented, destination hotel assets in urban and resort markets. Our core holdings include a network of five upscale, meetings-focused resorts totaling 9,917 rooms that are managed by Marriott under the Gaylord Hotels brand. These five resorts, which we refer to as our Gaylord Hotels properties, consist of Gaylord Opryland, Gaylord Palms, Gaylord Texan, Gaylord National and Gaylord Rockies, which was previously owned by the Gaylord Rockies joint venture, in which we owned a 65% interest. On May 7, 2021, we purchased the remaining 35% interest in the Gaylord Rockies joint venture. Our other owned hotel assets managed by Marriott include the Inn at Opryland and the AC Hotel, and effective June 30, 2023, JW Marriott Hill Country.

We also own a controlling 70% equity interest in OEG, which we report as our Entertainment segment. These assets include the Grand Ole Opry, the legendary weekly showcase of country music’s finest performers for 98 years; the Ryman Auditorium, the storied live music venue and former home of the Grand Ole Opry located in downtown Nashville; WSM-AM, the Opry’s radio home; Ole Red, a brand of Blake Shelton-themed bar, music venue and event spaces; two Nashville-based assets – the Wildhorse Saloon and the General Jackson; and as of May 31, 2022, Block 21. See “OEG Transaction” below for additional disclosure regarding our sale of a 30% interest in OEG effective June 16, 2022.

Each of our award-winning Gaylord Hotels properties, as well as the JW Marriott Hill Country, incorporates not only high-quality lodging, but also at least 400,000 square feet (268,000 in the case of JW Marriott Hill Country) of meeting, convention and exhibition space, superb food and beverage options and retail and spa facilities within a single self-contained property. As a result, our Gaylord Hotels properties and JW Marriott Hill Country provide a convenient and entertaining environment for convention guests. Our Gaylord Hotels properties and JW Marriott Hill Country focus on the large group meetings market in the United States.

Our goal is to be the nation’s premier hospitality REIT for group-oriented, destination hotel assets in urban and resort markets.

See “Forward-Looking Statements” and “Risk Factors” in this annual report for important information regarding forward-looking statements made in this annual report and risks and uncertainties we face.

JW Marriott Hill Country

On June 30, 2023, we purchased JW Marriott Hill Country for approximately \$800 million. Located amid approximately 600 acres in the Texas Hill Country region outside of San Antonio, JW Marriott Hill Country, which opened in 2010, is a premier group-oriented resort with 1,002 rooms and 268,000 total square feet of indoor and outdoor meeting and event space. The resort’s amenities include a 26,000 square foot spa; eight food and beverage outlets; a 9-acre water experience; and TPC San Antonio, which features two 18-hole golf courses. We funded the purchase price with approximately \$395 million in net proceeds of an underwritten registered public offering of approximately 4.4 million shares of the Company’s common stock, approximately \$393 million in net proceeds of a private placement of \$400 million aggregate principal amount of 7.25% senior notes due 2028 and cash on hand. JW Marriott Hill Country assets are reflected in our Hospitality segment beginning June 30, 2023.

Credit Facility Refinancing

In May 2023, we completed the refinancing of our previous credit facility by entering into a new credit agreement, which extends the maturity of our \$700 million revolving credit facility to 2027 and an increased

\$500 million term loan B to 2030. The new credit facility also includes an accordion feature that will allow us to increase the facilities by an aggregate total of up to \$475 million. A portion of the proceeds of the term loan B were used to repay in full the approximately \$370 million balance of our previous term loan B. The revolver was undrawn at closing.

Issuance of \$400 Million 7.25% Senior Notes due 2028

In June 2023, RHP Hotel Properties, LP, a subsidiary operating partnership (the “Operating Partnership”) and RHP Finance Corporation, a Delaware corporation, completed the private placement of \$400.0 million in aggregate principal amount of 7.25% senior notes due 2028 (the “\$400 Million 7.25% Senior Notes”), which are guaranteed by the Company and its subsidiaries that guarantee our credit agreement.

The net proceeds from the issuance of the \$400 Million 7.25% Senior Notes totaled approximately \$393 million, after deducting the initial purchasers’ discounts, commissions and offering expenses. We used these proceeds to pay a portion of the purchase price for JW Marriott Hill Country discussed above.

Equity Offering

In June 2023, we completed an underwritten public offering of approximately 4.4 million shares of our common stock, par value \$0.01 per share, at a price to the public of \$93.25 per share. Our net proceeds, after deducting underwriting discounts and commissions and other expenses paid by us, were approximately \$395 million. We used these proceeds to pay a portion of the purchase price for JW Marriott Hill Country discussed above.

OEG Transaction

As more fully described in the “OEG Transaction” section of Note 1 to the consolidated financial statements included herein, on June 16, 2022, we and certain of our subsidiaries, including OEG Attractions Holdings, LLC, which directly or indirectly owns the assets that comprise our Entertainment segment (“OEG”), consummated the transactions contemplated by an investment agreement (the “Investment Agreement”) with Atairos Group, Inc. (“Atairos”) and A-OEG Holdings, LLC, an affiliate of Atairos (the “OEG Investor”), pursuant to which OEG issued and sold to the OEG Investor, and the OEG Investor acquired, 30% of the equity interests of OEG for approximately \$296.0 million (the “OEG Transaction”). The purchase price for the OEG Transaction may be increased by \$30.0 million if OEG achieves certain financial objectives in 2024.

We retained a controlling 70% equity interest in OEG and continue to consolidate OEG and the other subsidiaries comprising our Entertainment segment in our consolidated financial statements. After the payment of transaction expenses, we used substantially all of the net proceeds from the OEG Transaction, together with the net proceeds we received from the OEG Term Loan (as defined below), to repay the then-outstanding balance of our former \$300 million term loan A and to pay down substantially all borrowings then outstanding under our revolving credit facility.

Dividend Policy

In September 2022, our board of directors approved a dividend policy pursuant to which we will make minimum dividends of 100% of REIT taxable income annually, subject to the board of directors’ future determinations as to the amount of any distributions and the timing thereof. The dividend policy may be altered at any time by our board of directors (as otherwise permitted by our credit agreement) and certain provisions of our agreements governing our indebtedness may prohibit us from paying dividends in accordance with any policy we may adopt.

Our Operations

Our ongoing operations are organized into three principal business segments:

- Hospitality, consisting of our Gaylord Hotels properties, JW Marriott Hill Country (effective June 30, 2023), the Inn at Opryland, and the AC Hotel.
- Entertainment, consisting of the Grand Ole Opry, the Ryman Auditorium, WSM-AM, Ole Red, Block 21, and our other Nashville-based attractions.
- Corporate and Other, consisting of our corporate expenses.

For the years ended December 31, 2023, 2022 and 2021, our total revenues were divided among these business segments as follows:

Segment	2023	2022	2021
Hospitality	85%	85%	84%
Entertainment	15%	15%	16%
Corporate and Other	0%	0%	0%

Key Performance Indicators

The operating results of our Hospitality segment are highly dependent on the volume of customers at our hotels and the quality of the customer mix at our hotels, which are managed by Marriott. These factors impact the price that Marriott can charge for our hotel rooms and other amenities, such as food and beverage and meeting space. The following key performance indicators are commonly used in the hospitality industry and are used by management to evaluate hotel performance and potentially allocate capital expenditures:

- hotel occupancy – a volume indicator;
- average daily rate (“ADR”) – a price indicator calculated by dividing rooms revenue by the number of rooms sold;
- revenue per available room (“RevPAR”) – a summary measure of hotel results calculated by dividing rooms revenue by room nights available to guests for the period;
- total revenue per available room (“Total RevPAR”) – a summary measure of hotel results calculated by dividing the sum of room, food and beverage and other ancillary service revenue by room nights available to guests for the period; and
- net definite room nights booked – a volume indicator which represents the total number of definite bookings for future room nights at our hotels confirmed during the applicable period, net of cancellations.

In addition to GAAP measures such as revenues, net income and operating income, we also use certain “non-GAAP financial measures,” which are measures of our historical performance that are not calculated and presented in accordance with GAAP within the meaning of applicable SEC rules. These measures include:

- Earnings Before Interest Expense, Income Taxes, Depreciation and Amortization for Real Estate (“EBITDAre”), Adjusted EBITDAre and Adjusted EBITDAre, Excluding Noncontrolling Interest in Consolidated Joint Venture, and
- Funds from Operations (“FFO”) available to common stockholders and unit holders and Adjusted FFO available to common stockholders and unitholders.

See “Non-GAAP Financial Measures” below for further discussion.

For 2021, as compared to 2022 and historical periods prior to 2020, the closure and pandemic-constrained business levels then experienced by our Gaylord Hotels properties resulted in a significant decrease in performance reflected in these key performance indicators and relevant GAAP and non-GAAP financial measures.

The results of operations of our Hospitality segment are affected by the number and type of group meetings and conventions scheduled to attend our hotels in a given period. A variety of factors can affect the results of any interim period, including the nature and quality of the group meetings and conventions attending our hotels during such period, which meetings and conventions have often been contracted for several years in advance, the level of attrition our hotels experience, and the level of transient business at our hotels during such period. Increases in costs, including labor costs, insurance costs, costs of food and other supplies, and energy costs have affected our operations in 2023 and 2022 and in the future could negatively affect our results, particularly during an inflationary economic environment. We rely on Marriott, as the manager of our hotels, to manage these factors and to offset any identified shortfalls in occupancy.

Summary Financial Results

The following table summarizes our financial results for the years ended December 31, 2023, 2022 and 2021 (in thousands, except percentages and per share data):

	2023	% Change	2022	% Change	2021
Total revenues	\$2,158,136	19.5%	\$1,805,969	92.3%	\$ 939,373
Total operating expenses	1,704,452	15.3%	1,478,819	48.2%	998,048
Operating income (loss)	453,684	38.7%	327,150	657.6%	(58,675)
Net income (loss)	341,800	153.3%	134,948	169.3%	(194,801)
Net income (loss) available to common stockholders. . .	311,217	141.3%	128,993	172.9%	(176,966)
Net income (loss) available to common stockholders per share - diluted.	5.36	130.0%	2.33	172.6%	(3.21)

2023 Results as Compared to 2022 Results

The increase in our total revenues during 2023, as compared to 2022, is attributable to increases in our Hospitality segment and Entertainment segment revenues of \$295.5 million and \$56.7 million, respectively, as presented in the tables below.

The increase in total operating expenses during 2023, as compared to 2022, is primarily the result of increases in Hospitality segment and Entertainment segment expenses of \$187.8 million and \$35.1 million, respectively, as presented in the tables below.

The above factors resulted in a \$126.5 million improvement in operating income for 2023, as compared to 2022.

Our increase in net income of \$206.9 million in 2023, as compared to 2022, was due to the change in our operating income described above, and the following factors, each as described more fully below:

- A \$93.7 million benefit for income taxes in 2023, as compared to a \$38.8 million provision for income taxes in 2022, primarily related to the release of \$112.5 million in valuation allowance in 2023.
- A \$47.3 million increase in net interest expense in 2023, as compared to 2022.

Factors and Trends Contributing to Performance and Current Environment

Important factors and trends contributing to our performance during 2023, as compared to 2022, which was partially impacted by the Omicron variant of COVID-19 in the first quarter of 2022, were:

- The addition of JW Marriott Hill Country on June 30, 2023, including \$92.8 million in revenues; the property averaged \$197.30 in RevPAR and \$503.41 in Total RevPAR.
- Same-store (Hospitality segment excluding JW Marriott Hill Country) hotel occupancy of 71.9% and ADR of \$243.19 in 2023, an increase of 5.7 points of occupancy and 2.7%, respectively, over 2022.
- An increase in same-store group rooms traveled in 2023 of 16.0% over 2022.
- A same-store increase of 14.2% in outside-the-room spend in our Hospitality segment in 2023, as compared to 2022, with group catering revenue particularly strong.
- A decrease in same-store cancelled room nights at our hotels of 33.8% in 2023, as compared to 2022, and a decrease in same-store group attrition at our hotels from 20.6% in 2022 to 15.2% in 2023.
- A decrease in attrition and cancellation fee collections of \$13.5 million in 2023, as compared to 2022, as cancellations and the related fee collections continue to decline. As these collections have no direct associated expenses, this decrease has had a negative impact on operating income as a percentage of revenue, or margin.
- An increase in same-store incentive management fees incurred by the Company of 127.7% in 2023, as compared to 2022, primarily due to improved full year results.
- On a same-store basis, group room nights on the books for all future years at our hotels at December 31, 2023 is approximately 4.0% greater than those on the books at December 31, 2022, and the ADR on those group room nights on the books at December 31, 2023 is approximately 6.3% higher than ADR on the books at December 31, 2022.

- An increase in Entertainment segment revenue of 21.1% in 2023, as compared to 2022, primarily attributable to the addition of Block 21 with a full year of results in 2023, as well as revenue increases throughout our other OEG businesses as a result of increased attendance or volume, as applicable. Excluding the addition of Block 21, Entertainment segment revenue increased 12.1% in 2023, as compared to 2022.
- The improved revenue performance noted above has mitigated increasing costs, which include increased interest rates, which drove higher interest expense on our higher debt levels, as well as increased wages, insurance, and other costs, which are expected to continue in the current inflationary environment.

Operating Results – Detailed Segment Financial Information

Hospitality Segment

Total Segment Results. The following presents the financial results of our Hospitality segment for the years ended December 31, 2023, 2022 and 2021 (in thousands, except percentages and performance metrics):

	<u>2023</u>	<u>% Change</u>	<u>2022</u>	<u>% Change</u>	<u>2021</u>

- (1) Hospitality segment operating loss for 2021 does not include preopening costs of \$0.7 million. Hospitality segment operating loss for 2021 also does not include gain on sale of assets of \$0.3 million.
- (2) Hospitality segment operating loss for 2021 includes approximately \$4.6 million in net credits directly related to the COVID-19 pandemic, which are primarily related to employment costs. This amount includes \$4.1 million of payroll tax credits afforded under the 2020 Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”).
- (3) Hospitality segment metrics for each year include the addition of 302 additional guest rooms at Gaylord Palms beginning June 1, 2021.
- (4) We calculate Hospitality segment RevPAR by dividing rooms revenue by room nights available to guests for the period. Room nights available to guests include nights the hotels are closed. Hospitality segment RevPAR is not comparable to similarly titled measures such as revenues.
- (5) We calculate Hospitality segment Total RevPAR by dividing the sum of room, food and beverage, and other ancillary services revenue (which equals Hospitality segment revenue) by room nights available to guests for the period. Room nights available to guests include nights the hotels are closed. Hospitality segment Total RevPAR is not comparable to similarly titled measures such as revenues.
- (6) Hospitality segment net definite room nights booked for 2023, 2022 and 2021 includes approximately 0.3 million, 0.4 million and 0.8 million group room cancellations, respectively.
- (7) Same-store Hospitality segment metrics do not include JW Marriott Hill Country, which we purchased June 30, 2023.

Total Hospitality revenues in 2023 include \$43.8 million in attrition and cancellation fee collections, a \$13.5 million decrease from 2022.

The percentage of group versus transient business based on rooms sold for our Hospitality segment for the years ended December 31 was approximately as follows:

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Group	73%	69%	46%
Transient	27%	31%	54%

The type of group based on rooms sold for our Hospitality segment for the years ended December 31 was approximately as follows:

	<u>2022</u>	<u>2021</u>	<u>2020</u>
Corporate Groups	50%	51%	43%
Associations	34%	32%	34%
Other Groups	16%	17%	23%

Other hotel expenses for the following years ended December 31 included (in thousands):

	<u>2023</u>	<u>% Change</u>	<u>2022</u>	<u>% Change</u>	<u>2021</u>
Administrative employment costs	\$176,112	14.4%	\$153,882	51.2%	\$101,771
Utilities	42,055	13.3%	37,120	36.8%	27,128
Property taxes	39,951	18.7%	33,650	(0.9)%	33,947
Other	261,210	12.3%	232,639	41.0%	164,945
Total other hotel expenses	<u>\$519,328</u>	13.6%	<u>\$457,291</u>	39.5%	<u>\$327,791</u>

Administrative employment costs include salaries and benefits for hotel administrative functions, including, among others, senior management, accounting, human resources, sales, conference services, engineering and security. Administrative employment costs increased during 2023, as compared to 2022, primarily due to the addition of JW Marriott Hill Country, as well as increases at Gaylord Opryland, Gaylord National and Gaylord Texan associated with increased business levels. Utility costs increased during 2023, as compared to 2022, primarily due to the addition of JW Marriott Hill Country, as well as an increase at Gaylord Opryland associated with increased utility rates. Property taxes increased during 2023, as compared to 2022, primarily due to the addition of JW Marriott Hill Country. Other expenses, which include supplies, advertising, maintenance costs and consulting costs, increased during 2023, as compared to 2022, primarily due to the addition of JW Marriott Hill Country, as well as various increases at Gaylord Opryland, Gaylord National, Gaylord Texan and Gaylord Palms due to increased business levels.

Each of our management agreements with Marriott requires us to pay Marriott a base management fee based on the gross revenues from the applicable property for each fiscal year or portion thereof. The applicable percentage for our Gaylord Hotels properties, excluding Gaylord Rockies, is approximately 2% of gross revenues, Gaylord Rockies is approximately 3% of gross revenues, and JW Marriott Hill Country is approximately 3.5% of gross revenues. Additionally, we pay Marriott an incentive management fee based on the profitability of our hotels. We incurred \$41.3 million, \$33.7 million and \$17.1 million in total base management fees to Marriott related to our Hospitality segment during 2023, 2022 and 2021, respectively. We also incurred \$28.3 million, \$12.8 million and \$0 in incentive management fees for our Hospitality segment during 2023, 2022 and 2021, respectively. Management fees are presented throughout this annual report net of the amortization of the deferred management rights proceeds discussed in Note 5, "Deferred Management Rights Proceeds," to the consolidated financial statements included herein.

Hospitality segment depreciation and amortization expense decreased in 2023, as compared to 2022, primarily as a result of the intangible asset associated with advanced bookings at Gaylord Rockies when we purchased an additional interest in Gaylord Rockies in 2018 becoming fully amortized in 2022, partially offset by the increase related to JW Marriott Hill Country.

Property-Level Results. The following presents the property-level financial results of our Hospitality segment for the years ended December 31, 2023, 2022 and 2021. In 2021, these properties experienced higher levels of

attrition and cancellations and lower occupancy levels, which are directly related to the COVID-19 pandemic, and experienced heavily transient business. Therefore, the property-level financial results for 2021 are not comparable to 2023, 2022 or to historical periods prior to 2020. Total revenue at each of our Gaylord Hotels properties was lower for 2021 than that of historical periods due to the COVID-19 pandemic. Operating costs at each of our properties were lower for 2021 as a result of cost containment initiatives and lower variable costs due to lower occupancies.

Gaylord Opryland Results. The results of Gaylord Opryland for the years ended December 31, 2023, 2022 and 2021 are as follows (in thousands, except percentages and performance metrics):

	<u>2023</u>	<u>% Change</u>	<u>2022</u>	<u>% Change</u>	<u>2021</u>

Entertainment Segment

Due to temporary closures and reopenings of various assets related to COVID-19 in 2021, the Entertainment segment financial results for 2021 are not comparable to 2023, 2022 or to historical periods prior to 2020. Entertainment segment financial results for 2023 and 2022 include Block 21 beginning May 31, 2022. The following presents the financial results of our Entertainment segment for the years ended December 31, 2023, 2022 and 2021 (in thousands, except percentages):

	<u>2023</u>	<u>% Change</u>	<u>2022</u>	<u>% Change</u>	<u>2021</u>
Revenues	\$324,658	21.1%	\$267,995	75.4%	\$152,790
Operating expenses	223,663	18.6%	188,545	60.1%	117,753
Depreciation and amortization	23,611	28.2%	18,420	25.7%	14,655
Operating income ⁽¹⁾	\$ 77,384	26.8%	\$ 61,030	199.4%	\$ 20,382

(1) Entertainment segment operating income does not include preopening costs of \$1.3 million and \$0.5 million in 2023 and 2022, respectively. Entertainment segment operating income also does not include loss from unconsolidated joint ventures of \$17.3 million, \$11.0 million and \$9.0 million in 2023, 2022 and 2021, respectively, related to our television network joint venture ("Circle").

Revenues, operating expenses and depreciation and amortization increased in our Entertainment segment in 2023, as compared to 2022, primarily due to Block 21, which we acquired in May 2022. In addition, Entertainment segment revenues increased in 2023, as compared to 2022, due to increased revenues throughout our other OEG businesses as a result of increased attendance or volume, as applicable. Entertainment segment operating expenses also increased in 2023, as compared to 2022, due to increased variable expenses associated with higher business levels.

Corporate and Other Segment

The following presents the financial results of our Corporate and Other segment for the years ended December 31, 2023, 2022 and 2021 (in thousands, except percentages):

	<u>2023</u>	<u>% Change</u>	<u>2022</u>	<u>% Change</u>	<u>2021</u>
Operating expenses	\$ 42,789	(0.4)%	\$ 42,982	11.4%	\$ 38,597
Depreciation and amortization	867	5.6%	821	(59.5)%	2,027
Operating loss ⁽¹⁾	\$(43,656)	0.3%	\$(43,803)	(7.8)%	\$(40,624)

(1) Corporate segment operating loss for 2022 does not include a loss on sale of assets of \$0.5 million.

Corporate and Other operating expenses, which consist primarily of costs associated with senior management salaries and benefits, legal, human resources, accounting, pension and other administrative costs, decreased slightly in 2023, as compared to 2022.

Operating Results – Preopening costs

We expense the costs associated with start-up activities and organization costs as incurred. Our preopening costs for 2023 primarily include costs associated with Ole Red Las Vegas, which opened in January 2024. Our preopening costs for 2022 primarily include costs associated with Ole Red Nashville International Airport, which opened in May 2022.

Operating Results – Loss on Sale of Assets

Loss on sale of assets for 2022 includes the sale of a parcel of land in Nashville, Tennessee.

Non-Operating Results Affecting Net Income (Loss)

General

The following table summarizes the other factors which affected our net income (loss) for the years ended December 31, 2023, 2022 and 2021 (in thousands, except percentages):

	<u>2023</u>	<u>% Change</u>	<u>2022</u>	<u>% Change</u>	<u>2021</u>
Interest expense	\$211,370	42.4%	\$148,406	18.4%	\$125,347
Interest income	21,423	272.6%	5,750	1.1%	5,685
Loss on extinguishment of debt	(2,252)	(45.6)%	(1,547)	47.5%	(2,949)
Loss from unconsolidated joint ventures	(17,308)	(57.8)%	(10,967)	(22.4)%	(8,963)
Other gains and (losses), net.	3,921	125.0%	1,743	330.4%	405
(Provision) benefit for income taxes	93,702	341.7%	(38,775)	(682.2)%	(4,957)

Interest Expense

Interest expense increased \$63.0 million in 2023, as compared to 2022, due primarily to higher interest rates and higher levels of indebtedness attributable to the 2022 OEG Term Loan and the Block 21 CMBS loan, as well as the May 2023 refinancing and increase of the term loan B and the June 2023 issuance of the \$400 Million 7.25% Senior Notes. Our weighted average interest rate on our borrowings, excluding capitalized interest, but including the impact of interest rate swaps, was 6.6% and 5.0% in 2023 and 2022, respectively.

Cash interest expense increased \$63.1 million to \$200.8 million in 2023, as compared to 2022, and non-cash interest expense, which includes amortization of deferred financing costs and debt discounts or premiums and is offset by capitalized interest, decreased \$0.1 million to \$10.5 million in 2023, as compared to 2022.

Interest Income

Interest income for 2023 primarily includes amounts earned on our larger than historical cash balances, as well as the bonds that were received in connection with the development of Gaylord National, which we hold as notes receivable. Interest income for 2022 primarily includes amounts earned on the bonds associated with Gaylord National.

Loss on Extinguishment of Debt

As a result of the May 2023 refinancing of our credit facility and the extension of the Gaylord Rockies \$800 million term loan, we recognized a loss on extinguishment of debt of \$2.3 million in 2023.

As a result of the June 2022 repayment of our previous \$300 million term loan A with the proceeds from a \$300 million OEG term loan, we recognized a loss on extinguishment of debt of \$1.5 million in 2022.

Loss from Unconsolidated Joint Ventures

The loss from unconsolidated joint ventures for 2023 and 2022 represents our equity method share of losses associated with Circle.

In September 2023, we determined to pivot from television network ownership in favor of a distribution approach. Therefore, we and our joint venture partner agreed to wind down Circle, and operations ceased on December 31, 2023. As a result, we incurred a loss related to Circle of approximately \$10.5 million, which is included in loss from unconsolidated joint ventures in the accompanying consolidated statement of operations for 2023.

Other Gains and (Losses), net

Other gains and (losses), net for 2023 and 2022 primarily includes a gain of \$6.1 million and \$2.9 million, respectively, from a fund associated with the Gaylord National bonds to reimburse us for certain marketing and maintenance expenses.

(Provision) Benefit for Income Taxes

As a REIT, we generally are not subject to federal corporate income taxes on ordinary taxable income and capital gains income from real estate investments that we distribute to our stockholders. We are required to pay federal and state corporate income taxes on earnings of our TRSs.

During 2023 and 2022, we recorded an income tax (provision) benefit of \$93.7 million and \$(38.8) million, respectively. These results differ from the statutory rate primarily due to the REIT dividends paid deduction for both years and a change in valuation allowance at the TRSs in 2023.

We evaluate our deferred tax assets each reporting period to determine if it is more likely than not that those assets will be realized or if a valuation allowance is needed. In the fourth quarter of 2023, due to continued improvement in our financial results coming out of the COVID-19 pandemic and the projected future taxable income of our TRSs, we determined that the release of a significant portion of our federal and state valuation allowance was appropriate. This release of valuation allowance of \$112.5 million was the primary factor in the large income tax benefit for 2023.

Non-GAAP Financial Measures

We present the following non-GAAP financial measures, which we believe are useful to investors as key measures of our operating performance:

EBITDAre, Adjusted EBITDAre and Adjusted EBITDAre, Excluding Noncontrolling Interest in Consolidated Joint Venture Definition

We calculate EBITDAre, which is defined by the National Association of Real Estate Investment Trusts (“NAREIT”) in its September 2017 white paper as net income (calculated in accordance with GAAP) plus interest expense, income tax expense, depreciation and amortization, gains or losses on the disposition of depreciated property (including gains or losses on change in control), impairment write-downs of depreciated property and of investments in unconsolidated affiliates caused by a decrease in the value of depreciated property of the affiliate, and adjustments to reflect the entity’s share of EBITDAre of unconsolidated affiliates.

Adjusted EBITDAre is then calculated as EBITDAre, plus to the extent the following adjustments occurred during the periods presented:

- Preopening costs;
- Non-cash lease expense;
- Equity-based compensation expense;
- Impairment charges that do not meet the NAREIT definition above;
- Credit losses on held-to-maturity securities;
- Transaction costs of acquisitions;
- Interest income on bonds;
- Loss on extinguishment of debt;
- Pension settlement charges;
- Pro rata Adjusted EBITDAre from unconsolidated joint ventures; and
- Any other adjustments we have identified herein.

We then exclude the pro rata share of Adjusted EBITDAre related to noncontrolling interests in consolidated joint ventures to calculate Adjusted EBITDAre, Excluding Noncontrolling Interest in Consolidated Joint Venture.

We use EBITDAre, Adjusted EBITDAre and Adjusted EBITDAre, Excluding Noncontrolling Interest in Consolidated Joint Venture to evaluate our operating performance. We believe that the presentation of these non-GAAP financial measures provides useful information to investors regarding our operating performance and debt leverage metrics, and that the presentation of these non-GAAP financial measures, when combined with the primary GAAP presentation of net income, is beneficial to an investor’s complete understanding of our operating performance. We make additional adjustments to EBITDAre when evaluating our performance because we believe that presenting Adjusted EBITDAre and Adjusted EBITDAre, Excluding Noncontrolling Interest in Consolidated Joint Venture provides useful information to investors regarding our operating performance and debt leverage metrics.

FFO, Adjusted FFO, and Adjusted FFO available to common stockholders and unit holders Definition

We calculate FFO, which definition is clarified by NAREIT in its December 2018 white paper as net income (calculated in accordance with GAAP) excluding depreciation and amortization (excluding amortization of deferred financing costs and debt discounts), gains and losses from the sale of certain real estate assets, gains and losses from a change in control, impairment write-downs of certain real estate assets and investments in entities when the impairment is directly attributable to decreases in the value of depreciated real estate held by the entity, income (loss) from consolidated joint ventures attributable to noncontrolling interest, and pro rata adjustments for unconsolidated joint ventures.

To calculate Adjusted FFO available to common stockholders and unit holders, we then exclude, to the extent the following adjustments occurred during the periods presented:

- Right-of-use asset amortization;
- Impairment charges that do not meet the NAREIT definition above;
- Write-offs of deferred financing costs;
- Amortization of debt discounts or premiums and amortization of deferred financing costs;
- Loss on extinguishment of debt;
- Non-cash lease expense;
- Credit loss on held-to-maturity securities;
- Pension settlement charges;
- Additional pro rata adjustments from unconsolidated joint ventures;
- (Gains) losses on other assets;
- Transaction costs of acquisitions;
- Deferred income tax expense (benefit); and
- Any other adjustments we have identified herein.

FFO available to common stockholders and unit holders and Adjusted FFO available to common stockholders and unit holders exclude the ownership portion of the joint ventures not controlled or owned by the Company.

We believe that the presentation of FFO available to common stockholders and unit holders and Adjusted FFO available to common stockholders and unit holders provides useful information to investors regarding the performance of our ongoing operations because they are a measure of our operations without regard to specified non-cash items such as real estate depreciation and amortization, gain or loss on sale of assets and certain other items, which we believe are not indicative of the performance of our underlying hotel properties. We believe that these items are more representative of our asset base than our ongoing operations. We also use these non-GAAP financial measures as measures in determining our results after considering the impact of our capital structure.

We caution investors that amounts presented in accordance with our definitions of Adjusted EBITDA_{re}, Adjusted EBITDA_{re}, Excluding Noncontrolling Interest, FFO available to common stockholders and unit holders, and Adjusted FFO available to common stockholders and unit holders may not be comparable to similar measures disclosed by other companies, because not all companies calculate these non-GAAP measures in the same manner. These non-GAAP financial measures, and any related per share measures, should not be considered as alternative measures of our Net Income (Loss), operating performance, cash flow or liquidity. These non-GAAP financial measures may include funds that may not be available for our discretionary use due to functional requirements to conserve funds for capital expenditures and property acquisitions and other commitments and uncertainties. Although we believe that these non-GAAP financial measures can enhance an investor's understanding of our results of operations, these non-GAAP financial measures, when viewed individually, are not necessarily better indicators of any trend as compared to GAAP measures such as Net Income (Loss), Operating Income (Loss), or cash flow from operations.

The following is a reconciliation of our consolidated GAAP net income (loss) to EBITDAre and Adjusted EBITDAre for the years ended December 31, 2023, 2022 and 2021 (in thousands):

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Net income (loss)	\$341,800	\$134,948	\$(194,801)

(1) In September 2023, we determined to pivot from television network ownership in favor of a distribution approach. Therefore, we and our joint venture partner agreed to wind down the Circle joint venture, with operations ceasing December 31, 2023. As a result, we incurred a loss related to Circle of approximately \$10.5 million in 2023.

Liquidity and Capital Resources

Cash Flows Provided By Operating Activities. Cash flow from operating activities is the principal source of cash used to fund our operating expenses, interest payments on debt, maintenance capital expenditures, and dividends to stockholders. During 2023, our net cash flows provided by operating activities were \$557.1 million, primarily reflecting our net income before depreciation expense, amortization expense and other non-cash charges of approximately \$500.6 million and favorable changes in working capital of approximately \$56.5 million. The favorable changes in working capital primarily resulted from an increase in deferred revenues associated with increased advanced room deposits on future hotel room stays.

During 2022, our net cash flows provided by operating activities were \$419.9 million, primarily reflecting our net income before depreciation expense, amortization expense and other non-cash charges of approximately \$387.6 million, and favorable changes in working capital of approximately \$32.3 million. The favorable changes in working capital primarily resulted from an increase in deferred revenues associated with increased advanced ticket purchases at our OEG venues and advanced room deposits on future hotel room stays, and an increase in general accrued expenses, including an increase in management fees and incentive compensation, as a result of the increase in business levels. These favorable changes in working capital were partially offset by an increase in accounts receivable due to an increase in group business at our Gaylord Hotels properties.

Cash Flows Used in Investing Activities. During 2023, our primary use of funds for investing activities was the use of \$791.5 million in net cash to purchase JW Marriott Hill Country and purchases of property and equipment, which totaled \$206.8 million. Purchases of property and equipment consisted primarily of the construction of Ole Red Las Vegas, enhancements at Gaylord Rockies to better position the property for our group customers, a rooms, restaurant and meeting space renovation at Gaylord Palms, enhancements to the offerings at Block 21, and ongoing maintenance capital expenditures for each of our existing properties.

During 2022, our primary use of funds for investing activities was the use of \$94.0 million in net cash to fund a portion of the purchase price of Block 21 and purchases of property and equipment, which totaled \$89.5 million. Purchases of property and equipment consisted primarily of enhancements at Gaylord Rockies to better position the property for our group customers, a re-concepting of the food and beverage options at Gaylord National, the construction of our Ole Red locations in Las Vegas and the Nashville International Airport, and ongoing maintenance capital expenditures for our existing properties.

Cash Flows Provided By Financing Activities. Our cash flows from financing activities primarily reflect the incurrence and repayment of long-term debt and the payment of cash dividends. During 2023, net cash flows provided by financing activities were \$711.9 million, primarily reflecting the issuance of the \$400 Million 7.25% Senior Notes, \$395.4 million in net proceeds from the issuance of approximately 4.4 million shares of our common stock, and the net borrowing of \$121.3 million under our refinanced credit facility, partially offset by the payment of \$176.0 million in cash distributions and the payment of \$23.4 million in deferred financing costs.

During 2022, net cash flows provided by financing activities were \$50.7 million, primarily reflecting the net proceeds of the OEG Transaction of \$285.9 million and the incurrence of the OEG Term Loan and the repayment of our former term loan A, partially offset by the repayment of \$195.0 million under our credit facility and the payment of \$15.4 million in deferred financing costs.

Liquidity

At December 31, 2023, we had \$591.8 million in unrestricted cash and \$745.4 million available for borrowing in the aggregate under our revolving credit facility and the OEG revolving debt facility. During 2023, we issued \$400 million in new senior notes for net proceeds of \$393 million, received net proceeds of \$395.4 million from the issuance of approximately 4.4 million shares of our common stock, net borrowed \$121.3 million as part of the May 2023 upsizing of our Term Loan B from \$370.0 million to \$500.0 million, used \$791.5 million in net cash to purchase JW Marriott Hill Country, incurred capital expenditures of \$206.8 million and paid \$176.0 million in cash distributions. These changes, as well as the cash flows provided by operations discussed above, were the primary factors in the increase in our cash balance from 2022 to 2023.

We anticipate investing in our operations during 2024 by spending between approximately \$360 million and \$440 million in capital expenditures, which includes projects at Gaylord Rockies to construct a new events pavilion, enhance the grand lodge and reposition its food and beverage outlets; enhancements to meeting spaces at Gaylord Opryland to further appeal to our target group customers; a rooms renovation at the W Hotel and

common area enhancements at Block 21; the conversion of the Wildhorse Saloon to Category 10; the completion of Ole Red Las Vegas; a rooms renovation at Gaylord Palms; and ongoing maintenance capital for each of our current facilities. Further, our dividend policy provides that we will make minimum dividends of 100% of REIT taxable income annually. Following completion of the one-year extension of the Gaylord Rockies Loan (as defined and discussed below), we currently have no debt maturities until July 2024. We believe we will be able to refinance our debt agreements prior to their maturities, including extension options.

We believe that our cash on hand and cash flow from operations, together with amounts available for borrowing under each of our revolving credit facility and the OEG revolving credit facility, will be adequate to fund our general short-term commitments, as well as: (i) current operating expenses, (ii) interest expense on long-term debt obligations, (iii) financing lease and operating lease obligations, (iv) declared dividends and (v) the capital expenditures described above. Our ability to draw on our credit facility and the OEG revolving credit facility is subject to the satisfaction of provisions of the credit facility and the OEG revolving credit facility, as applicable.

Our outstanding principal debt agreements are described below. At December 31, 2023, there were no defaults under the covenants related to our outstanding debt.

Principal Debt Agreements

Credit Facility. On May 18, 2023, we entered into a Credit Agreement (the “Credit Agreement”) among the Company, as a guarantor, the Operating Partnership, as borrower, certain other subsidiaries of the Company party thereto, as guarantors, certain subsidiaries of the Company party thereto, as pledgors, the lenders party thereto and Wells Fargo Bank, National Association, as administrative agent, which replaced the Company’s previous credit facility. The Credit Agreement provides for a \$700.0 million revolving credit facility (the “Revolver”) and a \$500.0 million senior secured term loan B (the “Term Loan B”), as well as an accordion feature that will allow us to increase the facilities following the closing date by an aggregate of up to \$475 million, which may be allocated between the Revolver and the Term Loan B at our option.

Each of the Revolver and Term Loan B is guaranteed by us, each of our subsidiaries that own the Gaylord Hotels properties, other than Gaylord Rockies, and certain of our other subsidiaries. Each of the Revolver and the Term Loan B is secured by equity pledges of our subsidiaries that are the fee owners of Gaylord Opryland and Gaylord Texan, their respective direct and indirect parent entities, and the equity of Ryman Hotel Operations Holdco, LLC, a wholly-owned indirect subsidiary of the Company. Assets and equity of Gaylord Rockies and OEG are not subject to the liens of the Credit Agreement.

In addition, each of the Revolver and Term Loan B contains certain covenants which, among other things, limit the incurrence of additional indebtedness, investments, dividends, transactions with affiliates, asset sales, acquisitions, mergers and consolidations, liens and encumbrances and other matters customarily restricted in such agreements. The material financial covenants, ratios or tests contained in the Credit Agreement are as follows:

- We must maintain a consolidated net leverage ratio of not greater than 6.50x.
- We must maintain a consolidated fixed charge coverage ratio of not less than 1.50x.
- Our secured indebtedness must not exceed 30% of consolidated total asset value.
- Our secured recourse indebtedness must not exceed 10% of consolidated total asset value.
- Unencumbered leverage ratio must not exceed 55% (with the ability to surge to 60% in connection with a material acquisition).
- Unencumbered adjusted NOI to unsecured interest expense ratio must not exceed 2.0x.

If an event of default shall occur and be continuing under the Credit Agreement, the commitments under the Credit Agreement may be terminated and the principal amount outstanding under the Credit Agreement, together with all accrued unpaid interest and other amounts owing in respect thereof, may be declared immediately due and payable.

Revolving Credit Facility. The maturity date of the Revolver is May 18, 2027, with the option to extend the maturity date for a maximum of one additional year through either (i) a single 12-month extension option or (ii) two individual six-month extensions. Borrowings under the Revolver bear interest at an annual rate equal to, at our option, either (i) Adjusted Term SOFR plus the applicable margin ranging from 1.40% to 2.00%,

dependent upon our funded debt to total asset value ratio (as defined in the Credit Agreement), (ii) Adjusted Daily Simple SOFR plus the applicable margin ranging from 1.40% to 2.00%, dependent on our funded debt to total asset value ratio (as defined in the Credit Agreement) or (iii) a base rate as set in the Credit Agreement plus the applicable margin ranging from 0.40% to 1.00%, dependent upon our funded debt to asset value ratio (as defined in the Credit Agreement). Principal is payable in full at maturity, and the Revolver was undrawn at closing.

For purposes of the Revolver, Adjusted Term SOFR is calculated as the sum of Term SOFR plus an adjustment of 0.10% (all as more specifically described in the Credit Agreement), subject to a floor of 0.00%. Adjusted Daily Simple SOFR is calculated as the sum of SOFR plus an adjustment of 0.10% (all as more specifically described in the Credit Agreement), subject to a floor of 0.00%.

At December 31, 2023, no amounts were outstanding under the Revolver, and the lending banks had issued \$14.6 million of letters of credit under the Credit Agreement, which left \$685.4 million of availability under the Revolver (subject to the satisfaction of debt incurrence tests under the indentures governing our \$600 million in aggregate principal amount of senior notes due 2029 (the “\$600 Million 4.50% Senior Notes”), our \$700 million in aggregate principal amount of senior notes due 2027 (the “\$700 Million 4.75% Senior Notes”) and our \$400 Million 7.25% Senior Notes, which we met at December 31, 2023).

Term Loan B. The Term Loan B has a maturity date of May 18, 2030. The applicable interest rate margins for borrowings under the Term Loan B are, at our option, either (i) Term SOFR plus 2.75%, (ii) Daily Simple SOFR plus 2.75% or (iii) a base rate as set in the Credit Agreement plus 1.75%. At December 31, 2023, the interest rate on the Term Loan B was Term SOFR plus 2.75%. The Term Loan B amortizes in equal quarterly installments in aggregate annual amounts equal to 1.0% of the original principal amount of \$500.0 million, with the balance due at maturity. In addition, if for any fiscal year there is Excess Cash Flow (as defined in the Credit Agreement), an additional principal amount is required. Amounts borrowed under the Term Loan B that are repaid or prepaid may not be reborrowed. At December 31, 2023, \$496.3 million in borrowings were outstanding under the Term Loan B. A portion of the proceeds from the Term Loan B were used to repay in full the approximately \$370 million balance of our previous term loan B.

For purposes of the Term Loan B, each of Term SOFR and Daily Simple SOFR are subject to a floor of 0.00%.

\$700 Million 4.75% Senior Notes. In September 2019, the Operating Partnership and RHP Finance Corporation (“Finco”) completed the private placement of \$500.0 million in aggregate principal amount of senior notes due 2027, which are guaranteed by the Company and its subsidiaries that guarantee the Credit Agreement. The \$500 Million 4.75% Senior Notes and guarantees were issued pursuant to an indenture by and among the issuing subsidiaries and the guarantors and U.S. Bank National Association as trustee. The \$500 Million 4.75% Senior Notes have a maturity date of October 15, 2027 and bear interest at 4.75% per annum, payable semi-annually in cash in arrears on April 15 and October 15 of each year. The \$500 Million 4.75% Senior Notes are general unsecured and unsubordinated obligations of the issuing subsidiaries and rank equal in right of payment with such subsidiaries’ existing and future senior unsecured indebtedness, including the \$600 Million 4.50% Senior Notes, and senior in right of payment to future subordinated indebtedness, if any. The \$500 Million 4.75% Senior Notes are effectively subordinated to the issuing subsidiaries’ secured indebtedness to the extent of the value of the assets securing such indebtedness. The guarantees rank equally in right of payment with the applicable guarantor’s existing and future senior unsecured indebtedness and senior in right of payment to any future subordinated indebtedness of such guarantor. The \$500 Million 4.75% Senior Notes are effectively subordinated to any secured indebtedness of any guarantor to the extent of the value of the assets securing such indebtedness and structurally subordinated to all indebtedness and other obligations of the Operating Partnership’s subsidiaries that do not guarantee the \$500 Million 4.75% Senior Notes.

In October 2019, we completed a tack-on private placement of \$200.0 million in aggregate principal amount of 4.75% senior notes due 2027 (the “additional 2027 notes”) at an issue price of 101.250% of their aggregate principal amount plus accrued interest from the September 19, 2019 issue date for the \$500 Million 4.75% Senior Notes. The additional 2027 notes and the \$500 Million 4.75% Senior Notes constitute a single class of securities (collectively, the “\$700 Million 4.75% Senior Notes”). All other terms and conditions of the additional 2027 notes are identical to the \$500 Million 4.75% Senior Notes.

The \$700 Million 4.75% Senior Notes are currently redeemable, in whole or in part, at a redemption price expressed as a percentage of the principal amount thereof, which percentage is 102.375%, 101.188%, and 100.00% beginning on October 15 of 2023, 2024, and 2025, respectively, plus accrued and unpaid interest thereon to, but not including, the redemption date.

We completed a registered offer to exchange the \$700 Million 4.75% Senior Notes for registered notes with substantially identical terms as the \$700 Million 4.75% Senior Notes in July 2020.

\$400 Million 7.25% Senior Notes. On June 22, 2023, the Operating Partnership and Finco completed the private placement of \$400.0 million in aggregate principal amount of 7.25% senior notes due 2028, which are guaranteed by the Company and its subsidiaries that guarantee the Credit Agreement. The \$400 Million 7.25% Senior Notes and guarantees were issued pursuant to an indenture by and among the issuing subsidiaries, the guarantors and U.S. Bank Trust Company National Association as trustee. The \$400 Million 7.25% Senior Notes have a maturity date of July 15, 2028 and bear interest at 7.25% per annum, payable semi-annually in cash in arrears on January 15 and July 15 each year, beginning January 15, 2024. The \$400 Million 7.25% Senior Notes are general unsecured and unsubordinated obligations of the issuing subsidiaries and rank equal in right of payment with such subsidiaries' existing and future senior unsecured indebtedness, including the \$700 Million 4.75% Senior Notes and \$600 Million 4.50% Senior Notes, and senior in right of payment to future subordinated indebtedness, if any. The \$400 Million 7.25% Senior Notes are effectively subordinated to the issuing subsidiaries' secured indebtedness to the extent of the value of the assets securing such indebtedness. The guarantees rank equally in right of payment with the applicable guarantor's existing and future senior unsecured indebtedness and senior in right of payment to any future subordinated indebtedness of such guarantor. The \$400 Million 7.25% Senior Notes are effectively subordinated to any secured indebtedness of any guarantor to the extent of the value of the assets securing such indebtedness and structurally subordinated to all indebtedness and other obligations of the Operating Partnership's subsidiaries that do not guarantee the \$400 Million 7.25% Senior Notes.

The \$400 Million 7.25% Senior Notes are redeemable before July 15, 2025, in whole or in part, at 100.00%, plus accrued and unpaid interest thereon to, but not including, the redemption date, plus a make-whole premium. The \$400 Million 7.25% Senior Notes will be redeemable, in whole or in part, at any time on or after July 15, 2025 at a redemption price expressed as a percentage of the principal amount thereof, which percentage is 103.625%, 101.813% and 100.000% beginning on July 15 of 2025, 2026, and 2027, respectively, plus accrued and unpaid interest thereon to, but not including, the redemption date.

\$600 Million 4.50% Senior Notes. On February 17, 2021, the Operating Partnership and Finco completed the private placement of \$600.0 million in aggregate principal amount of senior notes due 2029, which are guaranteed by the Company and its subsidiaries that guarantee the Credit Agreement. The \$600 Million 4.50% Senior Notes and guarantees were issued pursuant to an indenture by and among the issuing subsidiaries and the guarantors and U.S. Bank National Association as trustee. The \$600 Million 4.50% Senior Notes have a maturity date of February 15, 2029 and bear interest at 4.50% per annum, payable semi-annually in cash in arrears on February 15 and August 15 each year. The \$600 Million 4.50% Senior Notes are general unsecured and unsubordinated obligations of the issuing subsidiaries and rank equal in right of payment with such subsidiaries' existing and future senior unsecured indebtedness, including the \$700 Million 4.75% Senior Notes, and senior in right of payment to future subordinated indebtedness, if any. The \$600 Million 4.50% Senior Notes are effectively subordinated to the issuing subsidiaries' secured indebtedness to the extent of the value of the assets securing such indebtedness. The guarantees rank equally in right of payment with the applicable guarantor's existing and future senior unsecured indebtedness and senior in right of payment to any future subordinated indebtedness of such guarantor. The \$600 Million 4.50% Senior Notes are effectively subordinated to any secured indebtedness of any guarantor to the extent of the value of the assets securing such indebtedness and structurally subordinated to all indebtedness and other obligations of the Operating Partnership's subsidiaries that do not guarantee the \$600 Million 4.50% Senior Notes.

The \$600 Million 4.50% Senior Notes are redeemable before February 15, 2024, in whole or in part, at 100.00%, plus accrued and unpaid interest thereon to, but not including, the redemption date, plus a make-whole premium. The \$600 Million 4.50% Senior Notes will be redeemable, in whole or in part, at any time on or after February 15, 2024 at a redemption price expressed as a percentage of the principal amount thereof, which percentage is 102.250%, 101.500%, 100.750%, and 100.000% beginning on February 15 of 2024, 2025, 2026, and 2027, respectively, plus accrued and unpaid interest thereon to, but not including, the redemption date.

Each of the indentures governing the \$700 Million 4.75% Senior Notes, the \$600 Million 4.50% Senior Notes and the \$400 Million 7.25% Senior Notes contain certain covenants which, among other things and subject to certain exceptions and qualifications, limit the incurrence of additional indebtedness, investments, dividends, transactions with affiliates, assets sales, acquisitions, mergers and consolidations, liens and encumbrances and other matters customarily restricted in such agreements. In addition, if the Company experiences certain kinds of changes of control, the Company must offer to repurchase some or all of the senior notes at 101% of their principal amount, plus accrued and unpaid interest, if any, up to, but excluding, the repurchase date.

\$800 Million Term Loan (Gaylord Rockies). On July 2, 2019, Aurora Convention Center Hotel, LLC (“Hotel Owner”) and Aurora Convention Center Hotel Lessee, LLC (“Tenant” and collectively with Hotel Owner, the “Loan Parties”), subsidiaries of the entities comprising the previous Gaylord Rockies joint venture, entered into a Second Amended and Restated Loan Agreement (the “Gaylord Rockies Loan”) with Wells Fargo Bank, National Association, as administrative agent, which refinanced Gaylord Rockies’s existing \$500 million construction loan and \$39 million mezzanine loan, which were scheduled to mature in December 2019. The Gaylord Rockies Loan consists of an \$800.0 million secured term loan facility and matures July 2, 2024 with two, one-year extension options remaining, subject to certain requirements in the Gaylord Rockies Loan. The first one-year extension option was successfully completed in May 2023. The Gaylord Rockies Loan bears interest at Adjusted Daily Simple SOFR plus 2.50%. We have entered into an interest rate swap to fix the SOFR portion of the interest rate at 5.2105% for the fifth year of the loan. We have designated this interest rate swap as an effective cash flow hedge.

The Gaylord Rockies Loan is secured by a deed of trust lien on the Gaylord Rockies real estate and related assets. Generally, the Gaylord Rockies Loan is non-recourse to the Company, subject to customary non-recourse carve-outs.

On June 30, 2020, the Loan Parties entered into Amendment No. 1 (the “Loan Amendment”) to the Gaylord Rockies Loan, by and among the Loan Parties, Wells Fargo Bank, National Association, as administrative agent, and the lenders from time to time party thereto. The Loan Amendment modified the Gaylord Rockies Loan to (i) provide for the ability to use cash for certain purposes, even during a Cash Sweep Period (as defined in the Loan Agreement) and (ii) provide favorable changes to the debt service coverage ratio provisions. The Loan Amendment includes restrictions on distributions to our subsidiaries that own Gaylord Rockies.

Further, on May 2, 2023, the Loan Parties entered into a Benchmark Replacement Modification Agreement to the Gaylord Rockies Loan Agreement, which replaced LIBOR with Adjusted Daily Simple SOFR.

OEG Credit Agreement. On June 16, 2022, OEG Borrower, LLC (“OEG Borrower”) and OEG Finance, LLC (“OEG Finance”), each a wholly owned direct or indirect subsidiary of OEG, entered into a credit agreement (the “OEG Credit Agreement”) among OEG Borrower, as borrower, OEG Finance, certain subsidiaries of OEG Borrower from time to time party thereto as guarantors, the lenders party thereto and JPMorgan Chase Bank, N.A., as administrative agent. The OEG Credit Agreement provides for (i) a senior secured term loan facility in the aggregate principal amount of \$300.0 million (the “OEG Term Loan”) and (ii) a senior secured revolving credit facility in an aggregate principal amount not to exceed \$65.0 million (the “OEG Revolver”). The OEG Term Loan matures on June 16, 2029, and the OEG Revolver matures on June 16, 2027. The OEG Term Loan bears interest at a rate equal to either, at OEG Borrower’s election, (i) the Alternate Base Rate plus 4.00% or (ii) Adjusted Term SOFR plus 5.00% (all as specifically more described in the OEG Credit Agreement). In November 2022, OEG entered into an interest rate swap to fix the SOFR portion of the interest rate on \$100.0 million of borrowings at 4.533% through December 2025. The OEG Revolver bears interest at a rate equal to either, at OEG Borrower’s election, (i) the Alternate Base Rate plus 3.75% or (ii) Adjusted Term SOFR plus 4.25%, which shall be subject to reduction in the applicable margin based upon OEG’s First Lien Leverage Ratio (all as specifically more described in the OEG Credit Agreement). The OEG Term Loan and OEG Revolver are each secured by substantially all of the assets of OEG Finance and each of its subsidiaries (other than Block 21 and Circle, as more specifically described in the OEG Credit Agreement). The net proceeds we received from the OEG Term Loan were used to repay the outstanding balance of our former term loan A. At December 31, 2023, \$296.3 million was outstanding under the OEG Term Loan and \$5.0 million was outstanding under the OEG Revolver.

Block 21 CMBS Loan. At the closing of the purchase of Block 21 on May 31, 2022, a subsidiary of the Company assumed a \$136 million, ten-year, non-recourse term loan secured by a mortgage on Block 21 (the

“Block 21 CMBS Loan”). The Block 21 CMBS Loan has a fixed interest rate of 5.58% per annum, payable monthly, matures January 5, 2026, and provides for payments due monthly based on a 30-year amortization. At December 31, 2023, \$131.9 million was outstanding under the Block 21 CMBS Loan.

The Block 21 CMBS Loan contains customary financial covenants and other restrictions, including sponsor net worth and liquidity requirements, and debt service coverage ratio targets that Block 21 must meet in order to avoid a “Trigger Period,” the occurrence of which does not constitute a default. During the Trigger Period, any cash generated in excess of amounts necessary to fund loan obligations, budgeted operating expenses and specified reserves will not be distributed to Block 21. Block 21 was in a Trigger Period as of our purchase date but exited the Trigger Period with first quarter 2023 results.

Additional Debt Limitations. Pursuant to the terms of the management agreements and pooling agreement with Marriott for our Gaylord Hotels properties, excluding Gaylord Rockies, we are subject to certain debt limitations described below.

The management agreements provide for the following limitations on indebtedness encumbering a hotel:

- The aggregate principal balance of all mortgage and mezzanine debt encumbering the hotel shall be no greater than 75% of the fair market value of the hotel; and
- The ratio of (a) aggregate Operating Profit (as defined in the management agreement) in the 12 months prior to the closing on the mortgage or mezzanine debt to (b) annual debt service for the hotel shall equal or exceed 1.2:1; but is subject to the pooling agreement described below.

The pooled limitations on Secured Debt (as defined in the pooling agreement) are as follows:

- The aggregate principal balance of all mortgage and mezzanine debt on Pooled Hotels (as defined in the pooling agreement), shall be no more than 75% of the fair market value of Pooled Hotels.
- The ratio of (a) aggregate Operating Profit (as defined in the pooling agreement) of Pooled Hotels in the 12 months prior to closing on any mortgage or mezzanine debt, to (b) annual debt service for the Pooled Hotels, shall equal or exceed 1.2:1.

Gaylord Rockies is not a Pooled Hotel for this purpose.

Estimated Interest on Principal Debt Agreements

Based on the stated interest rates on our fixed-rate debt and the rates in effect at December 31, 2023 for our variable-rate debt after considering interest rate swaps, our estimated interest obligations over the next five years are \$783.9 million. These estimated obligations are \$198.5 million in 2024, \$166.4 million in 2025, \$158.5 million in 2026, \$150.6 million in 2027, and \$110.0 million in 2028. Variable rates, as well as outstanding principal balances, could change in future periods. See “Principal Debt Agreements” above for a discussion of our outstanding long-term debt. See “Supplemental Cash Flow Information” in Note 1 to our consolidated financial statements included herein for a discussion of the interest we paid during 2023, 2022 and 2021.

Inflation

Inflation has had a more meaningful impact on our business during recent periods than in historical periods. However, favorable occupancy, ADR and outside-the-room spend in our Hospitality segment and business levels in our Entertainment segment have reduced the impact of increased operating costs, including increased wages and increased insurance and food and beverage costs, on our financial position and results of operations.

Additionally, increased interest rates have driven higher interest expense on our higher debt levels. In an effort to mitigate the impact of increased interest rates, at December 31, 2023, 80% of our outstanding debt is fixed-rate debt, after considering the impact of interest rate swaps.

We continue to monitor inflationary pressures and may need to consider potential mitigation actions in future periods. A prolonged inflationary environment could adversely affect our operating costs, customer spending and bookings, and our financial results.

Supplemental Guarantor Financial Information

The Company’s \$400 Million 7.25% Senior Notes, \$600 Million 4.50% Senior Notes and \$700 Million 4.75% Senior Notes were each issued by the Issuers and are guaranteed on a senior unsecured basis by the Company (as the parent company), each of the Operating Partnership’s subsidiaries that own the Gaylord Hotels

properties, excluding Gaylord Rockies, and certain other of the Company’s subsidiaries, each of which also guarantees the Operating Partnership’s Credit Agreement, as amended (such subsidiary guarantors, together with the Company, the “Guarantors”). The Guarantors are 100% owned by the Operating Partnership or the Company, and the guarantees are full and unconditional and joint and several. The guarantees rank equally in right of payment with each Guarantor’s existing and future senior unsecured indebtedness and senior in right of payment to all future subordinated indebtedness, if any, of such Guarantor. Not all of the Company’s subsidiaries have guaranteed these senior notes, and the guarantees are structurally subordinated to all indebtedness and other obligations of such subsidiaries that have not guaranteed these senior notes.

The following tables present summarized financial information for the Issuers and the Guarantors on a combined basis and the intercompany balances and transactions between these parties, as well as any investments in or equity in earnings from non-guarantor subsidiaries, have been eliminated (amounts in thousands):

	<u>December 31, 2023</u>
Net receivables due from non-guarantor subsidiaries	\$ 8,593
Other assets	<u>2,485,488</u>
Total assets	<u>\$2,494,081</u>
Other liabilities	<u>2,392,671</u>
Total liabilities	<u>\$2,392,671</u>
Total noncontrolling interest	<u>\$ 3,624</u>
	<u>Year Ended December 31, 2023</u>
Revenues from non-guarantor subsidiaries	\$459,749
Operating expenses (excluding expenses to non-guarantor subsidiaries)	133,522
Expenses to non-guarantor subsidiaries	13,554
Operating income	312,673
Interest income from non-guarantor subsidiaries	1,252
Net income	208,217
Net income available to common stockholders	177,634

Critical Accounting Policies and Estimates

“Management’s Discussion and Analysis of Financial Condition and Results of Operations” discusses our consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles. Accounting estimates are an integral part of the preparation of the consolidated financial statements and the financial reporting process and are based upon current judgments. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reported period. Certain accounting estimates are particularly sensitive because of their complexity and the possibility that future events affecting them may differ materially from our current judgments and estimates.

This listing of critical accounting policies is not intended to be a comprehensive list of all of our accounting policies. In many cases, the accounting treatment of a particular transaction is specifically dictated by generally accepted accounting principles, with no need for management’s judgment regarding accounting policy. We believe that of our significant accounting policies, which are discussed in Note 1 to the consolidated financial statements included herein, the following involve a higher degree of judgment and complexity.

Impairment of long-lived and other assets. In accounting for our long-lived and other assets, we assess our long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of

the assets or asset groups may not be recoverable. Factors we consider when assessing whether impairment indicators exist include (i) significant under-performance relative to historical or projected future operating results, (ii) significant changes in the manner of our use of assets or the strategy for our overall business, or (iii) significant negative industry or economic trends.

Recoverability of property and equipment and definite-lived intangible assets that will continue to be used is measured by comparing the carrying amount of the asset or asset group to the related total future undiscounted net cash flows. If an asset or asset group's carrying value is not recoverable through those cash flows, the asset group is considered to be impaired. The impairment is measured by the difference between the assets' carrying amount and their fair value, which is estimated using discounted cash flow analyses that utilize comprehensive cash flow projections, as well as observable market data to the extent available. Estimating the total future undiscounted net cash flows, as well as the fair value of assets or asset groups, if necessary, requires management to make assumptions and projections of future cash flows, long-term growth rates, asset holding periods, and other factors. The assumptions used to assess impairment consider historical trends, macroeconomic conditions, and projections consistent with our operating strategy. Changes in these estimates and assumptions can have a significant impact on the assessment, which could result in material impairment losses.

Credit losses on financial assets. We assess our financial assets, including the bonds we received in 2008 related to the Gaylord National construction ("Gaylord National Bonds"), and our accounts receivable for credit losses utilizing the expected loss model prescribed by ASC 326, "Financial Instruments – Credit Losses," and record a reserve, in the form of an allowance for credit losses, against the amortized cost basis for the portion of the financial asset that will not be recovered due to credit losses.

We provide credit loss reserves for the Gaylord National Bonds by comparing the amortized cost basis to their fair value. If the amortized cost basis exceeds the fair value, an expected credit loss exists and the allowance for credit losses is measured as the difference between the bonds' amortized cost basis and fair value, which is estimated using discounted cash flow analyses that utilize comprehensive cash flow projections over the contractual life of the bonds, as well as observable market data to the extent available. Our estimate of the fair value of the Gaylord National Bonds is sensitive to the significant assumptions of the discounted cash flow analysis, which include the projections of hotel taxes (which are based on expected hotel rooms revenues) and property taxes, both of which are affected by expectations about future market and economic conditions, particularly those in the Washington D.C. market. Further, such assumptions require significant judgment as the Gaylord National Bonds and related projected cash flows continue for an extended period of time through 2037.

We provide for credit loss reserves for trade receivables based upon a percentage of accounts receivable that considers historical write-offs, current economic conditions, and management's expectations about future economic conditions, as well as periodic evaluations of the aging of accounts receivable.

Income taxes. As a REIT, generally we will not be subject to federal corporate income taxes on ordinary taxable income and capital gains income from real estate investments that we distribute to our stockholders. We will continue to be required to pay federal and state corporate income taxes on earnings of our TRSs.

Our deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

We must assess the likelihood that we will be able to recover our deferred tax assets. If recovery is not likely, the provision for taxes is increased by recording a reserve, in the form of a valuation allowance, against the estimated deferred tax assets that will not ultimately be recoverable.

In addition, we must evaluate uncertainties in the application of complex tax regulations in the calculation of tax liabilities. We provide for uncertain tax positions and the related interest and penalties based upon management's assessment of whether a tax benefit is more likely than not to be sustained upon examination by tax authorities. We make this assessment based on only the technical merits of the tax position. At December 31, 2023 and 2022, we had no accruals for unrecognized tax benefits. We recognize interest and penalties related to uncertain tax positions, if any, in income tax expense. At December 31, 2023 and 2022, we have accrued no interest or penalties related to uncertain tax positions.

Acquisitions and Purchase Price Allocations. Accounting for the acquisition of an entity as a business combination, becoming the primary beneficiary of a previously unconsolidated variable interest entity, or a significant asset acquisition requires an allocation of the purchase price to the assets acquired and the liabilities assumed in the transaction based on their respective estimated fair values, which requires us to make significant estimates and assumptions regarding the fair value of the acquired assets and liabilities assumed. We may engage third parties to provide valuation services to assist in the fair value determinations of the long-lived assets acquired and the liabilities assumed. The most difficult estimations of individual fair values are those involving long-lived assets, such as property, equipment, and intangible assets, that are assumed as part of the transaction, as well as any noncontrolling interests. When making fair value determinations, we consider market data for similar assets, expected cash flows discounted at risk-adjusted rates, and replacement cost for assets, among other information. Management judgment is required when making the significant assumptions used to value long-lived and identifiable intangible assets, which include projected revenue growth, estimated cash flows, discount rates, and other factors.

Legal Contingencies. We are subject to various legal proceedings and claims, the outcomes of which are subject to significant uncertainty. We record an accrual for loss contingencies when a loss is probable and the amount of the loss can be reasonably estimated, the determination of which requires significant judgment. We review these accruals each reporting period and make revisions based on changes in facts and circumstances, but resolution of legal matters in a manner inconsistent with our expectations could have a material impact on our financial condition and operating results.

Recently Issued Accounting Standards

For a discussion of recently issued accounting standards, see Note 1 to our consolidated financial statements included herein.

Quantitative and Qualitative Disclosures about Market Risk

Market risk is the risk of loss arising from adverse changes in market rates and prices, such as interest rates, foreign currency exchange rates and commodity prices. Our primary exposures to market risk are from changes in interest rates, including the rising interest rates experienced in recent years, and changes in asset values of investments that fund our pension plan. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and “Risk Factors,” in this annual report for more discussion on how interest rate increases affect our operations and financial condition.

Risk Related to Changes in Interest Rates

At December 31, 2023, borrowings outstanding under the Term Loan B bore interest at an annual rate of SOFR plus 2.75%. If SOFR were to increase by 100 basis points, our annual interest cost on the \$496.3 million in borrowings outstanding at December 31, 2023 would increase by approximately \$5.0 million.

At December 31, 2023, borrowings outstanding under the Gaylord Rockies Loan bore interest at an annual rate of SOFR plus 2.50%. We have hedged our interest rate exposure with an interest rate swap that fixes the SOFR portion of interest payments through July 2024. If we do not enter into an additional interest rate swap, and we extend the maturity date of the Gaylord Rockies Loan beyond July 2024, we will be subject to interest rate risk under the Gaylord Rockies Loan from July 2024 through the extended maturity date.

At December 31, 2023, borrowings outstanding under the OEG Term Loan bore interest at an annual rate of SOFR plus 5.00%. We have hedged our interest rate exposure on \$100.0 million of borrowings under the OEG Term Loan with an interest rate swap that fixes the SOFR portion of interest payments through December 2025. If Adjusted Term SOFR were to increase by 100 basis points, our annual interest cost on the \$196.3 million in borrowings outstanding under the OEG Term Loan that are not hedged at December 31, 2023 would increase by approximately \$2.0 million.

Certain of our outstanding cash balances are occasionally invested overnight with high credit quality financial institutions. We do not have significant exposure to changing interest rates on invested cash at December 31, 2023. As a result, the interest rate market risk implicit in these investments at December 31, 2023, if any, is low.

Risk Related to Changes in Asset Values that Fund our Pension Plans

The expected rates of return on the assets that fund our defined benefit pension plan are based on the asset allocation of the plan and the long-term projected return on those assets, which represent a diversified mix of

equity securities, fixed income securities and cash. At December 31, 2023, the value of the investments in the pension fund was \$52.6 million, and an immediate ten percent decrease in the value of the investments in the fund would have reduced the value of the fund by approximately \$5.3 million.

Summary

Based upon our overall market risk exposures at December 31, 2023, we believe that the effects of changes in interest rates related to our borrowings and asset values of investments that fund our pension plan could be material to our consolidated financial position, results of operations or cash flows.

Forward-Looking Statements

This annual report contains “forward-looking statements” intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements concern our goals, beliefs, expectations, strategies, objectives, plans, future operating results and underlying assumptions, and other statements that are not necessarily based on historical facts. Without limitation, you can identify these statements by the fact that they do not relate strictly to historical or current facts, and these statements may contain words such as “may,” “will,” “could,” “should,” “might,” “projects,” “expects,” “believes,” “anticipates,” “intends,” “plans,” “continue,” “estimate,” or “pursue,” or the negative or other variations thereof or comparable terms. In particular, they include statements relating to, among other things, future actions, strategies, future performance, the outcome of contingencies such as legal proceedings and future financial results. These also include statements regarding (i) the future performance of our business, anticipated business levels and our anticipated financial results during future periods, and other business or operational issues; (ii) the effect of our election to be taxed as a REIT and maintain REIT status for federal income tax purposes; (iii) the holding of our non-qualifying REIT assets in one or TRSs; (iv) our dividend policy, including the frequency and amount of any dividend we may pay; (v) our strategic goals and potential growth opportunities, including future expansion of the geographic diversity of our existing asset portfolio through acquisitions and investment in joint ventures; (vi) Marriott’s ability to effectively manage our hotels and other properties; (vii) our anticipated capital expenditures and investments; (viii) the potential operating and financial restrictions imposed on our activities under existing and future financing agreements including our credit facility and other contractual arrangements with third parties, including management agreements with Marriott; (ix) our ability to borrow available funds under our credit facility; (x) our expectations about successfully amending the agreements governing our indebtedness should the need arise; (xi) the effects of inflation and increased costs on our business and on our customers, including group customers at our hotels; and (xii) any other business or operational matters.

Although we believe that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, beliefs and expectations, our actual results could differ materially from the results anticipated by the forward-looking statements as a result of many known and unknown factors including, but not limited to, those discussed in “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and elsewhere in this annual report. Any forward-looking statement made in this annual report speaks only as of the date on which the statement is made. New risks and uncertainties may arise from time to time, and it is impossible for us to predict these events or how they may affect us. We have no duty to, and do not intend to, update or revise the forward-looking statements we make in this annual report, except as may be required by law.

RISK FACTORS SUMMARY

Our business faces significant risks and uncertainties. If any of the following risks are realized, our business, financial condition and results of operations could be materially and adversely affected. You should carefully review and consider the full discussion of our risk factors in the section titled “Risk Factors” in this annual report. Set forth below is a summary list of the principal risk factors as of the date of the filing of our Annual Report on Form 10-K for the fiscal year ended December 31, 2023:

- If Marriott or any future third-party hotel manager does not manage our hotel properties or other businesses successfully, our financial condition, results of operations and our ability to service debt and make distributions to our stockholders may be negatively impacted. Further, the operation and management of our current hotel properties, the operation of which generates substantially all of our Hospitality segment revenue, is concentrated in Marriott.
- Restrictive covenants and other provisions in our hotel management agreements with third-party hotel managers could limit our ability to sell or lease our hotel properties or refinance our existing debt. In addition, Marriott and any future third-party hotel manager may own or operate hotels that compete with our hotel properties.
- Our concentration in the hospitality industry, and in particular the group-oriented meetings sector of the hospitality industry, exposes us to certain risks outside of our and Marriott’s control. In addition, the geographic concentration of our current hotel properties subjects us to a greater degree of risk to certain factors.
- Inflation may adversely affect our financial condition and results of operations.
- The hotel business is capital-intensive, and our inability to obtain financing or successfully complete acquisitions or capital improvements, or the disruption associated with them, could limit our growth or impact our performance.
- Our TRS lessee structure subjects us to the risk of increased hotel operating expenses and the inability of our TRS lessees to make lease payments to us.
- We and our third-party hotel manager rely on information technology in our operations, and any material failure, inadequacy, interruption, or security failure could harm our business. In addition, changes in privacy and data security laws could increase our operating costs and increase our exposure to fines and litigation, and cyber security incidents could have a disruptive effect on our business.
- Our real estate assets are subject to numerous risks, including environmental regulations that could impose significant financial liability on us and illiquidity of real estate investments. Moreover, compliance with the Americans with Disabilities Act could require us to incur substantial costs.
- As an owner of hotel properties and operator of leisure businesses, we are subject to risks relating to acts of God, outbreaks of pandemic disease, terrorist activity and war. Our operating results and ability to service debt and make distributions to stockholders may be adversely affected by operating risks common to the lodging industry.
- We are subject to risks associated with our hotel managers’ employment of hotel personnel, particularly with hotels whose managers employ unionized labor, which could increase our hotels’ operating costs, including, but not limited to, an increase in wages and benefit costs, reduce the flexibility of our third-party hotel managers to adjust the size of the workforce at our hotel properties and impair our ability to make distributions to our stockholders. Our business could suffer if we or our hotel managers cannot attract and retain qualified personnel.
- Any failure to protect the trademarks and intellectual property used in our business could reduce the value of our brand names and harm our business.
- Our financial and operating results may suffer if we are unsuccessful in integrating JW Marriott Hill Country with our existing assets, and integrating JW Marriott Hill Country may be more difficult, costly or time consuming than expected.

- We conduct the operations of our Entertainment segment through OEG and our ownership is subject to the terms of agreements with A-OEG Holdings, LLC, an affiliate of Atairos. Any disagreement with Atairos or its affiliate may adversely affect our interest in OEG.
- If we fail to remain qualified as a REIT, we would be subject to tax at corporate income tax rates and would not be able to deduct distributions to stockholders when computing our taxable income. As a REIT, failure to make required distributions to our stockholders would subject us to federal and state corporate income tax.
- Even though we are conducting our business as a REIT, certain of our business activities will be subject to corporate level income tax, which will continue to reduce our cash flows, and we will have potential deferred and contingent tax liabilities.
- Complying with REIT requirements may limit our ability to hedge effectively and increase the costs of our hedging, may cause us to incur tax liabilities, and may limit our flexibility or cause us to forego otherwise attractive opportunities. Further, we may be required to borrow funds, sell assets, or issue equity to satisfy our REIT distribution requirements or maintain the asset ownership tests.
- Legislative or other actions affecting REITs could have a negative effect on us or our stockholders, and even as a REIT, changes in federal, state, or local tax law, interpretations of existing tax law or agreements with tax authorities could affect our profitability and financial condition by increasing our tax costs.
- The ability of our board of directors to revoke our REIT qualification, without stockholder approval, may cause adverse consequences to our stockholders.
- Our planned use of TRSs may cause us to fail to qualify as a REIT, and if our leases of our hotel properties to TRS lessees are not true leases for federal income tax purposes, we may fail to qualify as a REIT.
- If Marriott or any future third-party hotel manager fails to qualify as an “eligible independent contractor,” or if our hotels are not “qualified lodging facilities,” we may fail to qualify as a REIT.
- Our cash distributions are not guaranteed and may fluctuate.
- We have invested in, and in the future may invest in, joint ventures, certain minority equity interests, mortgage loans or mezzanine debt over which we may not have significant control, to or for which we may owe significant funding or obligations and for which there is no readily available market, and these investments may not be profitable.
- Our substantial debt could reduce our cash flow and limit our business activities, and our indebtedness is secured by a substantial portion of our assets. In addition, we could be required to refinance our debt before it matures and there is no assurance that we will be able to refinance our debt on acceptable terms.
- We are a holding company and depend on our subsidiaries’ cash flow to meet our debt service obligations. To service our debt and pay other obligations, we will require a significant amount of cash, which may not be available to us.
- The agreements governing our debt contain various covenants that may limit our ability to operate our business and impair our ability to make distributions to our stockholders in accordance with our announced intended dividend policy or otherwise.
- The ownership limitations in our charter may restrict or prevent stockholders from engaging in certain transfers of our common stock.
- We are subject to certain general risks, including, but not limited to, risks related to our environmental, social and governance practices, class actions and other lawsuits, the market price of our common stock, and our board of directors’ ability to change our major policies.

RISK FACTORS

You should carefully consider the following specific risk factors as well as the other information contained or incorporated by reference in this annual report as these are important factors, among others, that could cause our actual results to differ from our expected or historical results. It is not possible to predict or identify all such factors. Consequently, you should not consider any such list to be a complete statement of all our potential risks or uncertainties. Some statements in this annual report are “forward-looking statements” and are qualified by the cautionary language regarding such statements. See “Forward-Looking Statements” above.

Risks Relating to Our Business

If Marriott or any future third-party hotel manager does not manage our hotel properties or other businesses successfully, our financial condition, results of operations and our ability to service debt and make distributions to our stockholders may be negatively impacted.

Due to federal income tax laws that restrict REITs from operating and managing hotels, we do not operate or manage the day-to-day functions of any of our hotel properties as a REIT. We lease or sublease our hotel properties to our TRSs, and such TRS lessees have engaged Marriott as a third-party hotel manager pursuant to hotel management agreements. Marriott manages the day-to-day operations of our Gaylord Hotels properties and JW Marriott Hill Country, as well as the Inn at Opryland, the AC Hotel, Gaylord Springs, the W Austin and the General Jackson. We will identify third-party hotel managers to operate and manage any hotels that we acquire in the future. Our third-party hotel managers are responsible for the day-to-day management of our hotel properties, including, but not limited to, implementing significant operating decisions, setting rates for rooms and meeting space, controlling revenue and expenditures, collecting accounts receivable, and recruiting, employing and supervising employees at our hotel properties. We do not have the authority to require our third-party hotel managers to operate our hotel properties in a particular manner, although we have consent and approval rights for certain matters under our hotel management agreements with Marriott, subject to the limitations described therein. As a result, our financial condition, results of operations and our ability to service debt and make distributions to our stockholders are largely dependent on the ability of our third-party hotel managers to operate our hotel properties successfully. Any failure by our third-party hotel managers to provide quality services and amenities or to maintain and protect a quality brand name and reputation could have a negative impact on their ability to operate and manage our hotel properties successfully and could negatively impact our financial condition, results of operations and our ability to service debt and make distributions to our stockholders.

We cannot assure you that our third-party hotel managers will operate and manage our hotel properties in a manner that is consistent with their obligations under the hotel management agreements, that our third-party hotel managers will not be negligent in their performance or engage in other criminal or fraudulent activity, or that they will not otherwise default on their management obligations to us.

Even if we believe our hotel properties are being operated inefficiently or in a manner that does not result in satisfactory operational metrics, we will have limited ability to require our third-party hotel managers to change their method of operation of our hotel properties. We generally will attempt to resolve issues with third-party hotel managers through discussions and negotiations. However, if we are unable to reach satisfactory results through discussions and negotiations, we may choose to litigate the dispute or submit the matter to third-party dispute resolution or arbitration. We would be able to seek redress only if a third-party hotel manager violates the terms of the applicable hotel management agreement, and then only to the extent of the remedies provided for under the terms of the hotel management agreement. Additionally, in the event we need to replace any of our third-party hotel managers, we may experience significant business disruptions at the affected hotel properties, and may be liable, under certain circumstances, for significant damages and/or be required to make certain payments to our third-party managers.

The operation and management of our current hotel properties, the operation of which generates substantially all our Hospitality segment revenue, is concentrated in Marriott.

Our current hotel properties, the operation of which generates substantially all our Hospitality segment revenue, are operated and managed by Marriott. As a result, our operational risk is concentrated in one third-party hotel manager, which makes us more vulnerable economically to any weakness of Marriott than if we entered into hotel management agreements with several third-party hotel managers. We cannot assure you that Marriott will satisfy its obligations to us or successfully operate and manage our current hotel properties. Any adverse

developments in Marriott's business and affairs, financial strength or ability to operate and manage our current hotel properties successfully could materially reduce our revenues and net income, which could in turn reduce the amount of distributions to our stockholders. If market recognition or the positive perception of Marriott is reduced or compromised, the goodwill associated with the Gaylord Hotels and JW Marriott hotel in our portfolio may be adversely affected, which could materially reduce our revenues and net income, which could in turn reduce the amount of distributions to our stockholders. Additionally, we rely on the resources of and financial information provided by Marriott to report the financial results of our hotel properties. A failure by Marriott to accurately report the financial results of our hotel properties could materially affect our understanding of the hotel properties' performance as well as our ability to accurately report on the hotel properties' performance. Further, Marriott owns the Gaylord Hotels and JW Marriott brands and trademarks, and a failure on their part to maintain quality standards, including at any future projects that we do not own an interest in, could harm the brands and damage our business.

Revenue growth, cost synergies and containment strategies for our hotel operations are largely dependent on the efforts of Marriott. Historically, Marriott's efforts to leverage its rewards program, customer channels and brands, as well as its management of demand for rooms, meeting space and banquets, resulted in revenue growth and Marriott's efforts to reduce hotel-level costs yielded cost savings. There can be no assurance that such improvements in revenue or cost savings achieved by Marriott will continue in future periods.

Restrictive covenants and other provisions in our hotel management agreements with third-party hotel managers could limit our ability to sell or lease our hotel properties or refinance our existing debt.

Our hotel management agreements with Marriott contain, and we anticipate that hotel management agreements with our future third-party hotel managers will contain, restrictive covenants that limit our flexibility to sell or lease our hotel properties. For example, we may not sell or lease our current hotel properties to a competitor of Marriott (as defined in our management agreements with Marriott), and any purchaser or lessee must have, in Marriott's judgment, sufficient financial resources and liquidity to fulfill our obligations under the hotel management agreements. Such restrictions on our ability to sell or lease our hotel properties could negatively affect the marketability of our hotel properties and restrict our ability to refinance our existing debt secured by our hotel properties.

Marriott and any future third-party hotel manager may own or operate hotels that compete with our hotel properties.

Our third-party hotel managers may own or operate hotels that compete with our current hotel properties and any hotel properties that we acquire, which may result in a conflict of interest. For example, Marriott and its affiliates own, have invested in, operate, and have provided credit support or operating guarantees to hotels that compete or will compete with our current hotel properties, including the Marriott Orlando World Center, which competes with Gaylord Palms, and the Washington Marriott Marquis, which competes with Gaylord National. As a result, our third-party hotel managers may make decisions regarding competing hotel properties that are not or would not be in our best interest. In addition, such third-party hotel managers' operation of other hotels may divert attention away from the operation and management of our hotel properties.

Our concentration in the hospitality industry, and in particular the group-oriented meetings sector of the hospitality industry, exposes us to certain risks outside of our and Marriott's control.

Our primary business is hotel-related, and our current hotel properties, the operation of which generates substantially all our Hospitality segment revenue, are concentrated in the group-oriented meetings sector of the hospitality industry. Therefore, a downturn in the lodging industry, in general, and the group-oriented meetings sector, in particular, would have a material adverse effect on our financial condition, results of operations, the market price of our common stock and our ability to service debt and make distributions to our stockholders. Additionally, our group room rates may be contracted several years in advance, and we are subject to increases in operating costs over time that may not be offset by these group room rates, which may result in reduced margins and lower financial results.

The group-oriented meetings sector has suffered, and may in the future suffer, as a result of COVID-19, and while we believe meeting planners would, in the case of widespread or severe outbreaks of COVID-19, rebook large group meetings to future periods, there can be no assurance as to the timing and pace of any recovery.

The ability of Marriott to successfully operate and manage our current hotel properties and convention business is subject to factors beyond our and their control, which could reduce the revenue and operating income of these properties. These factors include:

- the desirability and perceived attractiveness of the Nashville, Tennessee; Orlando, Florida; Dallas, Texas; San Antonio, Texas; Washington D.C. and Denver, Colorado areas as tourist and convention destinations;
- adverse changes in the national economy, its effects on us and our customers and in the levels of tourism and convention business that affect our current hotel properties;
- Marriott's ability to attract group convention business;
- Marriott's ability to contract for and collect attrition and cancellation fees from groups that do not fulfill minimum stay or spending requirements;
- the opening of other new hotels could impact the group convention business at our current hotel properties;
- the highly competitive nature of the hotel, tourism and convention business in which our hotel properties operate, including the fact that we compete for convention business with publicly-financed civic convention centers;
- the susceptibility of group convention business to reduced levels of demand during the year-end holiday periods, which Marriott may not be able to offset by attracting sufficient general tourism guests;
- the level of governmental group business, which has decreased at times in the past due to uncertainty surrounding the U.S. government budget;
- the financial condition of the airline and other transportation-related industries and the resulting impact on travel; and
- increases in our operating costs due to labor costs associated with labor shortages, wage increases, any increases in the federal minimum wage rate, workers' compensation, healthcare-related costs, and organized labor activities, the last of which, in addition to increasing labor costs, could cause a diversion of business from our hotels involved in labor negotiations and loss of group business.

These factors could reduce the revenues and net operating profits of our TRS lessees, which in turn could adversely affect our financial condition, results of operations, the market price of our common stock and our ability to service debt and make distributions to our stockholders.

The geographic concentration of our current hotel properties subjects us to a greater degree of risk to certain factors.

Due to the geographic concentration of our current hotel properties, we are subject to a greater degree of risk to factors including:

- local economic and competitive conditions;
- natural and other disasters;
- a decline in air passenger travel due to higher ticket costs or fears concerning air travel;
- a decline in the attractiveness of the areas in which our hotels are located as a convention and tourism destination; and
- a decrease in convention and meeting business at any of our properties.

Any of these could negatively affect our financial condition, results of operations and our ability to service debt and make distributions to our stockholders.

Inflation may adversely affect our financial condition and results from operations.

Inflation, which has risen to levels not experienced in recent decades, has caused, and could continue to cause, broad price increases. A prolonged inflationary environment, and any fiscal, monetary or other policy interventions by the U.S. government or the Federal Reserve in reaction to such an environment, including

increases in federal interest rates, could adversely affect our operating costs, customer spending and bookings, and ability to access the debt markets on favorable terms. If the cost to operate and maintain our hotels and other properties increases faster or at a rate greater than our ability to pass on costs by increasing amounts charged to guests and customers, our financial condition, results of operations and cash flows could be materially and adversely affected.

The hotel business is capital-intensive, and our inability to obtain financing or successfully complete acquisitions or capital improvements, or the disruption associated with them, could limit our growth or impact our performance.

Acquisitions of hotels will require significant capital expenditures, and hotels that we acquire may need renovations and capital improvements at the time of acquisition. All of our hotel properties will require periodic capital expenditures and renovation to remain competitive. We may also undertake hotel expansions or new features at our existing hotel properties that involve significant capital expenditures, such as our Gaylord Palms expansion. If any hotels that we acquire are subject to franchise agreements, the franchisors of these hotels may also require periodic capital improvements as a condition to our maintaining the franchise licenses. We may not be able to fund capital improvements or acquisitions solely from cash provided from our operating activities because we must distribute at least 90% of our REIT taxable income (determined before the deduction for dividends paid and net of capital gains) each year to maintain our qualification as a REIT for federal income tax purposes. As a result, our ability to fund acquisitions or capital expenditures through any retained earnings or operating cash flow will be limited. Consequently, we will rely upon the availability of debt or equity capital to fund hotel acquisitions and improvements. Our ability to grow through acquisitions will be limited if we cannot obtain satisfactory debt or equity financing, which will depend on market conditions. We cannot assure you that we will be able to obtain additional equity or debt financing or that we will be able to obtain such financing on favorable terms.

In addition, capital improvements may give rise to the following risks:

- possible environmental problems;
- construction cost overruns and delays, including those associated with the availability of material and labor;
- the possibility that revenues will be reduced while rooms, restaurants or other facilities are out of service due to capital improvement projects;
- a possible shortage of available cash to fund capital improvements and the related possibility that financing for these capital improvements may not be available to us on attractive terms; and
- uncertainties as to market demand or a loss of market demand after capital improvements have begun.

The costs of renovations and capital improvements could adversely affect our financial condition, results of operations, the market price of our common stock and our ability to service debt and make distributions to our stockholders.

Our TRS lessee structure subjects us to the risk of increased hotel operating expenses and the inability of our TRS lessees to make lease payments to us.

Our leases with our TRS lessees require our TRS lessees to make lease payments to us based in part on gross revenues from our hotel properties. Our operating risks include decreases in revenues at our hotel properties and increases in operating expenses at our hotel properties. Decreases in revenues or increases in operating expenses could adversely affect our TRS lessees' ability to make lease payments due under the leases, including, but not limited to, increases in wage and benefit costs, repair and maintenance expenses, property taxes, insurance costs, and other operating expenses. Increases in those operating expenses can have a significant adverse impact on our financial condition, results of operations, the market price of our common stock, and our ability to service debt and make distributions to our stockholders.

In addition, our TRS lessees' ability to make lease payments will be affected by factors beyond their control, such as changes in general economic conditions, the level of demand for hotels and the related services of our hotel properties, competition in the lodging and hospitality industry, the third-party managers' ability to maintain and increase gross revenue at our hotel properties and other factors relating to the operations of our hotel properties.

We and our third-party hotel manager rely on information technology in our operations, and any material failure, inadequacy, interruption, or security failure could harm our business.

We and our third-party hotel manager rely on information technology systems, including networks and the Internet, to process, transmit, and store electronic information, and to manage or support a variety of business processes, including financial transactions and records, personal identifying information, reservations, billing and operating data. Our businesses require collection of large volumes of internal and customer data, including credit card numbers and other personally identifiable information of our customers in various information systems and those of our service providers. The integrity and protection of customer, employee, and company data is critical to us. If that data is inaccurate or incomplete, we or the hotel managers could make faulty decisions. Customers and employees also have a high expectation that we and our third-party service providers and processors will adequately protect their personal information. Despite implementation of various measures designed to protect our information systems and records, including those we maintain with our service providers, we, the hotel managers and/or our third-party service providers may be subject to security breaches, system failures, viruses, operator error, employee misuse, and unauthorized or inadvertent releases of data. A significant theft, loss, or fraudulent use of customer, employee, or company data maintained by us or by a service provider or failure to comply with the various U.S. and international laws and regulations applicable to the protection of such data, including the CCPA, or with Payment Card Industry (PCI) data security standards, could divert our attention, adversely impact our reputation, result in remedial and other fines or litigation, cause us to incur substantial liabilities or costs, or result in a loss of valuable data or of consumer confidence. A breach in the security of our information systems or those of our service providers, or the unauthorized use of such data by us or our third-party providers, could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits.

Changes in privacy and data security laws could increase our operating costs and increase our exposure to fines and litigation.

We are subject to numerous, complex, and frequently changing laws, regulations, and contractual obligations designed to protect personal information. Various U.S. federal and state laws, payment card industry security standards, and other information privacy and security standards are all applicable to us. Various states, including California, Colorado, Connecticut, Utah and Virginia have passed laws pertaining to the processing of personal data, which require, among other things, that businesses provide new disclosures and options to consumers about data collection, use and sharing policies. Significant legislative, judicial or regulatory changes have been and could be issued in the future. These legal requirements are rapidly changing and are not consistent across jurisdictions. Violations of these new laws may subject us to civil monetary penalties, and the California Consumer Privacy Act, as amended by the California Privacy Rights Act, provides for a private cause of action for data breaches. Compliance with changes in applicable data security and privacy laws and regulations and contractual obligations has increased, and may in the future increase, our operating costs and may restrict our business operations, increase our exposure to fines and litigation in the event of alleged noncompliance, and adversely affect our reputation. Moreover, many jurisdictions are considering and adopting regulations governing the use of artificial intelligence and machine learning applications and tools (including in relation to hiring and employment practices). Compliance with these regulations may be difficult or costly to implement and result in a burden on our operations that use artificial intelligence or machine learning applications and tools.

Cybersecurity incidents, including the failure to protect the integrity or availability of IT systems or the security of confidential information, or the introduction of malware or ransomware, could harm our business.

While we have implemented security measures to safeguard our systems and data, our measures or the measures of our service providers or hotel manager may not be sufficient to maintain the confidentiality, integrity, or availability of the data collected, stored, and used to manage our businesses. Efforts to hack or circumvent security measures, efforts to gain unauthorized access to data, failure of systems or software to operate as designed or intended, viruses, “ransomware” or other malware, “supply chain” attacks, “phishing” or other types of business email compromises, operator error, or inadvertent releases of data may materially impact our information systems and records of those of our owners, licensees, or service providers. Our reliance on computer, Internet-based, and mobile systems and communications, and the frequency and sophistication of efforts by third parties to gain unauthorized access to such systems, have greatly increased in recent years. Like most large multinational corporations, our hotel manager and its service providers have experienced cyber

attacks, and attempts to disrupt access to their systems and data or those of properties our hotel manager manages and the frequency and sophistication of such efforts could continue to increase. The rapid evolution and increased adoption of artificial intelligence technologies, by us and our third-party service providers, may also heighten our cybersecurity risks by making cyber attacks more difficult to detect, contain and mitigate. We and our third-party service providers, including our third-party hotel manager, have increasingly relied on cloud-based services and on remote access to information systems in recent years, which has increased our exposure to potential cybersecurity incidents. Any theft, loss, loss of access to, or fraudulent use of guest, associate, owner, licensee, or company data could adversely impact our reputation and could result in remedial and other expenses, fines, or litigation. Depending on the nature and scope of the event, compromises in the security of our information systems or those of our owners, licensees, or service providers or other disruptions in data services could lead to an interruption in the operation of our systems or our hotel manager's systems, resulting in operational inefficiencies and a loss of profits, and negative publicity, resulting in tangible adverse effects on our business, including consumer boycotts, cancellations, lost sales or litigation, all of which could affect our market share, reputation, business, financial condition, or results of operations. These events may also cause us to incur substantial costs, including but not limited to, costs associated with remediation for or recovery of stolen assets or information, including ransom costs paid to cyber attackers, costs for sending legally required notifications to customers or other affected individuals, and increased cyber protection costs to guard against opportunities for re-occurrence of a breach. Although we or our manager carry cyber/privacy liability insurance that is designed to protect us against certain losses related to cyber risks, that insurance coverage may not be sufficient to cover all losses or all types of claims that may arise in connection with cyber attacks, security compromises, and other related incidents. Furthermore, in the future such insurance may not be available on commercially reasonable terms, or at all.

Our real estate assets are subject to numerous risks.

Because we own hotels and attractions properties, we are subject to the risks that generally relate to investments in real property. The investment returns available from equity investments in real estate depend in large part on the amount of income earned and capital appreciation generated by the related properties, as well as the expenses incurred. In addition, a variety of other factors affect income from properties and real estate values, including governmental regulations, insurance, zoning, tax and eminent domain laws, interest rate levels and the availability of financing. For example, new or existing real estate zoning or tax laws can make it more expensive and/or time-consuming to develop real property or expand, modify or renovate properties. When interest rates increase, the cost of acquiring, developing, expanding or renovating real property increases, particularly as the cost of borrowing increases, and real property values may decrease as the number of potential buyers decreases. Similarly, as financing becomes less available, it becomes more difficult both to acquire and to sell real property. Finally, governments can, under eminent domain laws, take real property. Sometimes this taking is for less compensation than the owner believes the property is worth. Any of these factors could have a material adverse impact on our results of operations or financial condition. In addition, equity real estate investments, such as the investments we hold and any additional properties that we may acquire, are relatively difficult to sell quickly. If our properties do not generate revenue sufficient to meet operating expenses, including debt service and capital expenditures, our income will be reduced.

Our properties are subject to environmental regulations that could impose significant financial liability on us.

Environmental laws, ordinances and regulations of various federal, state, local and foreign governments regulate certain of our properties and could make us liable for the costs of removing or cleaning up hazardous or toxic substances on, under or in the properties we currently own or operate or those we previously owned or operated. Those laws could impose liability without regard to whether we knew of, or were responsible for, the presence of hazardous or toxic substances. The presence of hazardous or toxic substances, or the failure to properly clean up such substances when present, could jeopardize our ability to develop, use, sell or rent the real property or to borrow using the real property as collateral. If we arrange for the disposal or treatment of hazardous or toxic wastes, we could be liable for the costs of removing or cleaning up wastes at the disposal or treatment facility, even if we never owned or operated that facility. Other laws, ordinances and regulations could require us to manage, abate or remove lead- or asbestos-containing materials. Similarly, the operation and closure of storage tanks are often regulated by federal, state, local and foreign laws. Finally, certain laws, ordinances and regulations, particularly those governing the management or preservation of wetlands, coastal zones and threatened or endangered species, could limit our ability to develop, use, sell or rent our real property. Existing

governmental laws and regulations may be revised or new laws and regulations relating to climate change, air quality or other environmental and health concerns may be adopted or become applicable to us, which could affect the operations of our hotels and/or result in significant additional expense and operating restrictions. The costs to clean up a contaminated property, to defend a claim, or to comply with environmental laws could be material and could adversely affect our financial condition, results of operations, the market price of our common stock and our ability to make distributions to our stockholders. Additionally, because we rely on third-party managers to operate our hotel properties and certain attractions, we have limited control over ensuring compliance at those locations with applicable environmental laws or regulations or approving certain remediation action taken by the manager to resolve such issues.

Compliance with the Americans with Disabilities Act could require us to incur substantial costs.

Under the Americans with Disabilities Act of 1990, as amended (the “ADA”), all public accommodations must meet various federal requirements related to access and use by disabled persons. Compliance with the ADA’s requirements could require removal of access barriers, and non-compliance could result in the U.S. government imposing fines or in private litigants winning damages. Although we believe that our hotel properties substantially comply with present requirements of the ADA, we may be subject to audits or investigations of all of our hotels to determine our compliance, and one or more hotels may not be fully compliant with the ADA. Noncompliance with the ADA could result in the incurrence of additional costs to attain compliance. The obligation to make readily achievable accommodations is an ongoing one, and we will continue to assess our hotel properties and to make alterations as appropriate in this respect. If we are required to make substantial modifications to our hotel properties, whether to comply with the ADA or other changes in governmental rules and regulations, our financial condition, results of operations, the market price of our common stock and amount of cash available for debt service or distributions to our stockholders could be adversely affected. Additionally, because we rely on third-party managers to operate our hotel properties and certain attractions, we have limited control over ensuring compliance at those locations with applicable ADA requirements or approving certain remediation action taken by the manager to resolve such issues.

As an owner of hotel properties and operator of leisure businesses, we are subject to risks relating to acts of God, outbreaks of pandemic disease, terrorist activity and war.

Our operating income and ability to make distributions to our stockholders may be reduced by acts of God, outbreaks of pandemic disease (including COVID-19), or acts of terrorism in locations where we own and/or operate significant properties and areas of the world from which we draw a large number of customers. Gaylord Opryland, which is located adjacent to the Cumberland River and is protected by levees built to sustain a 100-year flood, suffered flood damage on May 3, 2010 as the river rose to levels that over-topped the levees. The per occurrence flood insurance limit for our Gaylord Opryland hotel is now \$350 million. We have also completed enhancements to the levees that protect the hotel to increase the height of the levees. While we believe these steps are reasonable given the likelihood of flood damage at Gaylord Opryland, there can be no assurances that flooding will not occur at Gaylord Opryland in the future. Some types of losses, such as from flood, earthquake, tornado, terrorism and environmental hazards, may be either uninsurable, subject to sublimit, or too expensive to justify insuring against. Should an uninsured loss or a loss in excess of insured limits occur, we could lose all or a portion of the capital we have invested in a hotel, as well as the anticipated future revenue from the hotel. In that event, we might nevertheless remain obligated for any mortgage debt or other financial obligations related to the property. Similarly, outbreaks of pandemic disease (including COVID-19), wars or armed conflicts (including the potential for war or armed conflicts), terrorist activity (including threats of terrorist activity), political unrest and other forms of civil strife as well as geopolitical uncertainty, may cause our future results to differ materially from anticipated results.

We are subject to risks associated with our hotel managers’ employment of hotel personnel, particularly with hotels whose managers employ unionized labor, which could increase our hotels’ operating costs, reduce the flexibility of our third-party hotel managers to adjust the size of the workforce at our hotel properties and impair our ability to make distributions to our stockholders.

Our third-party hotel managers are responsible for hiring and maintaining the labor force at each of our hotel properties. Although we do not employ or manage employees at our hotel properties, we are subject to many of the costs and risks generally associated with the hotel labor force, including at those of our hotels with unionized labor. From time to time, hotel operations may be disrupted as a result of strikes, lockouts, public demonstrations

or other negative actions and publicity. We also may incur increased legal costs and indirect labor costs as a result of contract disputes or other events. The resolution of labor disputes or re-negotiated labor contracts could lead to increased labor costs, either by increases in wages or benefits or by changes in work rules that raise hotel operating costs. Furthermore, labor agreements may limit the ability of our third-party hotel managers to reduce the size of hotel workforces during an economic downturn because collective bargaining agreements are negotiated between the third-party hotel managers and labor unions. We do not have the ability to control the outcome of these negotiations.

Our operating costs could increase if we and our hotel managers cannot attract and retain talented personnel or as the result of the loss of the services of our senior executives.

We and our third-party hotel managers compete with other companies both within and outside of the hospitality and entertainment industries for personnel. We and our hotel managers have experienced challenges hiring qualified personnel due to various factors, such as increasing wage expectations and competition for labor from other industries, including and continuing after the COVID-19 pandemic and in the current inflationary environment, and these circumstances could continue or worsen in the future to an extent and for durations that we are not able to predict. If we and our hotel managers cannot recruit, train, develop and retain sufficient numbers of associates, we could experience significant negative impacts to our operations, including low employee morale, high employee turnover and low guest satisfaction. Insufficient numbers of personnel could also limit our ability to grow and expand our businesses. Labor shortages have resulted in and could continue to result in higher wages and initial hiring costs, increasing our labor costs and those of our third-party hotel managers, which could reduce our profits and ultimately impair our ability to make distributions to our stockholders. In addition, the efforts and ability of our senior executives are important elements of maintaining our competitive position and driving future growth, and the loss of the services of one or more of our senior executives could result in challenges executing our business strategies or other adverse effects on our business.

Any failure to protect the trademarks and intellectual property used in our business could reduce the value of our brand names and harm our business.

Third-party infringement of the Gaylord Hotels or JW Marriott marks owned by Marriott or the marks we own and use in our entertainment business, or the failure to enforce rights to the marks, could be damaging to our business.

The reputation and perception of the brands we use is critical to our success. If trademarks or intellectual property are misappropriated or used without authorization, the value of those brands, their reputation, our competitive advantages and our goodwill could be harmed. We regularly apply to register our trademarks in the United States. However, we cannot be certain that those trademark registrations will be granted or that the steps we take to protect our trademarks or intellectual property in the United States will be adequate to prevent others, including third parties or former employees, from copying or using our trademarks or intellectual property without authorization. Our intellectual property is also vulnerable to unauthorized use in some countries outside the United States, where local laws may not adequately protect it. Marriott owns and maintains the marks used in the Gaylord Hotels and JW Marriott operations and may use the brands at properties that we do not own.

Monitoring the unauthorized use of our intellectual property is difficult. As we have in the past, we may need to resort to litigation to enforce our intellectual property rights. Litigation of this type could be costly, force us to divert our resources, lead to counterclaims or other claims against us, or otherwise harm our business. Any failure to maintain and protect trademarks and other intellectual property used in our business could reduce the value of our brands and harm our business.

Illiquidity of real estate investments could significantly impede our ability to respond to adverse changes in the performance of our hotel properties and harm our financial condition.

Because real estate investments are relatively illiquid, our ability to promptly sell one or more of our hotel properties in response to changing economic, financial and investment conditions may be limited. The real estate market is affected by many factors that are beyond our control, including:

- adverse changes in international, national, regional and local economic and market conditions;
- changes in interest rates and in the availability, cost and terms of debt financing;

- changes in governmental laws and regulations, fiscal policies and zoning ordinances and the related costs of compliance with laws and regulations, fiscal policies and ordinances;
- the ongoing need for capital improvements, particularly in older structures;
- changes in operating expenses; and
- civil unrest, acts of God, including earthquakes, tornadoes, floods and other natural disasters, which may result in uninsured losses, and acts of war or terrorism, including the consequences of the terrorist acts.

We may decide in the future to sell one or more of our hotel properties. We cannot predict whether we will be able to sell any hotel property for the price or on the terms set by us, or whether any price or other terms offered by a prospective purchaser would be acceptable to us. We also cannot predict the length of time needed to find a willing purchaser and to close the sale of a hotel property. Further, as a REIT, we are subject to a 100% excise tax on net income derived from prohibited transactions, including the sale of property (other than foreclosure property) held primarily for sale to customers in the ordinary course. There can be no assurances that the IRS will not contend that the sale of a hotel is subject to this 100% excise tax.

We may be required to expend funds to correct defects or to make improvements before a hotel property can be sold. We cannot assure you that we will have funds available to correct those defects or to make those improvements. In acquiring a hotel, we may agree to lock-out provisions that materially restrict us from selling that hotel for a period of time or impose other restrictions, such as a limitation on the amount of debt that can be placed or repaid on that hotel. These factors and any others that would impede our ability to respond to adverse changes in the performance of our hotel properties could have a material adverse effect on our operating results and financial condition, as well as the amount of cash available for distributions to our stockholders.

Our operating results and ability to service debt and make distributions to our stockholders may be adversely affected by various operating risks common to the lodging industry.

Our hotel properties have different economic characteristics than many other real estate assets, and a hotel REIT is structured differently than many other types of REITs. A typical office property owner, for example, has long-term leases with third-party tenants, which provide a relatively stable long-term stream of revenue. Our TRS lessees, on the other hand, do not enter into a lease with a third-party hotel manager. Instead, our TRS lessees engage our third-party managers pursuant to hotel management agreements and pay the third-party hotel managers fees for managing our hotel properties. The TRS lessees receive all the operating profit or losses at our hotel properties, net of fees and reimbursements. Moreover, virtually all hotel guests stay at a hotel for only a few nights at a time, so the rate and occupancy at each of our hotel properties may change every day. As a result, we may have highly volatile earnings.

In addition, our hotel properties are subject to various operating risks common to the lodging industry, many of which are beyond our or a manager's control, including the following:

- competition from other hotel properties and publicly-financed civic convention centers in our markets;
- over-building of hotels in our markets, which could adversely affect occupancy and revenues at our hotel properties;
- dependence on business and commercial travelers and tourism;
- increases in energy costs and other expenses affecting travel, which may affect travel patterns and reduce the number of business and commercial travelers and tourists;
- increases in operating costs, including, but not limited to, wages and food and beverage costs, due to inflation and other factors that may not be offset by increased room rates;
- changes in interest rates and in the availability, cost and terms of debt financing;
- changes in governmental laws and regulations, fiscal policies and zoning ordinances and the related costs of compliance with laws and regulations, fiscal policies and ordinances;
- adverse effects of international, national, regional and local economic and market conditions;
- the impact of the use of Internet travel intermediaries by consumers;

- unforeseen events beyond our control, such as terrorist attacks, travel-related health concerns including pandemics and epidemics (including a widespread outbreak or worsening of new or existing COVID-19 variants in the United States), political instability, regional hostilities, imposition of taxes or surcharges by regulatory authorities, travel-related accidents and unusual weather patterns, including natural disasters, such as hurricanes, earthquakes and tornadoes;
- adverse effects of a downturn in the lodging industry; and
- risks generally associated with the ownership of hotels and real estate.

Our group room rates may be contracted several years in advance, and we are subject to increases in operating costs over time that may not be offset by these group room rates, which may result in reduced margins. Further, our disclosed future hotel bookings may not be fulfilled. These factors could reduce the net operating profits of our TRS lessees, which in turn could adversely affect the amount and frequency of distributions we make to our stockholders and our ability to service our debt.

Our financial and operating results may suffer if we are unsuccessful in integrating JW Marriott Hill Country with our existing assets, and integrating JW Marriott Hill Country may be more difficult, costly or time consuming than expected.

If we are unable to successfully integrate JW Marriott Hill Country with our other assets in an efficient and effective manner, the anticipated benefits of the JW Marriott Hill Country transaction may not be realized fully, or at all, or may take longer to realize than expected and may not meet estimated growth projections or expectations. Further, we may not achieve the projected efficiencies and synergies once we have fully integrated JW Marriott Hill Country into our operations, which may lead to additional costs not anticipated at the time of the JW Marriott Hill Country transaction. An inability to realize the full extent of the anticipated benefits of the JW Marriott Hill Country transaction or any delays encountered in the integration process could have an adverse effect on our results from operations, cash flows and financial position.

The integration of JW Marriott Hill Country with our other assets will require the dedication of significant management resources, which may distract management’s attention from day-to-day business operations. San Antonio, Texas is a new market for us, and our relative unfamiliarity with the market may result in our having to devote additional time and expense to gain familiarity with the market and effectively manage this asset. Many of these factors will be outside of our control and any one of them could result in delays, increased costs, decreases in revenue and diversion of management’s time and energy from ongoing business concerns, which could materially affect our financial position, results of operations and cash flows.

We conduct the operations of our Entertainment segment through OEG and our ownership is subject to the terms of agreements with A-OEG Holdings, LLC, an affiliate of Atairos. Any disagreement with Atairos or its affiliate may adversely affect our interest in OEG.

The limited liability company agreement for OEG gives A-OEG Holdings, LLC, an affiliate of Atairos (the “OEG Investor”), certain rights, including consent rights regarding certain major decisions, which may limit our flexibility with respect to OEG. The OEG Investor may have economic or other business interests or goals which are inconsistent with ours, and we could become engaged in a dispute or disagreement with them that might affect our ability to develop or operate the Entertainment business in any manner in which we see fit, thereby adversely affecting our ownership interest in OEG.

Risks Relating to Our Status as a REIT

If we fail to remain qualified as a REIT, we would be subject to tax at corporate income tax rates and would not be able to deduct distributions to stockholders when computing our taxable income.

If, in any taxable year, we fail to qualify for taxation as a REIT, and are not entitled to relief under the Internal Revenue Code of 1986, as amended (the “Code”):

- we would not be allowed a deduction for distributions to stockholders in computing our taxable income; and
- we would be subject to federal and state income tax on our taxable income at regular corporate rates.

Any such corporate tax liability could be substantial and would reduce the amount of cash available for other purposes. This adverse impact could last for five or more years. Unless we are entitled to relief under certain

statutory provisions, we would be taxable as a C corporation beginning in the year in which the failure occurs, and we would not be allowed to re-elect to be taxed as a REIT for the following four years.

If we fail to qualify for taxation as a REIT, we may need to borrow additional funds or liquidate certain assets to pay any additional tax liability. Accordingly, funds available for investment or distribution to stockholders would be reduced.

REIT qualification involves the application of highly technical and complex provisions of the Code to our operations, as well as various factual determinations concerning matters and circumstances not entirely within our control. There are limited judicial or administrative interpretations of these provisions. Although we plan to operate in a manner consistent with the REIT qualification rules, we cannot assure you that we will so qualify or remain so qualified.

As a REIT, failure to make required distributions to our stockholders would subject us to federal and state corporate income tax.

Prior to 2012, we had not paid a cash distribution on our common stock since 1999. Beginning in 2013 we declared, and we intend to continue to declare when appropriate, cash dividends, the amount of which will be determined, and will be subject to adjustment, by our board of directors. Our board of directors has approved an dividend policy pursuant to which we will make minimum dividends of 100% of REIT taxable income annually, subject to the board of directors' future determinations as to the amount of any distributions and the timing thereof. Our dividend policy may be altered at any time by our board of directors, and certain provisions of our debt agreements may prohibit us from paying dividends in accordance with any policy we may adopt. To qualify as a REIT, we are generally required to distribute at least 90% of our REIT taxable income (determined without regard to the dividends paid deduction and excluding net capital gains) each year to our stockholders. If our cash available for distribution falls short of our estimates, we may be unable to maintain the proposed quarterly distributions that approximate our taxable income and may fail to qualify for taxation as a REIT. In addition, our cash flows from operations may be insufficient to fund required distributions as a result of differences in timing between the actual receipt of income and the recognition of income for federal and state income tax purposes, or the effect of nondeductible expenditures.

To the extent that we satisfy the 90% distribution requirement but distribute less than 100% of our REIT taxable income, we will be subject to federal and state corporate income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders for a calendar year is less than a minimum amount specified under the Code.

Even though we are conducting our business as a REIT, certain of our business activities will be subject to corporate level income tax, which will continue to reduce our cash flows, and we will have potential deferred and contingent tax liabilities.

Even though we are conducting our business as a REIT, we may be subject to certain federal, state, and local taxes on our income and assets, taxes on any undistributed income, and state or local income, franchise, property and transfer taxes. In addition, we could in certain circumstances be required to pay an excise or penalty tax, which could be significant in amount, to utilize one or more relief provisions under the Code to maintain qualification for taxation as a REIT.

Our business related to the non-real estate assets of our Hospitality segment and the assets of our Entertainment segment is conducted through wholly-owned TRSs because these activities could generate non-qualifying REIT income as historically structured and operated. Those TRS assets and operations continue to be subject, as applicable, to federal and state corporate income taxes in the jurisdictions in which those assets and operations are located. Any of these taxes would decrease our earnings and our available cash. In addition, net operating losses in any of our TRSs generally will not provide any tax benefit, except for use against current or future taxable income in the TRSs.

Complying with REIT requirements may limit our ability to hedge effectively and increase the costs of our hedging and may cause us to incur tax liabilities.

The REIT provisions of the Code limit our ability to hedge liabilities. Generally, income from hedging transactions that we enter into to manage risk of interest rate changes with respect to borrowings made or to be made to acquire or carry real estate assets and income from certain currency hedging transactions related to any

non-U.S. operations do not constitute “gross income” for purposes of the REIT gross income tests. To the extent that we enter into other types of hedging transactions, the income from those transactions is likely to be treated as non-qualifying income for purposes of the REIT gross income tests. As a result of these rules, we may need to limit our use of advantageous hedging techniques or implement those hedges through a TRS. This could increase the cost of our hedging activities because our TRSs would be subject to tax on income or gains resulting from hedges entered into by them or expose us to greater risks associated with changes in interest rates than we would otherwise want to bear.

Legislative or other actions affecting REITs could have a negative effect on us or our stockholders.

At any time, the federal income tax laws governing REITs or the administrative interpretations of those laws may be amended. Federal and state tax laws are constantly under review by persons involved in the legislative process, the IRS, the United States Department of the Treasury and state taxing authorities. Changes to the tax laws, regulations and administrative interpretations, which may have retroactive application, could adversely affect us. We cannot predict with certainty whether, when, in what forms, or with what effective dates, the tax laws, regulations and administrative interpretations applicable to us may be changed. Accordingly, we cannot assure you that any such change will not significantly affect our ability to qualify for taxation as a REIT or the federal income tax consequences to us of such qualification.

Even as a REIT, changes in federal, state, or local tax law, interpretations of existing tax law or agreements with tax authorities could affect our profitability and financial condition by increasing our tax costs.

We are subject to taxation at the federal, state and local levels in the United States. Our future tax rates could be affected by changes in the composition of earnings in jurisdictions with differing tax rates, changes in the valuation of our deferred tax assets and liabilities, or changes in determinations regarding the jurisdictions in which we are subject to tax. From time to time, the U.S. federal, state and local governments make substantive changes to tax rules and the application thereof, which could result in materially higher corporate taxes than would be incurred under existing tax law or interpretations and could adversely impact profitability. State and local tax authorities have increased their efforts to increase revenues through changes in tax law and audits. Such changes and proposals, if enacted, could increase our future effective income tax rates, as well as other taxes, including property taxes.

The ability of our board of directors to revoke our REIT qualification, without stockholder approval, may cause adverse consequences to our stockholders.

Our Amended and Restated Articles of Incorporation (“Charter”) provides that the board of directors may revoke or otherwise terminate the REIT election, without the approval of our stockholders, if it determines that it is no longer in our best interest to continue to qualify as a REIT. If we cease to be a REIT, we will not be allowed a tax deduction with respect to distributions to our stockholders in computing our taxable income, and we will be subject to federal and state income tax at regular corporate rates and state and local taxes, which may have adverse consequences on our stock price, distributions, and total return to our stockholders.

We may be required to borrow funds, sell assets, or issue equity to satisfy our REIT distribution requirements or maintain the asset ownership tests.

To meet the REIT distribution requirements and maintain our qualification and taxation as a REIT, we may need to borrow funds, sell assets or issue equity, even if the then-prevailing market conditions are not favorable for these borrowings, sales or offerings. Any insufficiency of our cash flows to cover our REIT distribution requirements could adversely impact our ability to raise short- and long-term debt, to sell assets, or to offer equity securities to fund distributions required to maintain our qualification and taxation as a REIT. Furthermore, the REIT distribution requirements may increase the financing we need to fund capital expenditures, future growth and expansion initiatives. This would increase our total leverage. In addition, we may distribute taxable dividends that are payable in cash and common stock at the election of each stockholder, subject to certain limitations, including that the cash portion be at least 20% of the total distribution. If we make such a taxable dividend payable in cash and common stock, taxable stockholders receiving such dividends generally will be required to include the full amount of the dividend as ordinary income. As a result, taxable stockholders may be required to pay income taxes with respect to such dividends in excess of the cash dividends received. Moreover,

if a significant number of our stockholders sold shares of our common stock in order to pay taxes owed on dividends, it may put downward pressure on the trading price of our common stock. We do not currently intend to pay taxable dividends of our common stock, although we may choose to do so in the future.

If we fail to comply with certain REIT asset ownership tests at the end of any calendar quarter, we must correct the failure within 30 days after the end of the calendar quarter or qualify for certain statutory relief provisions to avoid losing our REIT qualification. As a result, we may be required to liquidate otherwise attractive assets. These actions may reduce our income and amounts available for distribution to our stockholders.

Complying with REIT requirements may limit our flexibility or cause us to forego otherwise attractive opportunities.

To qualify as a REIT for federal income tax purposes, we must continually satisfy tests concerning, among other things, the sources of our income, the nature and diversification of our assets, the amounts we distribute to our stockholders, and the ownership of our common stock. Thus, compliance with these tests will require us to refrain from certain activities and may hinder our ability to make certain attractive investments, including the purchase of non-qualifying assets, the expansion of non-real estate activities, and investments in the businesses to be conducted by our TRSs, and to that extent limit our opportunities and our flexibility to change our business strategy. Furthermore, acquisition opportunities may be adversely affected if we need or require the target company to comply with certain REIT requirements prior to closing. In addition, as a REIT, we may face investor pressures to forego growth opportunities that are not immediately accretive.

We hold our non-qualifying REIT assets in one or more TRSs. These non-qualifying REIT assets consist primarily of non-real estate assets related to our Hospitality segment and the assets related to our Entertainment segment as historically structured and operated. We conduct a significant portion of our business activities through these TRSs. Under the Code, no more than 20% of the value of the assets of a REIT may be represented by securities of one or more TRSs, and no more than 5% of the value of the assets of a REIT may be represented by other non-qualifying assets. These limitations may affect our ability to make additional investments in our Entertainment segment as historically structured and operated or in other non-REIT qualifying operations or assets. To meet our annual distribution requirements, we may be required to distribute amounts that may otherwise be used for our operations, including amounts that may otherwise be invested in future acquisitions, capital expenditures or repayment of debt, and it is possible that we might be required to borrow funds, sell assets or issue equity to fund these distributions, even if the then-prevailing market conditions are not favorable for these borrowings, sales or offerings.

Our planned use of TRSs may cause us to fail to qualify as a REIT.

The net income of our TRSs is not required to be distributed to us, and income that is not distributed to us generally will not be subject to the REIT income distribution requirement. However, there may be limitations on our ability to accumulate earnings in our TRSs and the accumulation or reinvestment of significant earnings in our TRSs could result in adverse tax treatment. In particular, if the accumulation of cash in our TRSs causes the fair market value of our securities in our TRSs and certain other non-qualifying assets to exceed 25% of the fair market value of our assets, we would fail to qualify as a REIT.

If our leases of our hotel properties to TRS lessees are not true leases for federal income tax purposes, we may fail to qualify as a REIT.

In order for the lease payments by our TRS lessees to our property-owning subsidiaries to qualify for purposes of the gross income tests, the lease or sublease must be considered a true lease for federal income tax purposes and must not be treated as a service contract, joint venture, or some other type of arrangement. We believe we have structured our leases and subleases of our hotel properties to our TRS lessees so that the leases will be considered true leases for federal income tax purposes, but there can be no assurance that the IRS will agree with this characterization.

If Marriott or any future third-party hotel manager fails to qualify as an “eligible independent contractor,” or if our hotels are not “qualified lodging facilities,” we may fail to qualify as a REIT.

Rent paid by a lessee or sublessee that is a “related party tenant” of ours will not be qualifying income for purposes of the two gross income tests applicable to REITs. An exception is provided, however, for leases of “qualified lodging facilities” to a TRS so long as the hotels are managed by an “eligible independent

contractor” and certain other requirements are satisfied. We lease or sublease our hotel properties to TRS lessees, and such TRS lessees have engaged Marriott as a third-party hotel manager. We believe Marriott and any other third-party hotel manager that our TRS lessees may engage in the future will qualify as “eligible independent contractors” for federal income tax purposes. Among other requirements, to qualify as an “eligible independent contractor,” the third-party hotel manager must not own, directly or through its stockholders, more than 35% of our outstanding shares, and no person or group of persons can own more than 35% of our outstanding shares and the shares (or ownership interest) of the third-party hotel manager, taking into account certain ownership attribution rules. The ownership attribution rules that apply for purposes of these 35% thresholds are complex, and monitoring actual and constructive ownership of our shares by the third-party hotel manager and their owners may not be practical. Accordingly, there can be no assurance that these ownership limits will not be exceeded.

In addition, for a third-party hotel manager to qualify as an “eligible independent contractor,” such company or a related person must be actively engaged in the trade or business of operating “qualified lodging facilities” (as defined below) for one or more persons not related to the REIT or its TRSs at each time that such company enters into a hotel management contract with a TRS lessee. We believe that Marriott operates “qualified lodging facilities” for certain persons who are not related to us or our TRSs, and Marriott has agreed in the hotel management agreements that it, or its affiliates, are eligible independent contractors and will maintain such status. However, no assurances can be provided that Marriott or any other hotel managers that we may engage in the future will in fact comply with this requirement. Failure to comply with this requirement would require us to find other third-party hotel managers for future contracts, and, if we hired a third-party hotel manager without knowledge of the failure, it could jeopardize our status as a REIT.

Finally, each property with respect to which our TRS lessees pay rent must be a “qualified lodging facility.” A “qualified lodging facility” is a hotel, motel or other establishment more than one-half of the dwelling units in which are used on a transient basis, including customary amenities and facilities, provided that no wagering activities are conducted at or in connection with such facility by any person who is engaged in the business of accepting wagers and who is legally authorized to engage in such business at or in connection with such facility. We believe that our current hotel properties are “qualified lodging facilities.” Although we intend to monitor future acquisitions and improvements of properties, REIT provisions of the Code provide only limited guidance for making determinations under the requirements for “qualified lodging facilities,” and there can be no assurance that these requirements will be satisfied.

Risks Relating to Our Capital Structure

Covenants in our current and future debt instruments may limit our ability to make required distributions to our stockholders in accordance with our announced intended dividend policy.

Our credit facility imposes, and future financing agreements are likely to impose, operating and financial restrictions on our activities, including restrictions on the payment of dividends. These restrictions may prevent us from making distributions to our stockholders in accordance with our announced intended dividend policy.

Our cash distributions are not guaranteed and may fluctuate.

A REIT generally is required to distribute at least 90% of its REIT taxable income to its stockholders. Generally, our board of directors, in its sole discretion, will determine on a quarterly basis whether to pay a cash dividend and the amount of cash to be distributed to our stockholders based on a number of factors including, but not limited to, our results of operations, cash flow and capital requirements, economic conditions, tax considerations, borrowing capacity and other factors, including debt covenant restrictions that may impose limitations on cash payments and plans for future acquisitions and divestitures. Our board of directors approved a dividend policy pursuant to which we will make minimum dividends of 100% of REIT taxable income annually, subject to the board of directors’ future determinations as to the amount of any distributions and the timing thereof. The dividend policy may be altered at any time by our board of directors (as otherwise permitted by our credit agreement) and certain provisions of our agreements governing our other indebtedness may prohibit us from paying dividends in accordance with any policy we may adopt. Consequently, our distribution levels may be minimal and may fluctuate.

We have invested in, and in the future may invest in, joint ventures, certain minority equity interests, mortgage loans, or mezzanine debt over which we may not have significant control, to or for which we may owe significant funding or obligations and for which there is no readily available market, and these investments may not be profitable.

We may invest with third parties through partnerships, joint ventures or other entities, by acquiring non-controlling interests in or sharing responsibility for managing the affairs of a property, partnership, joint venture or other entity. Further, we may invest in mortgage loans or mezzanine financing for a property. These types of investments may not be liquid and we may have little or no rights, or ability, to exercise the direction or control of the respective enterprises. In connection with these investments, we may have obligations under certain guarantees related to such investments. The ultimate value of any debt investments, joint ventures or minority investments will be dependent upon the efforts of others over an extended period of time. The nature of our interests and the absence of a readily available market for those interests restrict our ability to dispose of them. Our lack of control over the management of any business in which we are a creditor, joint owner or minority investor and the lack of a readily available market to sell our interest in these businesses may cause us to recognize a loss on our investment in these businesses or to incur costs or liabilities that we do not control, but for which we may be required to contribute capital or satisfy financial commitments. These arrangements are subject to uncertainties and risks, including those related to credit risk, conflicting joint venture partner interests, including with respect to competition in other markets, and to our joint venture partners failing to meet their financial or other obligations.

Our substantial debt could reduce our cash flow and limit our business activities.

We currently have a significant amount of debt. At December 31, 2023, we had approximately \$3.4 billion of total debt. We may incur additional debt in connection with acquisitions of properties or businesses, development, investment in new projects, renovations, or capital improvement.

Our substantial amount of debt could have important consequences. For example, it could:

- increase our vulnerability to general adverse economic and industry conditions;
- require us to dedicate a substantial portion of our cash flow from operations to make interest and principal payments on our debt, thereby limiting the availability of our cash flow to make distributions to our stockholders and to fund future capital expenditures, working capital and other general corporate requirements;
- limit our flexibility in planning for, or reacting to, changes in our business and the hospitality industry, which may place us at a competitive disadvantage compared with competitors that are less leveraged;
- limit our ability to borrow additional funds, even when necessary to maintain adequate liquidity; and
- limit our ability to obtain additional financing for various projects, including possible expansions of our existing properties and acquisitions of additional properties.

In addition, the terms of our credit agreements allow, and instruments governing any new debt may allow, us to incur substantial amounts of additional debt subject to certain limitations. Any such additional debt could increase the risks associated with our substantial leverage. At the time any principal amount of our indebtedness is due, we may not have cash available to pay this amount, and we may not be able to refinance our indebtedness on favorable terms, or at all.

We could be required to refinance our debt before it matures and there is no assurance that we will be able to refinance our debt on acceptable terms.

Our ability to refinance each of our agreements governing our indebtedness on acceptable terms will be dependent upon a number of factors, including our degree of leverage, the value of our assets, borrowing restrictions which may be imposed by lenders and conditions in the credit markets at the time we refinance. Rising interest rates may make future refinancing more difficult to obtain on favorable terms. In addition, although we have previously been successful in negotiating amendments to our credit agreement and in negotiating an amendment to the Gaylord Rockies term loan, we may be unsuccessful in negotiating any further amendments or modifications to the agreements governing our indebtedness as we may deem necessary. To the extent we are unable to refinance our debt on acceptable terms, we may be forced to choose from a number of

unfavorable options, including agreeing to otherwise unfavorable financing terms, selling one or more hotel properties at unattractive prices or on disadvantageous terms, or defaulting on mortgages and allowing our lenders to foreclose. Any one of these options could have a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to our stockholders.

To service our debt and pay other obligations, we will require a significant amount of cash, which may not be available to us.

Our ability to make payments on, repay or refinance our debt, including our obligations under our senior notes and any future debt we may incur, and to fund planned capital expenditures will depend largely upon our future operating performance and our ability to generate cash from operations. Our future performance, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control. In addition, our ability to borrow funds in the future to make payments on our debt and other obligations will depend on the satisfaction of the covenants and financial ratios in our senior credit facility and our other debt agreements, including other agreements we may enter into in the future. Our business may not generate sufficient cash flow from operations or we may not have future borrowings available to us under our credit facility or from other sources in an amount sufficient to enable us to pay our debt or to fund our other liquidity needs.

The agreements governing our debt contain various covenants that may limit our ability to operate our business and impair our ability to make distributions to our stockholders.

Our existing financial agreements, including our credit facilities and term loan B impose, and future financing agreements are likely to impose, operating and financial restrictions on our activities, including our ability to make distributions to any stockholder. Our credit facility has required and in the future will require us to comply with or maintain certain financial tests and ratios, including minimum fixed charge coverage ratio, minimum implied debt service coverage ratio and maximum funded debt to asset value ratio, and we expect will require us to comply with these tests in the future. Our financial agreements prohibit or limit our ability to, among other things:

- incur additional debt, issue guarantees of debt and issue preferred stock;
- create liens;
- sell assets;
- sell equity interests in our restricted subsidiaries;
- redeem and/or prepay certain debt;
- pay dividends on our stock to our stockholders or repurchase our stock or other equity interests;
- make certain investments;
- enter new lines of business;
- engage in consolidations, mergers and acquisitions;
- enter into transactions with affiliates; or
- agree to restrictions on our subsidiaries' ability to pay dividends and make other distributions to us.

If we fail to comply with these covenants, we would be in default under our credit facility and the indentures governing our senior unsecured notes, and the outstanding principal and accrued interest on such debt would become due and payable.

Various risks, uncertainties and events beyond our control could affect our ability to comply with these covenants and maintain applicable financial tests and ratios. Failure to comply with any of the covenants in our existing or future financing agreements could result in a default under those agreements and under other agreements containing cross-default provisions. A default would permit lenders to accelerate the maturity for the debt under these agreements and to foreclose upon any collateral securing the debt, including, in the case of our existing credit facility, our subsidiaries that are the fee owners of Gaylord Opryland and Gaylord Texan, their respective direct and indirect parent entities, and the equity of Ryman Hotel Operations Holdco, LLC, a wholly-owned

indirect subsidiary of the Company; in the case of the Gaylord Rockies term loan, Gaylord Rockies; in the case of the OEG term loan, the OEG assets; and in the case of the Block 21 loan, Block 21 assets. Under these circumstances, we might not have sufficient funds or other resources to satisfy all of our obligations. In addition, the limitations imposed by financing agreements on our ability to pay dividends, incur additional debt and to take other actions might significantly impair our ability to obtain other financing and to make distributions to our stockholders in accordance with any dividend policy.

Our indebtedness is secured by a substantial portion of our assets.

Subject to applicable laws and certain agreed-upon exceptions, our \$700 million revolving credit facility and \$500 million term loan B are secured by equity pledges of our subsidiaries that are the fee owners of Gaylord Opryland and Gaylord Texan, their respective direct and indirect parent entities, and the equity of Ryman Hotel Operations Holdco, LLC, a wholly-owned indirect subsidiary of the Company. The Gaylord Rockies' \$800 million term loan is secured by liens on the substantial majority of Gaylord Rockies assets. The OEG term loan and OEG revolver are secured by substantially all of the assets of OEG Finance, other than Block 21. The Block 21 loan is secured by all of the assets of Block 21. In the event of a default under our credit facility, or if we experience insolvency, liquidation, dissolution or reorganization, the holders of our secured debt instruments would first be entitled to payment from their collateral security, and only then would holders of our unsecured debt be entitled to payment from our remaining assets.

We are a holding company and depend upon our subsidiaries' cash flow to meet our debt service obligations.

We are a holding company, and we conduct our operations through our subsidiaries, including our TRSs. As a result, our ability to meet our debt service obligations substantially depends upon our subsidiaries' cash flows and payments of funds to us by our subsidiaries as dividends, loans, advances, leases or other payments. The payment of dividends and/or making of loans, advances, leases or other payments by our subsidiaries will be subject to the approval of those subsidiaries' boards. Our subsidiaries' ability to pay such dividends and/or make such loans, advances, leases or other payments may also be restricted by, among other things, applicable laws and regulations, current and future debt agreements, and management agreements into which our subsidiaries may enter.

Our variable rate indebtedness subjects us to interest rate risk, which could cause our indebtedness service obligations to increase significantly.

Certain of our indebtedness bears interest at variable interest rates that use Adjusted Term Secured Overnight Financing Rate ("SOFR") as the preferred alternative rate for LIBOR that has been identified by the Alternative Reference Rates Committee ("ARRC"), a U.S.-based group convened by the Federal Reserve and the Federal Reserve Bank of New York. SOFR is calculated based on short-term repurchase agreements, backed by U.S. Treasury securities, and Adjusted Term SOFR is a forward-looking term rate currently published by CME Group Benchmark Administration Limited. Adjusted Term SOFR is calculated differently from LIBOR and has inherent differences, which could give rise to uncertainties, including the limited historical data and volatility of the benchmark rates. Because of these and other differences, there is no assurance that any of our SOFR-based facilities will perform in the same way as LIBOR would have performed at any time, and there is no guarantee that Adjusted Term SOFR is a comparable substitute for LIBOR. Uncertainty as to the nature of such potential changes, alternative reference rates, including SOFR, or other reforms may adversely affect market demand for LIBOR- or SOFR-based obligations, including ours. As a result, our interest expense may increase, our ability to refinance some or all of our existing indebtedness may be affected, and our available cash flow may be adversely affected.

Our organizational documents and Delaware law could make it difficult for a third party to acquire control of us.

Our Charter and our Second Amended and Restated Bylaws contain provisions that could delay, deter or prevent a change in control of our company or our management. These provisions could also discourage proxy contests and make it more difficult for stockholders to elect directors and take other corporate actions. These provisions:

- impose restrictions on transfer and ownership of our common stock that are designed to assist us in maintaining our status as a REIT;
- authorize us to issue "blank check" preferred stock, which is preferred stock that can be created and issued by our board of directors, without stockholder approval, with rights senior to those of common stock;

- establish advance notice requirements for submitting nominations for election to our board of directors and for proposing matters that can be acted upon by stockholders at meetings;
- provide that special meetings of stockholders may be called only by our chairman or by a majority of the members of our board of directors;
- prohibit stockholder actions taken on written consent; and
- impose restrictions on ownership of common stock by certain persons (including non-United States persons) due to our ownership of a radio station.

We are subject to anti-takeover provisions under Delaware law, which could also delay or prevent a change of control. Together, our Charter, Second Amended and Restated Bylaws, and Delaware law may discourage transactions that otherwise could provide for the payment of a premium over prevailing market prices for our common stock, and also could limit the price that investors are willing to pay in the future for shares of our common stock.

The ownership limitations in our Charter may restrict or prevent stockholders from engaging in certain transfers of our common stock.

To qualify and remain qualified as a REIT, no more than 50% in value of our outstanding shares may be owned, directly or indirectly, by five or fewer individuals (as defined in the Code to include various kinds of entities) during the last half of any taxable year. To assist us in qualifying as a REIT, our Charter contains a share ownership limit. Generally, any of our shares owned by affiliated owners will be added together for purposes of the share ownership limit. This share ownership limit provides that (subject to certain exceptions) no person may beneficially own, or be deemed to own by virtue of the attribution provisions of the Code, more than 9.8%, in value or in number of shares, whichever is more restrictive, of the outstanding shares of our capital stock, or any class or series of our capital stock. If anyone transfers shares in a manner that would violate the share ownership limit or prevent us from qualifying as a REIT, those shares instead will be transferred to a trust for the benefit of a charitable beneficiary and will be either redeemed by us or sold to a person whose ownership of the shares will not violate the share ownership limit or we will consider the transfer to be null and void from the outset, and the intended transferee of those shares will be deemed never to have owned the shares.

Our Charter also prohibits the ownership of shares by any person or entity if such ownership would violate or otherwise be inconsistent with federal communications laws or regulations pertaining to the ownership of television or radio stations, cable television or other radio authorizations by (i) foreign persons or entities, (ii) persons or entities having interests in television or radio broadcast stations, newspapers or cable television systems, and (iii) entities seeking direct or indirect control of us without prior federal regulatory approval. In the event of a transfer that would result in a violation or inconsistency with federal communications laws or regulations, we may refuse to permit the transfer, suspend the rights of share ownership as necessary to prohibit the violation or inconsistency, or redeem the shares. Anyone who acquires shares in violation of the share ownership limit or the other restrictions on transfer in our Charter bears the risk of suffering a financial loss when the shares are redeemed or sold if the market price of our shares falls between the date of purchase and the date of redemption or sale. In addition, these ownership limitations may prevent an acquisition of control of us by a third party without the approval of our board of directors, even if our stockholders believe the change of control is in their interest.

General Risk Factors

We are subject to risks related to our environmental, social and governance practices.

Many factors influence our reputation including the perception held by our customers and other key stakeholders and the communities in which we do business, and the perception held by customers of Marriott or any future third-party hotel manager. The lodging and entertainment industries in which we operate face increasing scrutiny related to environmental, social and governance activities and risk of damage to our reputation if we fail to act responsibly or comply with regulatory requirements in a number of areas, such as safety and security, environmental stewardship and sustainability, climate change, diversity, human rights, philanthropy and support for local communities. The continuing evolution of social media presents new challenges and requires us to keep pace with new developments and trends. Negative posts or comments about us, the properties we own, the businesses we operate, and Marriott or any future third-party hotel manager on any social networking or

user-generated review website, including travel and vacation property websites, could affect consumer opinions of us, and we cannot guarantee that we will timely or adequately redress such instances.

Hospitality companies have been the target of class actions and other lawsuits alleging violations of federal and state law and other claims, and we may be subject to legal claims.

Our operating income and profits may be reduced by legal or governmental proceedings brought by or on behalf of our employees, customers or other third parties. In recent years, a number of hospitality companies have been subject to lawsuits, including class action lawsuits, alleging violations of federal and state law regarding workplace and employment matters, discrimination, customer privacy breaches and other alleged violations of law. A number of these lawsuits have resulted in the payment of substantial damages by the defendants. Similar lawsuits have been instituted against us from time to time and were resolved in an immaterial manner, but we cannot assure you that we will not incur substantial damages and expenses resulting from future lawsuits of this type or other claims, which could have a material adverse effect on our business, financial condition and results of operations. Additionally, because we rely on third-party managers to operate our hotel properties and certain attractions, we have limited control over defending lawsuits of this type or other claims.

The ability of our board of directors to change our major policies without the consent of stockholders may not be in our stockholders' interest.

Our board of directors determines our major policies, including any policies and guidelines we may maintain from time to time relating to our acquisitions, leverage, financing, growth, qualification as a REIT and distributions to our stockholders. Our board of directors may amend or revise these and other policies and guidelines from time to time without the vote or consent of our stockholders. Accordingly, our stockholders will have limited control over changes in our policies and those changes could adversely affect our financial condition, results of operations, the market price of our common stock and our ability to make distributions to our stockholders.

The market price of our common stock may vary substantially based on changes in market interest rates and other factors.

The trading prices of equity securities issued by REITs have historically been affected, including in recent quarters, by changes in market interest rates and other factors. One of the factors that may influence the market price of our common stock is the annual yield from distributions on our common stock as compared to yields on other financial instruments. The U.S. has experienced, and may continue to experience, increases in market interest rates. Further increases in market interest rates, or a decrease in our distributions to stockholders, may lead prospective purchasers of our shares to demand a higher annual yield and choose other investments, which could reduce the market price of our common stock. Further, rising interest rates may reduce our available cash flow and diminish our ability to reinvest in our assets, which may harm our business.

Other factors that could affect the market price of our common stock include the following:

- actual or anticipated variations in our quarterly results of operations;
- changes in market valuations of companies in the hotel or real estate industries;
- changes in expectations of future financial performance or changes in estimates of securities analysts;
- fluctuations in stock market prices and volumes;
- issuances of common stock or other securities in the future;
- disputes with our hotel managers;
- the addition or departure of key personnel;
- announcements by us or our competitors of acquisitions, investments or strategic alliances; and
- unforeseen events beyond our control, such as terrorist attacks, travel related health concerns including pandemics and epidemics (including widespread or severe outbreaks of new or existing COVID-19 variants in the United States), political instability, regional hostilities, increases in fuel prices, imposition of taxes or surcharges by regulatory authorities, travel related accidents and unusual weather patterns, including natural disasters, such as hurricanes, earthquakes or tornadoes.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Company's internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2023. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) in Internal Control - Integrated Framework.

Based on management's assessment and those criteria, management believes that, as of December 31, 2023, the Company's internal control over financial reporting was effective.

On June 30, 2023, we acquired JW Marriott Hill Country. We are currently in the process of assessing JW Marriott Hill Country's internal control over financial reporting and integrating the entity's internal control over financial reporting with our existing internal control over financial reporting. As permitted by SEC regulations, we have excluded JW Marriott Hill Country from our assessment of internal control over financial reporting as of December 31, 2023 since we acquired the entity in June 2023. JW Marriott Hill Country constituted 16.4% and 4.3% of total assets and total revenues, respectively, as of and for the year ended December 31, 2023.

The Company's independent registered public accounting firm, Ernst & Young LLP, has issued an attestation report on the Company's internal control over financial reporting, which is included herein.

RYMAN HOSPITALITY PROPERTIES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Description of the Business and Summary of Significant Accounting Policies

For financial statement presentation and reporting purposes, the Company is the successor to Gaylord Entertainment Company, a Delaware corporation (“Gaylord”). As part of the plan to restructure the business operations of Gaylord to facilitate its qualification as a real estate investment trust (“REIT”) for federal income tax purposes, Gaylord merged with and into its wholly-owned subsidiary, Ryman Hospitality Properties, Inc., a Delaware corporation (“Ryman”), on October 1, 2012, with Ryman as the surviving corporation (the “Merger”). At 12:01 a.m. on October 1, 2012, the effective time of the Merger, Ryman succeeded to and began conducting, directly or indirectly, all of the business conducted by Gaylord immediately prior to the Merger. The “Company” refers to Ryman and its subsidiaries and to Gaylord.

On January 1, 2013, the Company began operating as a REIT for federal income tax purposes, specializing in group-oriented, destination hotel assets in urban and resort markets. The Company’s owned assets include a network of upscale, meetings-focused resorts that are managed by Marriott International, Inc. (“Marriott”) under the Gaylord Hotels brand. These five resorts, which the Company refers to as the Gaylord Hotels properties, consist of the Gaylord Opryland Resort & Convention Center in Nashville, Tennessee (“Gaylord Opryland”), the Gaylord Palms Resort & Convention Center near Orlando, Florida (“Gaylord Palms”), the Gaylord Texan Resort & Convention Center near Dallas, Texas (“Gaylord Texan”), the Gaylord National Resort & Convention Center near Washington D.C. (“Gaylord National”), and the Gaylord Rockies Resort & Convention Center near Denver, Colorado (“Gaylord Rockies”). Prior to May 2021, Gaylord Rockies was owned by a joint venture (the “Gaylord Rockies joint venture”) in which the Company owned a 65% interest. The Company’s other owned hotel assets managed by Marriott include the Inn at Opryland, an overflow hotel adjacent to Gaylord Opryland, the AC Hotel at National Harbor, Washington D.C. (“AC Hotel”), an overflow hotel adjacent to Gaylord National, and effective June 30, 2023, the JW Marriott San Antonio Hill Country Resort & Spa (“JW Marriott Hill Country”). See “JW Marriott Hill Country Transaction” below for further disclosure.

In April 2021, the Company entered into an agreement with RIDA Development Corporation to acquire the remaining 35% ownership interest in the Gaylord Rockies joint venture not previously owned by the Company for \$188.0 million and approximately 130 acres of undeveloped, adjacent land for \$22.0 million in cash (the “JV Purchase”). The JV Purchase closed in May 2021 and was funded through cash on hand and borrowings under the Company’s \$700 million revolving credit facility. As discussed below, the Company consolidated the Gaylord Rockies joint venture both before and after the purchase in the accompanying consolidated financial statements.

The Company also owns a controlling 70% equity interest in a business comprised of a number of entertainment and media assets, known as the Opry Entertainment Group (“OEG”), which the Company reports as its Entertainment segment. These assets include the Grand Ole Opry, the legendary weekly showcase of country music’s finest performers; the Ryman Auditorium, the storied live music venue and former home of the Grand Ole Opry; WSM-AM, the Opry’s radio home; Ole Red, a brand of Blake Shelton-themed bar, music venue and event spaces; two Nashville-based assets – the Wildhorse Saloon and the General Jackson Showboat (“General Jackson”); and as of May 31, 2022, Block 21, a mixed-use entertainment, lodging, office, and retail complex located in Austin, Texas (“Block 21”). Prior to June 16, 2022, the Company owned 100% of OEG. The Company also previously owned a 50% interest in a joint venture that created and distributed a linear multicast and over-the-top channel dedicated to the country music lifestyle (“Circle”). See “OEG Transaction,” and “Block 21 Transaction” in this Note 1, as well as Note 11, “Commitments and Contingencies,” for further disclosure.

The Company conducts its business through an umbrella partnership REIT, in which all of its assets are held by, and all of its operations are conducted through, RHP Hotel Properties, LP, a subsidiary operating partnership (the “Operating Partnership”) that the Company formed in connection with its REIT conversion. Ryman and the non-controlling operating partnership unit holders discussed in “Income (Loss) Per Share” in this Note 1 are the sole limited partners of the Operating Partnership, and Ryman currently owns, either directly or indirectly, 99.3% of the partnership units of the Operating Partnership. RHP Finance Corporation, a Delaware corporation (“Finco”), was formed as a wholly-owned subsidiary of the Operating Partnership for the sole purpose of being an issuer of debt securities with the Operating Partnership. Neither Ryman nor Finco has any material assets, other than Ryman’s investment in the Operating Partnership and its 100%-owned subsidiaries. Neither the Operating Partnership nor Finco has any business, operations, financial results or other material information, other than the business, operations, financial results and other material information described in this annual report

and Ryman's other reports, documents or other information filed with the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended.

The Company principally operates, through its subsidiaries and its property managers, as applicable, in the following business segments: Hospitality; Entertainment; and Corporate and Other. The Company's fiscal year ends on December 31 for all periods presented.

Business Segments

Hospitality

The Hospitality segment includes the Gaylord Hotels properties, JW Marriott Hill Country (effective June 30, 2023), the Inn at Opryland and the AC Hotel, each of which is managed by Marriott pursuant to a management agreement for each hotel.

Entertainment

The Entertainment segment includes the OEG business, specifically the Grand Ole Opry, the Ryman Auditorium, WSM-AM, Ole Red, Block 21, the General Jackson, the Wildhorse Saloon, and the Company's previous investment in the Circle joint venture, among various others. Marriott manages the day-to-day operations of the General Jackson and the W Austin, which is part of the Block 21 complex, pursuant to management agreements.

Corporate and Other

The Corporate and Other segment includes operating and general and administrative expenses related to the overall management of the Company which are not allocated to the other reportable segments, including certain costs for the Company's retirement plans, equity-based compensation plans, information technology, human resources, accounting, and other administrative expenses.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its subsidiaries. The Company's investments in non-controlled entities in which it has the ability to exercise significant influence over operating and financial policies are accounted for by the equity method. All significant intercompany accounts and transactions have been eliminated in consolidation.

The Company analyzes its variable interests, including loans, guarantees, management agreements, leasing arrangements and equity investments, to determine if an entity in which it has a variable interest is a variable interest entity ("VIE"). This analysis primarily includes a qualitative review, which is based on a review of the design of the entity, its organizational structure, including decision-making ability, and relevant financial agreements. This analysis is also used to determine if the Company must consolidate the VIE as the primary beneficiary.

For periods prior to its acquiring 100% ownership of the Gaylord Rockies joint venture in May 2021, management concluded that the Company was the primary beneficiary of the Gaylord Rockies joint venture, which was a VIE. As such, the Company consolidated the assets, liabilities and results of operations of the Gaylord Rockies joint venture in the accompanying consolidated financial statements. The portion of the Gaylord Rockies joint venture that the Company did not previously own was recorded as noncontrolling interest in consolidated joint venture, and any previous adjustment necessary to reflect the noncontrolling interest at its redemption value was shown in the accompanying consolidated statements of equity (deficit) and noncontrolling interest. As Gaylord Rockies is now wholly-owned by the Company, it is no longer considered a VIE. See "Noncontrolling Interests" below for further discussion.

The terms of the Company's joint venture agreement in Circle provided that the Company and its joint venture partner each shared the authority to make major decisions in the joint venture, including operating plans, entering into certain contracts, admitting additional members of the joint venture, issuing additional membership interests, and amending the operating agreement. In addition, the officers of Circle were not employees of the Company. Based on management's analysis of the joint venture agreement, management concluded that the Company was not the primary beneficiary of this variable interest entity and accounted for this previous investment under the equity method.

OEG Transaction

On June 16, 2022, the Company and certain of its subsidiaries, including OEG Attractions Holdings, LLC (“OEG”), which directly or indirectly owns the assets that comprise the Company’s Entertainment segment, consummated the transactions contemplated by an investment agreement (the “Investment Agreement”) with Atairos Group, Inc. (“Atairos”) and A-OEG Holdings, LLC, an affiliate of Atairos (the “OEG Investor”), pursuant to which OEG issued and sold to the OEG Investor, and the OEG Investor acquired, 30% of the equity interests of OEG for approximately \$296.0 million (the “OEG Transaction”). The purchase price payable to the Company for the OEG Transaction may be increased by \$30.0 million if OEG achieves certain financial objectives in 2024.

The Company retains a controlling 70% equity interest in OEG and continues to consolidate the assets, liabilities and results of operations of OEG in the accompanying consolidated financial statements. The portion of OEG that the Company does not own is recorded as noncontrolling interest in consolidated joint venture, which is classified as mezzanine equity in the accompanying consolidated balance sheets, and any adjustment necessary to reflect the noncontrolling interest at its redemption value is shown in the accompanying consolidated statements of equity (deficit) and noncontrolling interest. After the payment of transaction expenses, the Company used substantially all of the net proceeds from the OEG Transaction, together with the net proceeds the Company received from the OEG Term Loan (as defined below), to repay the then-outstanding balance of the Company’s former \$300 million term loan A and to pay down substantially all borrowings then outstanding under the Company’s revolving credit facility.

Pursuant to the Second Amended and Restated Limited Liability Company Agreement for OEG entered into at the closing of the OEG Transaction (the “OEG LLC Agreement”), OEG is governed by a Board of Managers (the “Board”), subject to member consent to certain actions. The Board initially consists of six members, four designated by the Company and two designated by the OEG Investor. Board membership may be modified from time to time to reflect the proportional ownership of outstanding units by each party. Subject to certain ownership thresholds, the approval of both parties will be required with respect to certain “major decisions” affecting OEG, including, but not limited to, approval of OEG’s annual operating budget in the event of changes exceeding certain thresholds, the incurrence of certain debt, the issuance of new equity securities, and mergers, acquisitions or dispositions in excess of a certain dollar threshold.

The OEG Investor will have the option to acquire additional common units of OEG from the Company (the “Purchase Option”) in each of the fourth quarters of 2024 and 2025 in an amount equal to the lesser of \$125 million or the maximum amount of proceeds that the Company may receive with respect to its compliance with applicable REIT tests, provided that the OEG Investor may not purchase an amount of common units that would result in the Company owning less than 51% of the outstanding common units after giving effect to the purchase. If the OEG Investor elects to exercise the Purchase Option, then (i) beginning on June 16, 2027 (the fifth anniversary of the OEG Investor’s original investment in OEG (the “Fifth Anniversary”)), the OEG Investor will have the right to demand that OEG undertake a Qualified IPO and (ii) the OEG Investor’s rights with respect to the IPO Request Put Right, the Seven-Year Put Right, an IPO Payment and a Sale Payment, each as defined in the OEG LLC Agreement and described below, will expire. The Purchase Option will terminate upon the occurrence of a Qualified IPO, a Sale of OEG or a Qualified Spinoff, each as defined in the OEG LLC Agreement.

IPO Request Put Right. If OEG has not completed a Qualified IPO prior to June 16, 2026 (the fourth anniversary of the OEG Investor’s original investment in OEG (the “Fourth Anniversary”)), the OEG Investor may request that OEG undertake a Qualified IPO. If the Company, through its subsidiary RHP Hotels, LLC (the “Ryman Member”), declines to undertake such Qualified IPO, the OEG Investor may cause the Ryman Member to acquire all of the OEG Investor’s interest in OEG at a price equal to 1.5 times the OEG Investor’s equity investment (the “IPO Request Put Price”).

Seven-Year Put Right. If OEG has not completed a Qualified IPO, Sale of OEG or a Qualified Spinoff prior to June 16, 2029 (the seventh anniversary of the OEG Investor’s original investment in OEG (the “Seventh Anniversary”)), the OEG Investor may cause the Ryman Member to acquire all of the OEG Investor’s interest in OEG at a price equal to the fair value of the OEG Investor’s equity interest (the “Seven-Year Put Price”).

The IPO Request Put Price and the Seven-Year Put Price may each be settled in either cash or Company stock, at the Company’s option, and the IPO Request Put Right and the Seven-Year Put Right will each terminate at the first closing of the Purchase Option.

IPO Payment. Upon a Qualified IPO that occurs on or before the Seventh Anniversary, the OEG Investor will be entitled to an IPO Payment if the Post IPO Investor Stake Value (as defined in OEG LLC Agreement) measured on the 120th trading day post-IPO does not equal or exceed the Minimum Investor Stake Value (as defined in the OEG LLC Agreement). If the IPO occurs after the Fourth Anniversary, the IPO Payment will be capped at 50% of the OEG Investor’s investment in OEG (the “Payment Cap”). Any IPO Payment may be satisfied in either cash, OEG equity owned by the Ryman Member, or Company stock, at the Company’s option.

Sale Payment. Upon a sale of OEG (but excluding a Qualified Spinoff) that occurs on or before the Seventh Anniversary, the OEG Investor will be entitled to a Sale Payment if the value of the OEG Investor’s retained invested equity (implied by the sale) does not equal or exceed the Minimum Investor Sale Value (as defined in the OEG LLC Agreement). If a sale of OEG occurs after the Fifth Anniversary, any Sale Payment will be capped at the Payment Cap. Any Sale Payment may be satisfied in either cash, a preferential cash distribution, additional consideration in the Sale of OEG or Company stock at the Company’s option.

The above descriptions related to the OEG LLC Agreement do not purport to be complete and are qualified in their entirety by reference to the OEG LLC Agreement filed as Exhibit 10.12 to our Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

JW Marriott Hill Country Transaction

On June 30, 2023, the Company purchased JW Marriott Hill Country for approximately \$800 million. Located amid approximately 600 acres in the Texas Hill Country region outside of San Antonio, JW Marriott Hill Country, which opened in 2010, is a premier group-oriented resort with 1,002 rooms and 268,000 total square feet of indoor and outdoor meeting and event space. The resort’s amenities include a spa, several food and beverage outlets, a water experience, and TPC San Antonio, which features two 18-hole golf courses. The Company funded the purchase price with approximately \$395 million in net proceeds of an underwritten registered public offering of approximately 4.4 million shares of the Company’s common stock (see Note 9, “Equity”), approximately \$393 million in net proceeds of a private placement of \$400 million aggregate principal amount of 7.25% senior notes due 2028 (see Note 4, “Debt”) and cash on hand. JW Marriott Hill Country assets and operations are reflected in the Company’s Hospitality segment beginning June 30, 2023.

The Company performed a valuation of the fair value of the acquired assets and liabilities assumed as of June 30, 2023. The valuations of the various components of property and equipment were determined principally based on the cost approach, which uses assumptions regarding replacement values from established indices. The valuation of intangible assets was based on various methods to evaluate the values of advanced bookings previously received for the hotel and the values of golf memberships and water rights for the golf course. The Company considers each of these estimates as Level 3 fair value measurements.

The Company determined that the acquisition represents an asset acquisition and has capitalized transaction costs and allocated the purchase price to the relative fair values of assets acquired and liabilities assumed, adjusted for working capital adjustments as set forth in the purchase agreement and transaction costs, as follows (amounts in thousands):

Property and equipment	\$772,821
Cash and cash equivalents - unrestricted.	12,690
Cash and cash equivalents - restricted.	5,477
Trade receivables	14,743
Prepaid expenses and other assets	3,953
Intangible assets	<u>25,097</u>
Total assets acquired.	<u>834,781</u>
Accounts payable and accrued liabilities.	<u>(25,148)</u>
Total liabilities assumed.	<u>(25,148)</u>
Net assets acquired.	<u><u>\$809,633</u></u>

Block 21 Transaction

On May 31, 2022, the Company purchased Block 21 for a stated purchase price of \$260 million, as subsequently adjusted to \$255 million pursuant to the terms of the purchase agreement, which included the assumption of approximately \$136 million of existing mortgage debt. Block 21 is the home of the Austin City Limits Live at

The Moody Theater (“ACL Live”), a 2,750-seat entertainment venue that serves as the filming location for the Austin City Limits television series. The Block 21 complex also includes the 251-room W Austin, the 3TEN at ACL Live club and approximately 53,000 square feet of other Class A commercial space. The Company funded the cash portion of the purchase price with cash on hand and borrowings under its revolving credit facility. The acquisition was accounted for as a business combination, given the different nature of the principal operations acquired (a hotel and an entertainment venue). Block 21 assets and operations are reflected in the Company’s Entertainment segment beginning May 31, 2022.

The Company performed a preliminary valuation of the fair value of the acquired assets and liabilities assumed as of May 31, 2022. The valuations of the various components of property and equipment were determined principally based on the cost approach, which uses assumptions regarding replacement values from established indices. The valuation of intangible assets was based on various methods to evaluate the values of leases in place and advanced bookings previously received for the hotel. The valuation of assumed debt was principally based on a discounted cash flow approach using market interest rates at the time of the transaction. The Company considers each of these estimates as Level 3 fair value measurements. Other acquired assets were valued at, and fair value approximated, carrying value. Based on the aggregation of fair values as compared to consideration transferred, the Company concluded that there was no goodwill or bargain purchase gain related to the business combination. The Company performed an income approach evaluation of the acquired set which corroborated the conclusion that there was no goodwill related to the acquisition. Such evaluation included assumptions of future projected cash flows, which were based on the future projected occupancy and average daily rate for the W Hotel Austin, future anticipated cash flows at ACL Live, and market discount rates.

Utilizing the valuation, the Company performed a purchase price allocation for the acquired assets and liabilities of Block 21. As a result, the Company allocated the purchase price, adjusted for working capital adjustments as defined in the purchase agreement, as follows (amounts in thousands):

Property and equipment	\$ 237,159
Cash and cash equivalents - unrestricted.....	8,493
Cash and cash equivalents - restricted.....	12,450
Trade receivables	1,405
Prepaid expenses and other assets	1,085
Intangible assets	<u>1,723</u>
Total assets acquired.....	<u>262,315</u>
Debt.....	(132,531)
Accounts payable and accrued liabilities.....	(14,774)
Other liabilities	<u>(75)</u>
Total liabilities assumed.....	<u>(147,380)</u>
Net assets acquired.....	<u>\$ 114,935</u>

During the first quarter of 2023, the Company concluded its valuation of the fair value of the acquired assets and liabilities assumed as of May 31, 2022, and no significant changes were made to the provisional amounts presented above.

The Company incurred \$1.3 million in acquisition-related expenses in 2022, which are included in entertainment expenses in the accompanying consolidated statement of operations.

Property and Equipment

Property and equipment are stated at cost or initially at estimated fair value if recorded in connection with purchase accounting. Improvements and significant renovations that extend the lives of existing assets are capitalized. Interest on funds borrowed to finance the construction of major capital additions is included in the cost of the applicable capital addition. Maintenance and repairs are charged to expense as incurred. Property and equipment are generally depreciated using the straight-line method over the following estimated useful lives:

Buildings	40 years
Land improvements	20 years
Furniture, fixtures and equipment.....	5-8 years
Leasehold improvements	The shorter of the lease term or useful life

Cash and Cash Equivalents - Unrestricted

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. The Company maintains cash and cash equivalents balances in excess of insured limits with various financial institutions.

Cash and Cash Equivalents - Restricted

Restricted cash and cash equivalents primarily represent funds held by our property manager for furniture, fixtures and equipment reserves. In addition, based on their respective loan agreements, Gaylord Rockies must maintain a restricted cash balance related to debt service payments and Block 21 must maintain a restricted cash balance related to debt service, property tax, insurance and other payments.

Beginning in July 2020, Gaylord Rockies was in a cash sweep period pursuant to the Gaylord Rockies term loan agreement, and such cash amounts are also included in restricted cash for 2022. Gaylord Rockies exited this cash sweep period in January 2023. Block 21 was in a Trigger Period (as defined in Note 4, "Debt") as of the date of its purchase by the Company but exited the Trigger Period with first quarter 2023 results. Such cash amounts previously held as a result of the Trigger Period are also included in restricted cash for 2022.

Supplemental Cash Flow Information

Cash paid for interest, net of amounts from interest rate swaps, for the years ended December 31 was comprised of (amounts in thousands):

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Debt interest paid	\$183,479	\$135,467	\$113,669
Capitalized interest	<u>(2,483)</u>	<u>(183)</u>	<u>(2,922)</u>
Cash paid for interest, net of capitalized interest	<u>\$180,996</u>	<u>\$135,284</u>	<u>\$110,747</u>

Net cash payments of income taxes in 2023, 2022 and 2021 were \$6.5 million, \$27.0 million and \$0.5 million, respectively.

Accounts Receivable

The Company's accounts receivable are primarily generated by meetings and convention attendees' room nights and food and beverage. Receivables arising from these sales are not collateralized. Credit risk associated with the accounts receivable is minimized due to the large and diverse nature of the customer base.

Credit Loss Reserves on Accounts Receivable

The Company provides credit loss reserves based upon a percentage of accounts receivable that considers historical write-offs, current economic conditions, and management's expectations about future economic conditions, as well as periodic evaluations of the aging of accounts receivable.

Prepaid Expenses and Other Assets

Prepaid expenses and other assets at December 31 consist of (amounts in thousands):

	<u>2023</u>	<u>2022</u>
Prepaid expenses	\$ 22,458	\$ 19,377
Supplemental deferred compensation plan assets	33,073	29,245
Tax rebate receivables	34,324	22,181
Inventories	14,007	12,041
Right-of-use assets for operating leases	18,134	18,910
Deferred financing costs on revolving credit facilities	8,420	5,757
Derivative assets	—	11,350
Other	<u>24,394</u>	<u>15,309</u>
Total prepaid expenses and other assets	<u>\$154,810</u>	<u>\$134,170</u>

Prepaid expenses consist of prepayments for property taxes, insurance and other contracts that will be expensed during the subsequent year. Inventories consist primarily of food and beverage inventory for resale and retail inventory sold in the Entertainment segment. Inventory is carried at the lower of cost or net realizable value. Cost is computed on an average cost basis. Other assets include capitalized software costs, non-trade receivables, and investments in joint ventures, among others.

Gaylord Rockies is party to an incentive agreement with the local government that provides that Gaylord Rockies is entitled to receive monthly rebates of certain city and state taxes, including property, sales and lodging taxes. The term of the rebate agreement varies by type of tax but ranges from 25-33 years from commencement of the construction of Gaylord Rockies. Gaylord Rockies earned \$52.8 million, \$38.4 million and \$29.1 million in rebates in 2023, 2022 and 2021, respectively, which are generally recorded as a reduction in other hotel expenses in the accompanying consolidated statements of operations for 2023, 2022 and 2021.

Intangible Assets

In connection with the Company's purchase price allocation of the Gaylord Rockies joint venture, the Company acquired certain definite-lived intangibles, which are shown on the accompanying consolidated balance sheets. Included in these intangibles are the original estimated fair value of advanced bookings of \$125.5 million and the original estimated fair value related to the Gaylord Hotels trade name, which Marriott owns, of \$115.3 million. The advanced bookings asset was amortized on a straight-line basis over a period of 3.5 years, which corresponded with the period in which the advanced bookings related, and the value in the trade name is being amortized on a straight-line basis over 30 years, which is the period of the Marriott management agreement.

The gross carrying amount of intangible assets at December 31, 2023 and 2022 was \$279.8 million and \$254.7 million, respectively. Accumulated amortization of intangible assets at December 31, 2023 and 2022 was \$155.6 million and \$148.7 million, respectively. Amortization expense related to intangible assets during 2023, 2022 and 2021 was \$6.8 million, \$22.7 million and \$40.2 million, respectively. The estimated amounts of amortization expense for the next five years are as follows (amounts in thousands):

2024	\$ 8,083
2025	7,694
2026	7,275
2027	5,446
2028	<u>5,329</u>
	<u>\$33,827</u>

Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities at December 31 consist of (amounts in thousands):

	<u>2023</u>	<u>2022</u>
Trade accounts payable	\$ 57,030	\$ 38,628
Property and other taxes payable	90,558	73,461
Deferred revenues	159,762	136,479
Accrued salaries and benefits	57,502	58,219
Interest payable	39,870	23,111
Other accrued liabilities	<u>59,998</u>	<u>55,261</u>
Total accounts payable and accrued liabilities	<u>\$464,720</u>	<u>\$385,159</u>

Deferred revenues consist primarily of deposits on advance bookings of hotel rooms and advance ticket sales at the Company's entertainment properties, as well as uncollected attrition and cancellation fees. Other accrued liabilities include accruals for, among others, purchasing, meeting planner commissions and utilities.

Income Taxes

The Company establishes deferred tax assets and liabilities based on the difference between the financial statement and income tax carrying amounts of assets and liabilities using existing tax laws and tax rates. The Company reports a

liability for unrecognized tax benefits resulting from uncertain tax positions taken or expected to be taken in a tax return, if any. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits in income tax expense. See Note 10, “Income Taxes,” for more detail on the Company’s income taxes.

The effect on deferred tax assets and liabilities of a change in the tax rate is recognized in income in the period that includes the enactment date of the rate change. The Company records a valuation allowance to reduce its deferred tax assets to the amount that is more likely than not to be realized. The Company has considered all available positive and negative evidence in assessing the need for a valuation allowance.

Deferred Management Rights Proceeds

The Company has deferred and amortizes the proceeds received from Marriott that were allocated to the sale of the management rights, as discussed further in Note 5, “Deferred Management Rights Proceeds,” on a straight-line basis over the term of the hotel management agreements, including extensions, as a reduction in management fee expense in the accompanying consolidated statements of operations.

Other Liabilities

Other liabilities at December 31 consist of (amounts in thousands):

	<u>2023</u>	<u>2022</u>
Pension and postretirement benefits liability	\$17,404	\$21,148
Deferred compensation liability	33,073	29,245
Derivative liabilities	1,322	1,164
Other	<u>14,859</u>	<u>13,267</u>
Total other liabilities	<u>\$66,658</u>	<u>\$64,824</u>

Deferred Financing Costs

Deferred financing costs (“DFCs”) consist of loan fees and other costs of financing that are amortized over the term of the related financing agreements, using the effective interest method, and are generally presented as a reduction of the related debt liability. DFCs on the Company’s revolving credit facility and the OEG revolving credit facility are included in prepaid expenses and other assets when the related revolving credit facility has no outstanding balance. During 2023, 2022 and 2021, DFCs of \$10.7 million, \$9.8 million and \$8.8 million, respectively, were amortized to interest expense in the accompanying consolidated statements of operations.

Noncontrolling Interests

OEG

The noncontrolling interest in consolidated joint venture for 2023 and 2022 represents the minority investor’s proportionate share of the assets and liabilities of OEG, adjusted for changes in the redemption value of the related put rights. The noncontrolling interest is classified in the mezzanine section of the consolidated balance sheets as the related redemption options do not meet the requirements for permanent equity classification because these redemption options may be redeemed by the holder as described above in “OEG Transaction.”

The initial value of the noncontrolling interest in OEG, which included certain put rights, was estimated based on the purchase price received from the OEG Investor. In general, the carrying value will be based on the greater of the accumulated historical cost or the put right redemption value, and at December 31, 2023, approximates the fair value of the noncontrolling interest. An adjustment is also made for the OEG Investor’s proportionate share of income or loss in the accompanying consolidated statements of operations.

Gaylord Rockies

Until the Company’s buyout of the minority partners’ interest in the Gaylord Rockies joint venture in 2021, the noncontrolling interest in consolidated joint venture for 2021 represents the previous minority partners’ proportionate share of the assets and liabilities of the Gaylord Rockies joint venture. An adjustment was made in 2021 for the minority partners’ proportionate share of income or loss in the joint venture in the accompanying consolidated statement of operations.

OP Units

Certain former owners of interests in the Gaylord Rockies joint venture received units of the Operating Partnership (“OP Units”) in exchange for their interests. Such OP Units have economic terms that are substantially similar to shares of the Company’s common stock and are redeemable at the option of the holders thereof.

The noncontrolling interest in the Operating Partnership represents the limited partners’ proportionate share of the equity of the Operating Partnership. The noncontrolling interest is classified in the equity section of the consolidated balance sheets, separately from stockholders’ equity, as the related redemption options are redeemable for cash, or if the Company so elects, in unregistered shares of the Company’s common stock on a one-for-one basis, subject to certain adjustments. An adjustment is made for the limited partners’ proportionate share of income or loss in the accompanying consolidated statements of operations. At December 31, 2023, 0.4 million outstanding OP Units, or 0.7% of the outstanding OP Units, were held by the noncontrolling limited partners and are included as a component of equity in the accompanying consolidated balance sheets. The Company owns, directly or indirectly, the remaining 99.3% of the outstanding OP Units

Revenue Recognition

Revenues from occupied hotel rooms are recognized over time as the daily hotel stay is provided to hotel groups and guests. Revenues from concessions, food and beverage sales and group meeting services are recognized over the period or at the point in time those goods or services are delivered to the hotel group or guest. Revenues from ancillary services at the Company’s hotels, such as spa, parking, and transportation services, are generally recognized at the time the goods or services are provided. Cancellation fees and attrition fees, which are charged to groups when they do not fulfill the minimum number of room nights or minimum food and beverage spending requirements originally contracted for, are generally recognized as revenue in the period the Company determines it is probable that a significant reversal in the amount of revenue recognized will not occur, which is typically the period these fees are collected. The Company generally recognizes revenues from the Entertainment segment at the point in time that services are provided or goods are delivered or shipped to the customer, as applicable. Cash received from advanced ticket sales is deferred and recognized as revenue at the time of the event. Entertainment segment revenues from licenses of content are recognized at the point in time the content is delivered to the licensee and the licensee can use and benefit from the content. Revenue related to content provided to Circle has been eliminated for the portion of Circle that the Company owned. The Company is required to collect certain taxes from customers on behalf of government agencies and remit these to the applicable governmental entity on a periodic basis. These taxes are collected from customers at the time of purchase but are not included in revenue. The Company records a liability upon collection from the customer and relieves the liability when payments are remitted to the applicable governmental agency.

The Company’s revenues disaggregated by major source are as follows (in thousands):

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Hotel group rooms	\$ 462,674	\$ 364,835	\$131,404
Hotel transient rooms	238,464	230,709	197,470

AC Hotel.....	11,997	10,419	5,838
Inn at Opryland and other	11,893	13,296	7,656
Total Hospitality segment revenues.....	<u>\$1,833,478</u>	<u>\$1,537,974</u>	<u>\$786,583</u>

The majority of the Company's Entertainment segment revenues are concentrated in Nashville, Tennessee and Austin, Texas.

The Company records deferred revenues when cash payments are received in advance of its performance obligations, primarily related to advanced deposits on hotel rooms in its Hospitality segment and advanced ticketing in its OEG venues. At December 31, 2023 and 2022, the Company had \$159.8 million and \$136.5 million, respectively, in deferred revenues, which are included in accounts payable and accrued liabilities in the accompanying consolidated balance sheets. Of the amount outstanding at December 31, 2022, approximately \$103.1 million was recognized in revenues during 2023.

Management Fees

The Company pays Marriott a base management fee based on the gross revenues from the applicable property for each fiscal year or portion thereof. The applicable percentage for the Gaylord Hotels properties, excluding Gaylord Rockies, is approximately 2% of gross revenues, Gaylord Rockies is approximately 3% of revenues, and JW Marriott Hill Country is approximately 3.5% of gross revenues. Additionally, the Company pays Marriott an incentive management fee based on the profitability of the properties. The Company incurred \$42.8 million, \$35.1 million and \$17.6 million in base management fees to Marriott during 2023, 2022 and 2021, respectively. The Company incurred \$28.5 million, \$13.5 million and \$0.3 million in incentive fees to Marriott during 2023, 2022 and 2021, respectively. Management fees are presented in the consolidated statements of operations net of the amortization of the deferred management rights proceeds discussed further in Note 5, "Deferred Management Rights Proceeds."

Advertising Costs

Advertising costs are expensed as incurred and were \$65.0 million, \$55.1 million, and \$36.2 million for 2023, 2022 and 2021, respectively.

Stock-Based Compensation

The Company has stock-based employee compensation plans, which are described more fully in Note 7, "Stock Plans." The Company accounts for its stock-based compensation plan under the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 718, "*Compensation – Stock Compensation*."

Preopening Costs

The Company expenses the costs associated with start-up activities and organization costs associated with its development or reopening of hotels and significant attractions as incurred. The Company's preopening costs during 2023 include costs associated with Ole Red Las Vegas, which opened in January 2024. The Company's preopening costs during 2022 include costs associated with Ole Red Nashville International Airport, which opened in May 2022. The Company's preopening costs during 2021 include costs associated with the Gaylord Palms expansion, which was completed in April 2021.

Derivative Financial Instruments

The Company has entered into and may in the future enter into additional interest rate swap agreements to hedge against interest rate fluctuations. The Company does not use derivatives for trading or speculative purposes and currently does not hold any derivatives that are not designated as hedges.

For derivatives designated as and that qualify as cash flow hedges of interest rate risk, the gain or loss on the derivative resulting from recording each instrument at estimated fair value is recorded in accumulated other comprehensive loss and subsequently reclassified to interest expense in the same period during which the hedged transaction affects earnings. These amounts reported in accumulated other comprehensive loss will be reclassified to interest expense as interest payments are made on the related variable-rate debt. The Company estimates that \$0.3 million will be reclassified from accumulated other comprehensive loss to interest expense in the next twelve months.

Impairment of Long-Lived and Other Assets

In accounting for the Company's long-lived and other assets (including its property and equipment and intangible assets), the Company assesses its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of the assets or asset group may not be recoverable.

Recoverability of property and equipment and definite-lived intangible assets that will continue to be used is measured by comparing the carrying amount of the asset or asset group to the related total future undiscounted net cash flows. If an asset or asset group's carrying value is not recoverable through those cash flows, the asset group is considered to be impaired. The impairment is measured by the excess of the assets' carrying amount over their fair value, which is estimated using discounted cash flow analyses that utilize comprehensive cash flow projections, as well as observable market data to the extent available.

The Company recorded no impairment losses during 2023, 2022 or 2021.

Income (Loss) Per Share

Income (loss) per share is measured as basic earnings per share and diluted earnings per share. Basic earnings per share is computed by dividing net income (loss) by the weighted average number of common shares outstanding during the year. Diluted earnings per share is computed by dividing net income (loss) by the weighted average number of common shares outstanding after considering the effect of conversion of dilutive instruments, calculated using the treasury stock method or if-converted method, as applicable. Net income (loss) per share amounts are calculated as follows for the years ended December 31 (income (loss) and share amounts in thousands):

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Numerator:			
Net income (loss) available to common stockholders	<u>\$311,217</u>	<u>\$128,993</u>	<u>\$(176,966)</u>
Denominator:			
Weighted average shares outstanding - basic	<u>57,750</u>	55,140	55,047
Effect of dilutive stock-based compensation.	<u>311</u>	237	—
Weighted average shares outstanding - diluted.	<u>58,061</u>	<u>55,377</u>	<u>55,047</u>
Basic income (loss) per share available to common stockholders.	\$ 5.39	\$ 2.34	\$ (3.21)
Diluted income (loss) per share available to common stockholders	\$ 5.36	\$ 2.33	\$ (3.21)

For 2021, the effect of dilutive stock-based compensation was the equivalent of 0.2 million shares of common stock outstanding. Because the Company had a loss available to common stockholders in 2021, these incremental shares were excluded from the computation of dilutive earnings per share as the effect of their inclusion would have been anti-dilutive.

As more fully discussed above in "OEG Transaction," although currently not exercisable, the OEG Investor has certain put rights (the "OEG Put Rights") to require the Company to purchase the OEG Investor's equity interest in OEG, which the Company may pay in cash or Company stock, at the Company's option. The Company calculated potential dilution for the OEG Put Rights based on the if-converted method, which assumes the OEG Put Rights were converted on the first day of the period or the date of issuance and the OEG Investor's

noncontrolling equity interest was redeemed in exchange for shares of the Company's common stock. For 2023 and 2022, the effect of the OEG Put Rights was the equivalent of 4.2 million and 1.9 million shares, respectively, of Company common stock outstanding. Because the OEG Put Rights were anti-dilutive for 2023 and 2022, such incremental shares were excluded from the computation of dilutive earnings per share.

The OP Units held by the noncontrolling interest holders in the Operating Partnership have been excluded from the denominator of the diluted income (loss) per share calculation as there would be no effect on the calculation of diluted earnings per share because the income (loss) attributable to the OP Units held by the noncontrolling interest holders would also be added (subtracted) to derive net income (loss) available to common stockholders.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reported periods. Actual results could differ from those estimates.

Newly Issued Accounting Standards

In March 2020, the FASB issued ASU No. 2020-04, "Reference Rate Reform – Facilitation of the Effects of Reference Rate Reform on Financial Reporting," which provides temporary optional expedients and exceptions to the existing guidance on contract modifications and hedge accounting to ease the financial reporting burdens of the expected market transition from the London Interbank Offered Rate ("LIBOR") and other interbank offered rates to alternative reference rates, such as the Secured Overnight Financing Rate ("SOFR"). The guidance in ASU 2020-04 is optional, effective immediately, and may be elected over time as reference rate reform activities occur generally through December 31, 2022. In December 2022, the FASB issued ASU No. 2022-06, "Reference Rate Reform (Topic 848): Deferral of the Sunset Date of Topic 848," which extends the transition period for the shift from LIBOR to December 2024. The Company has now converted all of its LIBOR-indexed debt and derivatives to SOFR-based indexes. For all derivatives in hedge accounting relationships, the Company utilized the elective relief in ASU 2020-04 and ASU 2022-06 that allows for the continuation of hedge accounting through the transition process.

In November 2023, the FASB issued ASU No. 2023-07, "Improvements to Reportable Segment Disclosures," requiring public entities to provide disclosures of significant segment expenses and other segment items, as well as to provide in interim periods all disclosures about a reportable segment's profit or loss and assets that are currently required annually. The guidance is applied retrospectively and will be effective for the Company for fiscal year 2024 and for interim periods beginning in fiscal year 2025. The Company is currently evaluating the impact of this ASU but does not anticipate this adoption to have a material impact on the Company's financial statements.

In December 2023, the FASB issued ASU No. 2023-09, "Improvements to Income Tax Disclosures," requiring public entities to provide additional information in the rate reconciliation, to disclose annually income taxes paid disaggregated by federal, state and foreign taxes and to disaggregate the information by jurisdiction based on a quantitative threshold. The guidance is applied prospectively, but with the option to apply retrospectively, and will be effective for the Company for fiscal year 2025. The Company is currently evaluating the impact of this ASU but does not anticipate this adoption to have a material impact on the Company's financial statements.

2. Property and Equipment

Property and equipment at December 31 is recorded at cost, with the exception of right-of-use finance leases and the initial value assigned to assets acquired in an acquisition, and summarized as follows (amounts in thousands):

	2023	2022
Land and land improvements	\$ 605,500	\$ 443,469
Buildings	4,396,302	3,785,968
Furniture, fixtures and equipment.	1,138,769	1,015,078
Right-of-use finance lease assets	1,793	1,613
Construction-in-progress	122,923	50,312
	<u>6,265,287</u>	<u>5,296,440</u>
Accumulated depreciation and amortization	<u>(2,309,701)</u>	<u>(2,124,732)</u>
Property and equipment, net.	<u>\$ 3,955,586</u>	<u>\$ 3,171,708</u>

Depreciation expense, including amortization of assets under finance lease obligations, during 2023, 2022 and 2021 was \$203.3 million, \$184.7 million, and \$178.8 million, respectively.

In June 2017, the Company entered into an agreement with the Industrial Development Board of the Metropolitan Government of Nashville and Davidson County (the “Board”) to implement a tax abatement plan related to Gaylord Opryland. The tax abatement plan provides for the capping of real property taxes for a period of eight years by legally transferring title to the Gaylord Opryland real property to the Board. The Board financed the acquisition of the Gaylord Opryland real property by issuing a \$650 million industrial revenue bond to the Company. The Board then leased this property back to the Company. The Company is obligated to make lease payments equal to the debt service on the industrial revenue bond. No cash was exchanged, and no cash will be exchanged in connection with the Company’s lease payments under the lease. The tax abatement period extends through the term of the lease, which coincides with the nine-year maturity of the bond. At any time, the Company has the option to repurchase the real property at a de minimis amount. Due to the form of these transactions, the Company has not recorded the bond or the lease obligation associated with the sale lease-back transaction, and the cost of the Gaylord Opryland real property remains recorded on the balance sheets and is being depreciated over its estimated useful life.

3. Notes Receivable

In connection with the development of Gaylord National, Prince George’s County, Maryland (“the County”) issued a bond with a face value of \$95 million (“Series A Bond”) and an additional bond with a face value of \$50 million (“Series B Bond”), which were delivered to the Company upon substantial completion and opening of Gaylord National in 2008. The interest rate on the Series A Bond and Series B Bond is 8.0% and 10.0%, respectively. The maturity dates of the Series A Bond and the Series B Bond are July 1, 2034 and September 1, 2037, respectively.

Upon receipt in 2008, the Company calculated the present value of the future debt service payments from the Series A Bond and Series B Bond based on their effective interest rates of 8.04% and 11.42%, respectively, and recorded the notes receivable at their discounted values of \$93.8 million and \$38.3 million, respectively. The Company records the amortization of discount on these notes receivable as interest income over the terms of the notes. The Company is currently holding the bonds, which have aggregate carrying values and approximate fair values of \$61.8 million and \$67.6 million at December 31, 2023 and 2022, respectively, net of a credit loss reserve of \$38.0 million at each period. The Company earns interest income on the debt service on the notes receivable, which are payable from tax increments, hotel taxes and special hotel rental taxes generated from the development through the maturity date. The Company’s estimate of credit loss reserves is sensitive to significant assumptions, which include the projections of hotel taxes (which are based on expected hotel revenues) and property taxes, both of which are affected by expectations about future market and economic conditions, particularly those in the Washington D.C. market. These assumptions are based on Level 3 inputs. Further, such assumptions are judgmental as the bonds and related projected cash flows continue for an extended period of time through 2037.

The Company has the intent and ability to hold the Series A Bond and Series B Bond to maturity and had at inception expected to receive all debt service payments due. As a result of reduced long-range tax revenue

projections over the remaining life of the Series B Bond, in 2017, the Company no longer believed it would receive all debt service payments due under the note, and the Company considered the Series B Bond to be other-than-temporarily impaired (“OTTI”). The amount of the OTTI related to changing market conditions, or the increase in the discount rate, of \$6.5 million was recorded as an increase to other comprehensive loss in 2017 and is amortized as an adjustment to the carrying value of the Series B Bond in the accompanying consolidated balance sheets. The discount rate was determined based on the then-current market interest rates of notes receivable with comparable market ratings and the then-current expectations about the timing of debt service payments under the note.

The Company performs a quarterly assessment of credit losses, which considers the estimate of projected tax revenues that will service the bonds over its remaining term. At December 31, 2023 and 2022, the Series B Bond is fully reserved. The Series A Bond is of higher priority than other tranches which fall between the Company’s two issuances.

During 2023, 2022 and 2021, the Company recorded interest income of \$4.9 million, \$5.3 million and \$5.5 million, respectively, on these bonds. The Company received payments of \$11.0 million, \$9.1 million and \$6.4 million during 2023, 2022 and 2021, respectively, relating to these notes receivable, which include principal and interest payments. At each of December 31, 2023 and 2022, before consideration of the credit loss reserve, the Company had accrued interest receivable related to these bonds of \$41.0 million.

4. Debt

The Company’s debt and finance lease obligations at December 31 consisted of (amounts in thousands):

	<u>2023</u>	<u>2022</u>
\$700M Revolving Credit Facility	\$ —	\$ —
\$500M Term Loan B	496,250	371,250

(1) The \$800 Million Gaylord Rockies Term Loan includes two, one-year extension options, subject to certain requirements.

Credit Facility

On May 18, 2023, the Company entered into a Credit Agreement (the “Credit Agreement”) among the Company, as a guarantor, the Operating Partnership, as borrower, certain other subsidiaries of the Company party thereto, as guarantors, certain subsidiaries of the Company party thereto, as pledgors, the lenders party thereto and Wells Fargo Bank, National Association, as administrative agent. The Credit Agreement provides a \$700.0 million revolving credit facility (the “Revolver”) and \$500.0 million term loan B (the “Term Loan B”), as well as an accordion feature that will allow Borrower to increase the facilities by an aggregate total of up to \$475 million, which may be allocated between the Revolver and the Term Loan B at the option of the Borrower. The Revolver replaced the Company’s previous \$700 million revolving credit facility, and a portion of the proceeds from the Term Loan B were used to repay in full the approximately \$370 million balance of the Company’s previous term loan B. The Revolver was undrawn at closing.

Each of the Revolver and Term Loan B is guaranteed by the Company, each of the Company’s subsidiaries that own the Gaylord Hotels properties, other than Gaylord Rockies, and certain other of the Company’s subsidiaries. Each is secured by equity pledges of the Company’s subsidiaries that are the fee owners of Gaylord Opryland and Gaylord Texan, their respective direct and indirect parent entities, and the equity of Ryman Hotel Operations Holdco, LLC, a wholly-owned indirect subsidiary of the Company. Assets of Gaylord Rockies and OEG are not subject to the liens of the Credit Agreement.

Each of the Revolver and Term Loan B contains certain covenants which, among other things, limit the incurrence of additional indebtedness, investments, dividends, transactions with affiliates, asset sales, acquisitions, mergers and consolidations, liens and encumbrances and other matters customarily restricted in such agreements.

If an event of default shall occur and be continuing under the Credit Agreement, the commitments under the Credit Agreement may be terminated and the principal amount outstanding under the Credit Agreement, together with all accrued unpaid interest and other amounts owing in respect thereof, may be declared immediately due and payable.

\$700 Million Revolving Credit Facility

The maturity of the Revolver is May 18, 2027, with the option to extend the maturity date for a maximum of one additional year through either (i) a single twelve-month extension option or (ii) two individual six-month extensions. Borrowings under the Revolver bear interest at an annual rate equal to, at the Company’s option, either (i) Adjusted Term SOFR plus the applicable margin ranging from 1.40% to 2.00%, (ii) Adjusted Daily Simple SOFR plus the applicable margin ranging from 1.40% to 2.00%, or (iii) a base rate as set in the Credit Agreement plus the applicable margin ranging from 0.40% to 1.00%, with each option dependent upon the Company’s funded debt to total asset value ratio (as defined in the Credit Agreement). Principal is payable in full at maturity.

\$500 Million Term Loan B

The Term Loan B has a maturity of May 18, 2030. The applicable interest rate margins for borrowings under the Term Loan B are, at the Company’s option, either (i) Term SOFR plus 2.75%, (ii) Daily Simple SOFR plus 2.75%, or (iii) a base rate as set in the Credit Agreement plus 1.75%. At December 31, 2023, the interest rate on the Term Loan B was Term SOFR plus 2.75%. The Term Loan B amortizes in equal quarterly installments in aggregate annual amounts equal to 1.0% of the original principal amount of \$500.0 million, with the balance due at maturity. In addition, if for any fiscal year there is Excess Cash Flow (as defined in the Credit Agreement), an additional principal amount is required. Amounts borrowed under the Term Loan B that are repaid or prepaid may not be reborrowed.

For purposes of the Term Loan B, each of Term SOFR and Daily Simple SOFR are subject to a floor of 0.00%.

\$400 Million 7.25% Senior Notes Due 2028

On June 22, 2023, the Operating Partnership and Finco (collectively, the “issuing subsidiaries”) completed the private placement of \$400.0 million in aggregate principal amount of 7.25% senior notes due 2028 (the “\$400 Million 7.25% Senior Notes”), which are guaranteed by the Company and its subsidiaries that guarantee the Company’s credit agreement.

The \$400 Million 7.25% Senior Notes and guarantees were issued pursuant to an indenture by and among the issuing subsidiaries, the guarantors and U.S. Bank Trust Company, National Association, as trustee. The \$400 Million 7.25% Senior Notes have a maturity date of July 15, 2028 and bear interest at 7.25% per annum, payable semi-annually in cash in arrears on January 15 and July 15 each year, beginning on January 15, 2024. The \$400 Million 7.25% Senior Notes are general unsecured and unsubordinated obligations of the issuing subsidiaries and rank equal in right of payment with such subsidiaries' existing and future senior unsecured indebtedness, including the Company's \$600 million 4.50% senior notes due 2029 and \$700 million 4.75% senior notes due 2027, and senior in right of payment to future subordinated indebtedness, if any.

The \$400 Million 7.25% Senior Notes are effectively subordinated to the issuing subsidiaries' secured indebtedness to the extent of the value of the assets securing such indebtedness. The guarantees rank equally in right of payment with the applicable guarantor's existing and future senior unsecured indebtedness and senior in right of payment to any future subordinated indebtedness of such guarantor. The \$400 Million 7.25% Senior Notes are effectively subordinated to any secured indebtedness of any guarantor to the extent of the value of the assets securing such indebtedness and structurally subordinated to all indebtedness and other obligations of the Operating Partnership's subsidiaries that do not guarantee the \$400 Million 7.25% Senior Notes.

The net proceeds from the issuance of the \$400 Million 7.25% Senior Notes totaled approximately \$393 million, after deducting the initial purchasers' discounts, commissions and offering expenses. The Company used these proceeds to pay a portion of the purchase price for JW Marriott Hill Country discussed in Note 1.

The \$400 Million 7.25% Senior Notes are redeemable before July 15, 2025, in whole or in part, at 100.00%, plus accrued and unpaid interest thereon to, but not including, the redemption date, plus a make-whole premium. The \$400 Million 7.25% Senior Notes will be redeemable, in whole or in part, at any time on or after July 15, 2025 at a redemption price expressed as a percentage of the principal amount thereof, which percentage is 103.625%, 101.813%, and 100.000% beginning on July 15 of 2025, 2026, and 2027, respectively, plus accrued and unpaid interest thereon to, but not including, the redemption date.

\$600 Million 4.50% Senior Notes Due 2029

On February 17, 2021, the Operating Partnership and Finco completed the private placement of \$600.0 million in aggregate principal amount of 4.50% senior notes due 2029 (the "\$600 Million 4.50% Senior Notes"), which are guaranteed by the Company and its subsidiaries that guarantee the Company's credit agreement.

The \$600 Million 4.50% Senior Notes and guarantees were issued pursuant to an indenture by and among the issuing subsidiaries, the guarantors and U.S. Bank National Association, as trustee. The \$600 Million 4.50% Senior Notes have a maturity date of February 15, 2029 and bear interest at 4.50% per annum, payable semi-annually in cash in arrears on February 15 and August 15 each year. The \$600 Million 4.50% Senior Notes are general unsecured and unsubordinated obligations of the issuing subsidiaries and rank equal in right of payment with such subsidiaries' existing and future senior unsecured indebtedness, including the Company's \$700 million 4.75% senior notes due 2027, and senior in right of payment to future subordinated indebtedness, if any.

The \$600 Million 4.50% Senior Notes are effectively subordinated to the issuing subsidiaries' secured indebtedness to the extent of the value of the assets securing such indebtedness. The guarantees rank equally in right of payment with the applicable guarantor's existing and future senior unsecured indebtedness and senior in right of payment to any future subordinated indebtedness of such guarantor. The \$600 Million 4.50% Senior Notes are effectively subordinated to any secured indebtedness of any guarantor to the extent of the value of the assets securing such indebtedness and structurally subordinated to all indebtedness and other obligations of the Operating Partnership's subsidiaries that do not guarantee the \$600 Million 4.50% Senior Notes.

The net proceeds from the issuance of the \$600 Million 4.50% Senior Notes totaled approximately \$591 million, after deducting the initial purchasers' discounts, commissions and offering expenses. The Company used a significant portion of these proceeds to tender and redeem its previous \$400 million 5% senior notes and to repay all of the amounts outstanding under the Revolver at that time. The Company used the remaining net proceeds for general corporate purposes.

The \$600 Million 4.50% Senior Notes will be redeemable, in whole or in part, at any time on or after February 15, 2024 at a redemption price expressed as a percentage of the principal amount thereof, which percentage is 102.250%, 101.500%, 100.750%, and 100.000% beginning on February 15 of 2024, 2025, 2026, and 2027, respectively, plus accrued and unpaid interest thereon to, but not including, the redemption date.

\$700 Million 4.75% Senior Notes Due 2027

In September 2019, the Operating Partnership and Finco completed the private placement of \$500.0 million in aggregate principal amount of senior notes due 2027 (the “\$500 Million 4.75% Senior Notes”), which are guaranteed by the Company and its subsidiaries that guarantee the Credit Agreement. The \$500 Million 4.75% Senior Notes and guarantees were issued pursuant to an indenture by and among the issuing subsidiaries and the guarantors and U.S. Bank National Association as trustee. The \$500 Million 4.75% Senior Notes have a maturity date of October 15, 2027 and bear interest at 4.75% per annum, payable semi-annually in cash in arrears on April 15 and October 15 of each year. The \$500 Million 4.75% Senior Notes are general unsecured and unsubordinated obligations of the issuing subsidiaries and rank equal in right of payment with such subsidiaries’ existing and future senior unsecured indebtedness and senior in right of payment to future subordinated indebtedness, if any. The \$500 Million 4.75% Senior Notes are effectively subordinated to the issuing subsidiaries’ secured indebtedness to the extent of the value of the assets securing such indebtedness. The guarantees rank equally in right of payment with the applicable guarantor’s existing and future senior unsecured indebtedness and senior in right of payment to any future subordinated indebtedness of such guarantor. The \$500 Million 4.75% Senior Notes are effectively subordinated to any secured indebtedness of any guarantor to the extent of the value of the assets securing such indebtedness and structurally subordinated to all indebtedness and other obligations of the Operating Partnership’s subsidiaries that do not guarantee the \$500 Million 4.75% Senior Notes.

The net proceeds from the issuance of the \$500 Million 4.75% Senior Notes totaled approximately \$493 million, after deducting the initial purchasers’ discounts, commissions and offering expenses. The Company used substantially all of these proceeds to tender and redeem its previous \$350 million 5% senior notes and to repay a portion of the amounts then outstanding under the Revolver.

In October 2019, the Operating Partnership and Finco completed a tack-on private placement of \$200.0 million in aggregate principal amount of 4.75% senior notes due 2027 (the “additional 2027 notes”) at an issue price of 101.250% of their aggregate principal amount plus accrued interest from the September 2019 issue date for the \$500 Million 4.75% Senior Notes. The additional 2027 notes and the \$500 Million 4.75% Senior Notes constitute a single class of securities (collectively, the “\$700 Million 4.75% Senior Notes”). All other terms and conditions of the additional 2027 notes are identical to the \$500 Million 4.75% Senior Notes.

The net proceeds of the additional 2027 notes totaled approximately \$199 million, after deducting the initial purchasers’ discounts, commissions and offering expenses. The Company used substantially all of these proceeds to repay a portion of the amounts then outstanding under the Revolver.

The \$700 Million 4.75% Senior Notes are redeemable, in whole or in part, at a redemption price expressed as a percentage of the principal amount thereof, which percentage is 102.375%, 101.188%, and 100.00% beginning on October 15 of 2023, 2024, and 2025, respectively, plus accrued and unpaid interest thereon to, but not including, the redemption date.

The Company completed a registered offer to exchange the \$700 Million 4.75% Senior Notes for registered notes with substantially identical terms as the \$700 Million 4.75% Senior Notes in July 2020.

\$800 Million Gaylord Rockies Term Loan

In July 2019, Aurora Convention Center Hotel, LLC and Aurora Convention Center Hotel Lessee, LLC, the entities that comprise Gaylord Rockies, entered into a Second Amended and Restated Loan Agreement (the “Gaylord Rockies Loan”) with Wells Fargo Bank, National Association, as administrative agent, which refinanced Gaylord Rockies’ previous \$500 million construction loan and \$39 million mezzanine loan, which were scheduled to mature in December 2019. The Gaylord Rockies Loan consists of an \$800.0 million secured term loan facility, matures July 2, 2024 with two, one-year extension options, subject to certain requirements in the Gaylord Rockies Loan, and bears interest at Adjusted Daily Simple SOFR plus 2.50%. The Company has entered into an interest rate swap to fix the SOFR portion of the interest rate at 5.2105% for the fifth year of the loan. The Company has designated this interest rate swap as an effective cash flow hedge.

The Gaylord Rockies Loan is secured by a deed of trust lien on the Gaylord Rockies real estate and related assets. Generally, the Gaylord Rockies Loan is non-recourse to the Company, subject to customary non-recourse carve-outs.

In June 2020, the Loan Parties entered into Amendment No. 1 (the “Loan Amendment”) to the Gaylord Rockies Loan, by and among the Loan Parties, Wells Fargo Bank, National Association, as administrative agent, and the

lenders from time to time party thereto. The Loan Amendment modified the Gaylord Rockies Loan to (i) provide for the ability to use cash for certain purposes, even during a Cash Sweep Period (as defined in the Loan Agreement) and (ii) provide favorable changes to the debt service coverage ratio provisions. The Loan Amendment includes restrictions on distributions to the Company's subsidiaries that own Gaylord Rockies.

Further, on May 2, 2023, the Loan Parties entered into a Benchmark Replacement Modification Agreement to the Gaylord Rockies Loan, which replaced LIBOR with Adjusted Daily Simple SOFR.

OEG Credit Agreement

In June 2022, OEG Borrower, LLC ("OEG Borrower") and OEG Finance, LLC ("OEG Finance"), each a wholly-owned direct or indirect subsidiary of OEG, entered into a credit agreement (the "OEG Credit Agreement") among OEG Borrower, as borrower, OEG Finance, certain subsidiaries of OEG Borrower from time to time party thereto as guarantors, the lenders party thereto and JPMorgan Chase Bank, N.A., as administrative agent. The OEG Credit Agreement provides for (i) a senior secured term loan facility in the aggregate principal amount of \$300.0 million (the "OEG Term Loan") and (ii) a senior secured revolving credit facility in an aggregate principal amount not to exceed \$65.0 million (the "OEG Revolver"). The OEG Term Loan matures on June 16, 2029, and the OEG Revolver matures on June 16, 2027. The OEG Term Loan bears interest at a rate equal to either, at OEG Borrower's election, (i) the Alternate Base Rate plus 4.00% or (ii) Adjusted Term SOFR plus 5.00% (all as specifically more described in the OEG Credit Agreement). In November 2022, OEG entered into an interest rate swap to fix the SOFR portion of the interest rate on \$100.0 million of borrowings at 4.533% through December 2025. The OEG Revolver bears interest at a rate equal to either, at OEG Borrower's election, (i) the Alternate Base Rate plus 3.75% or (ii) Adjusted Term SOFR plus 4.25%, which shall be subject to reduction in the applicable margin based upon OEG's First Lien Leverage Ratio (all as more specifically described in the OEG Credit Agreement). The OEG Term Loan and OEG Revolver are each secured by substantially all of the assets of OEG Finance and each of its subsidiaries (but not Block 21 and Circle, as more specifically described in the OEG Credit Agreement). No revolving credit advance was made under the OEG Revolver at closing.

Block 21 CMBS Loan

At the closing of the purchase of Block 21 on May 31, 2022, a subsidiary of the Company assumed a \$136 million, ten-year, non-recourse term loan secured by a mortgage on Block 21 (the "Block 21 CMBS Loan"). The Block 21 CMBS Loan has a fixed interest rate of 5.58% per annum, payable monthly, matures January 5, 2026, and payments are due monthly based on a 30-year amortization.

The Block 21 CMBS Loan contains customary financial covenants and other restrictions, including sponsor net worth and liquidity requirements, and debt service coverage ratio targets that Block 21 must meet in order to avoid a "Trigger Period," the occurrence of which does not constitute a default. Block 21 was in a Trigger Period as of the date of its purchase by the Company but exited the Trigger Period with first quarter 2023 results. During the Trigger Period, any cash generated by Block 21 in excess of amounts necessary to fund loan obligations, budgeted operating expenses and specified reserves will not be distributed to Block 21.

In connection with the purchase of Block 21, the Company provided (i) limited guarantees to the Block 21 lenders under the Block 21 CMBS Loan via a guaranty agreement, a guaranty of completion agreement and an environmental indemnity, and (ii) a letter of credit drawable by the Block 21 lenders in the event of a default of the Block 21 CMBS Loan.

Interest Rate Derivatives

The Company has entered into or previously entered into interest rate swaps to manage interest rate risk associated with the Company's previous term loan B, the Gaylord Rockies Loan and the OEG Term Loan. Each swap has been designated as a cash flow hedge whereby the Company receives variable-rate amounts in exchange for fixed-rate payments over the life of the agreement without exchange of the underlying principal amount.

The estimated fair values of the Company's derivative financial instruments at December 31 are as follows (in thousands):

<u>Hedged Debt</u>	<u>Type</u>	<u>Strike Rate</u>	<u>Index</u>	<u>Maturity Date</u>	<u>Notional Amount</u>	<u>Estimated Fair Value Asset (Liability) Balance</u>	
						<u>December 31, 2023</u>	<u>December 31, 2022</u>
Term Loan B.	Interest Rate Swap	1.2235%	1-month LIBOR	May 11, 2023	\$ 87,500	\$ —	\$ 1,096
Term Loan B.	Interest Rate Swap	1.2235%	1-month LIBOR	May 11, 2023	87,500	—	1,096
Term Loan B.	Interest Rate Swap	1.2235%	1-month LIBOR	May 11, 2023	87,500	—	1,096
Term Loan B.	Interest Rate Swap	1.2315%	1-month LIBOR	May 11, 2023	87,500	—	1,093
Gaylord Rockies Term Loan.	Interest Rate Swap	3.3410%	1-month LIBOR	August 1, 2023	800,000	—	6,969
Gaylord Rockies Term Loan.	Interest Rate Swap	5.2105%	Daily SOFR	July 2, 2024	800,000	(474)	—
OEG Term Loan . . .	Interest Rate Swap	4.5330%	3-month SOFR	December 18, 2025	100,000	(848)	(1,164)
						<u>\$(1,322)</u>	<u>\$10,186</u>

Derivative financial instruments in an asset position are included in prepaid expenses and other assets and those in a liability position are included in other liabilities in the accompanying consolidated balance sheets.

The effect of the Company's derivative financial instruments on the accompanying consolidated statements of operations and comprehensive income (loss) for the years ended December 31 is as follows (in thousands):

	<u>Amount of Gain (Loss) Recognized in OCI on Derivatives</u>		<u>Location of Gain (Loss) Reclassified from Accumulated OCI into Income (Expense)</u>	<u>Amount of Gain (Loss) Reclassified from Accumulated OCI into Income (Expense)</u>	
	<u>2023</u>	<u>2022</u>		<u>2023</u>	<u>2022</u>
	Derivatives in Cash Flow Hedging Relationships:				
Interest rate swaps.	<u>\$670</u>	<u>\$16,007</u>	Interest expense	<u>\$12,177</u>	<u>\$(3,541)</u>
Total derivatives	<u>\$670</u>	<u>\$16,007</u>		<u>\$12,177</u>	<u>\$(3,541)</u>

Reclassifications from accumulated other comprehensive loss for interest rate swaps are shown in the table above and included in interest expense. Total consolidated interest expense for 2023, 2022 and 2021 was \$211.4 million, \$148.4 million and \$125.3 million, respectively.

At December 31, 2023, the fair value of derivatives in a net liability position including accrued interest but excluding any adjustment for nonperformance risk related to these agreements was \$1.2 million. As of December 31, 2023, the Company has not posted any collateral related to these agreements and was not in breach of any agreement provisions. If the Company had breached any of these provisions, it could have been required to settle its obligations under the agreements at the aggregate termination value of \$1.2 million. In addition, the Company has an agreement with its derivative counterparty that contains a provision whereby the Company could be declared in default on its derivative obligations if repayment of the underlying indebtedness is accelerated by the lender due to the Company's default on the indebtedness.

5. Deferred Management Rights Proceeds

On October 1, 2012, the Company consummated its agreement to sell the Gaylord Hotels brand and rights to manage the Gaylord Hotels properties (the "Management Rights") to Marriott for \$210.0 million in cash. Effective October 1, 2012, Marriott assumed responsibility for managing the day-to-day operations of the Gaylord Hotels properties pursuant to a management agreement for each such property. The Company allocated \$190.0 million of the purchase price to the Management Rights, based on the Company's estimates of the fair values for the respective components. For financial reporting purposes, the amount related to the Management Rights was deferred and is amortized on a straight-line basis over the 65-year term of the hotel management agreements, including extensions, as a reduction in management fee expense.

6. Leases

The Company is a lessee of a 65.3 acre site in Osceola County, Florida on which Gaylord Palms is located; building or land leases for Ole Red Gatlinburg, Ole Red Orlando, Ole Red Tishomingo, Ole Red Nashville

International Airport and Ole Red Las Vegas; and various warehouse, general office and other equipment leases. The Gaylord Palms land lease has a term through 2074, which may be extended through January 2101, at the Company's discretion. The leases for Ole Red locations range from five to ten years, with renewal options ranging from five to fifty-five years, at the Company's discretion, with the exception of Ole Red Nashville International Airport, which has no extension option. Extension options are not considered reasonably assured and thus are not included in the Company's calculation of its right-of-use assets and liabilities. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

The terms of the Gaylord Palms lease include variable lease payments based upon net revenues at Gaylord Palms and certain other of the Company's leases include rental payments adjusted periodically for inflation. The Company recorded \$3.5 million, \$3.0 million and \$1.8 million of contingent rental expense related to Gaylord Palms in 2023, 2022 and 2021, respectively.

As the discount rate implicit in the Company's operating leases is not readily determinable, the Company applies judgments related to the determination of the discount rates used to calculate the lease liability as required by Accounting Standards Codification Topic 842, "Leases". The Company calculates its incremental borrowing rates by utilizing judgments and estimates regarding the Company's secured borrowing rates, market credit rating, comparable bond yield curve, and adjustments to market yield curves to determine a securitized rate.

The Company's lease cost for the years ended December 31 is as follows (in thousands):

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Operating lease cost	\$18,346	\$15,694	\$13,199
Finance lease cost:			
Amortization of right-of-use assets	163	122	146
Interest on lease liabilities	25	33	39
Net lease cost	<u>\$18,534</u>	<u>\$15,849</u>	<u>\$13,384</u>

Future minimum lease payments under non-cancelable leases at December 31, 2023 are as follows (in thousands):

	<u>Operating Leases</u>	<u>Finance Leases</u>
Year 1	\$ 9,809	\$ 84
Year 2	9,224	40
Year 3	9,315	18
Year 4	9,218	—
Year 5	9,063	—
Years thereafter	<u>556,191</u>	<u>—</u>
Total future minimum lease payments	602,820	142
Less amount representing interest	<u>(473,698)</u>	<u>(4)</u>
Total present value of minimum payments	<u>\$ 129,122</u>	<u>\$138</u>

The remaining lease term and discount rate for the Company's leases are as follows:

Weighted-average remaining lease term:	
Operating leases	43.1 years
Finance leases	2.0 years
Weighted-average discount rate:	
Operating leases	7.0%
Finance leases	2.4%

7. Stock Plans

The Company's 2016 Omnibus Incentive Plan (the "Plan") permits the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, performance awards and other share-based awards to its directors, employees and consultants. At December 31, 2023, approximately 0.5 million shares of common stock remained available for issuance pursuant to future grants of awards under the Plan.

Restricted stock units granted to employees vest one to four years from the date of grant, subject to any applicable performance targets, and restricted stock units granted to non-employee directors vest one year from the date of grant, unless the recipient chooses to defer the vesting for a period of time. Depending on the type of award, the fair value of restricted stock units is determined either based on the market price of the Company's stock at the date of grant or based on a Monte-Carlo valuation. Forfeitures are estimated based on historical experience. The Company generally records compensation expense equal to the fair value of each restricted stock unit granted over the vesting period. The weighted-average grant-date fair value of restricted stock units granted during 2023, 2022, and 2021 was \$85.25, \$82.66, and \$73.96, respectively.

A summary of the status of the Company's restricted stock units as of December 31, 2023 and changes during the year ended December 31, 2023, is presented below:

<u>Restricted Stock Units</u>	<u>Shares</u>	<u>Weighted Average Grant-Date Fair Value</u>
Nonvested shares at January 1, 2023	585,011	\$77.33
Granted.	207,159	85.25
Vested.	(166,282)	89.71
Canceled.	<u>(24,033)</u>	82.05
Nonvested shares at December 31, 2023	<u>601,855</u>	77.59

The fair value of all restricted stock units that vested during 2023, 2022 and 2021 was \$14.9 million, \$12.9 million and \$10.6 million, respectively.

At December 31, 2023, there was \$21.9 million of total unrecognized compensation cost related to restricted stock units granted under the Company's equity incentive plans. That cost is expected to be recognized over a weighted-average period of 2.3 years.

The compensation cost that has been charged against pre-tax income for all of the Company's stock-based compensation plans was \$15.4 million, \$15.0 million, and \$12.1 million for 2023, 2022, and 2021, respectively. The total income tax benefit recognized in the accompanying consolidated statements of operations for all of the Company's stock-based employee compensation plans was \$3.5 million, \$3.5 million, and \$2.9 million for 2023, 2022, and 2021, respectively.

The actual tax benefit realized from exercise, vesting or cancellation of the stock-based employee compensation arrangements during 2023, 2022, and 2021 totaled \$0, \$0.5 million, and \$0.4 million, respectively, and is reflected as an adjustment to (provision) benefit for income taxes in the accompanying consolidated statements of operations.

8. Pension Plans

Prior to January 1, 2001, the Company maintained a noncontributory defined benefit pension plan in which substantially all of its employees were eligible to participate upon meeting the pension plan's participation requirements. The benefits were based on years of service and compensation levels. On December 31, 2000, benefits credited under the plan's previous formula were frozen. On January 1, 2001, the Company amended its defined benefit pension plan to determine future benefits using a cash balance formula. Under the cash formula, each participant had an account which was credited monthly with 3% of qualified earnings and the interest earned on their previous month-end cash balance. In addition, the Company included a "grandfather" clause which assures that those participating at January 1, 2001 will receive the greater of the benefit calculated under the cash balance plan and the benefit that would have been payable if the defined benefit plan had remained in existence. The benefit payable to a terminated vested participant upon retirement at age 65, or as early as age 55 if the participant had 15 years of service at the time the plan was frozen, is equal to the participant's account

balance, which increases with interest credits over time. At retirement, the employee generally receives the balance in the account as a lump sum. The funding policy of the Company is to contribute annually an amount which equals or exceeds the minimum required by applicable law. On December 31, 2001, the plan was frozen such that no new participants were allowed to enter the plan and existing participants were no longer eligible to earn service credits.

As a result of increased lump-sum distributions from the retirement plan during 2023, 2022 and 2021, net settlement losses of \$1.3 million, \$1.9 million and \$1.4 million were recognized in 2023, 2022 and 2021, respectively. These settlement losses have been classified as other gains and (losses), net in the accompanying consolidated statements of operations.

The following table sets forth the funded status of the retirement plan at December 31 (amounts in thousands):

	<u>2023</u>	<u>2022</u>
CHANGE IN BENEFIT OBLIGATION:		
Benefit obligation at beginning of year	\$60,922	\$ 76,680
Interest cost	2,794	2,253
Actuarial gain	(188)	(11,086)
Benefits paid	(5,750)	(6,925)
Benefit obligation at end of year	<u>57,778</u>	<u>60,922</u>
CHANGE IN PLAN ASSETS:		
Fair value of plan assets at beginning of year	52,269	72,486
Actual return on plan assets	6,123	(13,292)
Benefits paid	(5,750)	(6,925)
Fair value of plan assets at end of year	<u>52,642</u>	<u>52,269</u>
Funded status and accrued pension cost	<u>\$ (5,136)</u>	<u>\$ (8,653)</u>

Net periodic pension (income) expense reflected in other gains and (losses), net in the accompanying consolidated statements of operations included the following components for the years ended December 31 (amounts in thousands):

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Interest cost	\$ 2,794	\$ 2,253	\$ 1,715
Expected return on plan assets	(2,904)	(3,701)	(4,253)
Amortization of net actuarial loss	681	667	689
Net settlement loss	<u>1,313</u>	<u>1,894</u>	<u>1,379</u>
Total net periodic pension expense	<u>\$ 1,884</u>	<u>\$ 1,113</u>	<u>\$ (470)</u>

Assumptions

The assumptions used to determine the benefit obligation at December 31 are as follows:

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Discount rate	4.66%	4.85%	2.42%
Rate of compensation increase	N/A	N/A	N/A

The weighted-average assumptions used to determine the net periodic pension expense for years ended December 31 are as follows:

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Discount rate	5.02%	3.33%	2.13%
Rate of compensation increase	N/A	N/A	N/A
Expected long-term rate of return on plan assets	6.00%	6.00%	6.00%

The rate of increase in future compensation levels was not applicable for any reported years due to the Company amending the plan to freeze the cash balance benefit as described above.

The Company determines the overall expected long-term rate of return on plan assets based on its estimate of the return that plan assets will provide over the period that benefits are expected to be paid out. In preparing this estimate, the Company assesses the rates of return on each current allocation of plan assets, and advice from its third-party actuary and investment consultants. The expected return on plan assets is a long-term assumption and generally does not significantly change annually. While historical returns are considered, the rate of return assumption is primarily based on projections of expected returns based on fair value, using economic data and financial models to estimate the probability of returns. The probability distribution of annualized returns for the portfolio using current asset allocations is used to determine the expected range of returns for a ten-to-twenty-year horizon. While management believes that the assumptions used are appropriate, differences in actual experience or changes in assumptions may affect the Company's pension obligations and expense.

Plan Assets

The plan's overall strategy is to achieve a rate of return necessary to fund benefit payments by utilizing a variety of asset types, investment strategies and investment managers. The plan seeks to achieve a long-term rate of return over inflation resulting from income, capital gains, or both, which assists the plan in meeting its long-term objectives.

The long-term target allocations for the plan's assets are managed dynamically according to a sliding scale correlating with the funded status of the plan. As the plan's funded status increases, allocations are moved away from equity securities toward fixed income securities. Equity securities primarily include large cap and mid cap companies. Fixed income securities primarily include corporate bonds of companies in diversified industries, mortgage-backed securities and U.S. Treasuries. Investments in hedge funds and private equity funds are not held by the plan.

The allocation of the defined benefit pension plan's assets at December 31 is as follows (amounts in thousands):

Asset Class	2023	2022
Cash	\$ 1,013	\$ 1,015
Mutual funds	<u>51,629</u>	<u>51,254</u>
Total	<u>\$52,642</u>	<u>\$52,269</u>

All of the assets held by the plan consist of money market and mutual funds traded in an active market. The Company determined the fair value of these assets based on the net asset value per unit of the funds or the portfolio, which is based upon quoted market prices in an active market. Therefore, the Company has categorized these investments as Level 1.

Periodically, and based on market conditions, the entire account is rebalanced to maintain the desired allocation and the investment policy is reviewed. Within each asset class, plan assets are allocated to various investment styles. Professional managers manage all assets of the plan, and professional advisors assist the plan in the attainment of its objectives.

Expected Contributions and Benefit Payments

The Company does not expect to be required to contribute to its defined benefit pension plan in 2024. Based on the Company's assumptions discussed above, the Company expects to make the following estimated future benefit payments under the plan during the years ending December 31 (amounts in thousands):

2024	\$ 7,924
2025	6,218
2026	4,979
2027	5,607
2028	5,692
2029 - 2033	20,841

Other Information

The Company also maintains non-qualified pension plans (the "Non-Qualified Plans") to provide benefits to certain key employees. The Non-Qualified Plans are not funded, and the beneficiaries' rights to receive

distributions under these plans constitute unsecured claims to be paid from the Company's general assets. At December 31, 2023, the Non-Qualified Plans' projected benefit obligations and accumulated benefit obligations were \$11.1 million.

The Company's obligation related to its qualified and non-qualified pension plans of \$16.2 million and \$19.8 million at December 31, 2023 and 2022, respectively, is included in other liabilities in the accompanying consolidated balance sheets. The change in the deferred net loss related to the Company's retirement plans during 2023, 2022 and 2021 resulted in an increase (decrease) in equity of \$5.3 million, \$(0.6) million and \$9.9 million, respectively. Each of these adjustments to equity due to the change in the minimum liability is included in other comprehensive loss in the accompanying consolidated statements of equity (deficit) and noncontrolling interest.

The combined net loss, amortization of net loss, and new prior service credit and amortization of prior service credit recognized in other comprehensive income (loss) for the years ended December 31, 2023, 2022 and 2021 was \$5.3 million, \$(0.6) million and \$9.9 million, respectively, net of taxes of \$1.6 million, \$0 and \$0, respectively. Included in accumulated other comprehensive loss at December 31, 2023 and 2022 are unrecognized actuarial losses of \$21.5 million and \$26.7 million (\$16.3 million and \$20.0 million net of tax), respectively, that have not yet been recognized in net periodic pension expense. Net losses are amortized into net periodic pension expense based on the life expectancy of plan participants expected to receive benefits, using a corridor approach based on the greater of projected benefit obligation or fair value of plan assets.

9. Equity

Equity Offering

In June 2023, the Company completed an underwritten public offering of approximately 4.4 million shares of its common stock, par value \$0.01 per share, at a price to the public of \$93.25 per share. Net proceeds to the Company, after deducting underwriting discounts and commissions and other expenses paid by the Company, were approximately \$395 million. The Company used the proceeds to pay a portion of the purchase price for JW Marriott Hill Country discussed in Note 1.

Dividends

During 2023, the Company's board of directors declared quarterly dividends and distributions totaling \$3.85 per share of common stock/OP Unit for the full year, or an aggregate of \$228.1 million in cash.

During 2022, the Company's board of directors declared total 2022 dividends and distributions in the amount of \$0.35 per share of common stock/OP Unit, or an aggregate of \$19.4 million in cash.

To maintain its qualification as a REIT for federal income tax purposes, the Company must distribute at least 90% of its REIT taxable income each year. The Company's dividend policy provides that the Company will make minimum dividends of 100% of REIT taxable income annually, subject to the Company's board of directors' future determinations as to the amount of any distributions and the timing thereof. The dividend policy may be altered at any time by the Company's board of directors.

Treasury Stock

On December 18, 2008, following approval by the Human Resources Committee and the Board of Directors, the Company and the Company's Chairman of the Board of Directors and then-Chief Executive Officer ("Executive") entered into an amendment to Executive's employment agreement. The amendment provided Executive with the option of making an irrevocable election to invest his existing Supplemental Employee Retirement Plan ("SERP") benefit in Company common stock, which election Executive subsequently made. The investment was made by a rabbi trust in which, during January 2009, the independent trustee of the rabbi trust purchased shares of Company common stock in the open market in compliance with applicable law. Executive is only entitled to a distribution of the Company common stock held by the rabbi trust in satisfaction of his SERP benefit. As such, the Company believes that the ownership of shares of common stock by the rabbi trust and the distribution of those shares to Executive in satisfaction of his SERP benefit meets the requirements necessary so that the Company will not recognize any increase or decrease in expense as a result of subsequent changes in the value of the Company common stock, and the purchased shares are treated as treasury stock and the SERP benefit is included in additional paid-in capital in the Company's accompanying consolidated financial statements. The increase in treasury stock for a particular year represents dividends received on shares of Company common stock held by the rabbi trust.

Accumulated Other Comprehensive Loss

Changes in accumulated other comprehensive loss by component consisted of the following (amounts in thousands):

	<u>Minimum Pension Liability</u>	<u>Other-Than- Temporary Impairment of Investment</u>	<u>Interest Rate Derivatives</u>	<u>Total</u>
Balance, December 31, 2020	\$(26,623)	\$(3,509)	\$(27,819)	\$(57,951)
Gains arising during period	10,314	—	1,955	12,269
Amounts reclassified from accumulated other comprehensive loss	<u>(110)</u>	<u>211</u>	<u>16,501</u>	<u>16,602</u>

10. Income Taxes

The Company has elected to be taxed as a REIT effective January 1, 2013, pursuant to the U.S. Internal Revenue Code of 1986, as amended. As a REIT, the Company generally will not be subject to federal corporate income taxes on ordinary taxable income and capital gains income from real estate investments that it distributes to its stockholders. The Company pays federal and state corporate income taxes on earnings of its taxable REIT subsidiaries (“TRSs”).

The income tax (provision) benefit for continuing operations consists of the following (amounts in thousands):

	<u>2023</u>	<u>2022</u>	<u>2021</u>
CURRENT:			
Federal	\$ 797	\$(21,936)	\$ 126
State	<u>(2,920)</u>	<u>(8,595)</u>	<u>(1,077)</u>
Total current provision	<u>(2,123)</u>	<u>(30,531)</u>	<u>(951)</u>
DEFERRED:			
Federal	79,710	(9,115)	(3,646)
State	<u>16,115</u>	<u>871</u>	<u>(360)</u>
Total deferred (provision) benefit	<u>95,825</u>	<u>(8,244)</u>	<u>(4,006)</u>
Total (provision) benefit for income taxes	<u>\$93,702</u>	<u>\$(38,775)</u>	<u>\$(4,957)</u>

The Company evaluates its deferred tax assets each reporting period to determine if it is more likely than not that those assets will be realized or if a valuation allowance is needed. In the fourth quarter of 2023, due to continued improvement in the Company’s financial results coming out of the COVID-19 pandemic and the projected future taxable income of its TRSs, the Company determined that the release of a significant portion of its federal and state valuation allowance was appropriate. This release of valuation allowance of \$112.5 million was the primary factor in the income tax benefit for 2023.

The Company is required to distribute at least 90% of its annual taxable income, excluding net capital gains, to its stockholders in order to maintain its qualification as a REIT. The taxability of distributions to stockholders is determined by the Company's earnings and profits, which differs from net income (loss) reported for financial reporting purposes.

The Company made no cash distributions in 2021. The estimated taxability of cash distributions to common stockholders is shown in the table below (per common share) (unaudited).

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Ordinary income	\$3.75	\$0.28	\$—
Capital gains.	0.10	0.07	—
Return of capital	<u>—</u>	<u>—</u>	<u>—</u>
	<u>\$3.85</u>	<u>\$0.35</u>	<u>\$—</u>

The differences between the income tax (provision) benefit calculated at the statutory U.S. federal income tax rate of 21% and the actual income tax (provision) benefit recorded for continuing operations are as follows (amounts in thousands):

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Statutory federal income tax (provision) benefit	\$(52,101)	\$(36,482)	\$ 39,868

Permanent share-based compensation adjustment.	34	440	329
Other permanent items.	(531)	(365)	(281)
Change in federal valuation allowance	87,330	1,914	(25,698)
Change in state valuation allowance (net of federal taxes)	25,128	5,873	(9,264)
Other.	808	(123)	(279)
	<u>\$ 93,702</u>	<u>\$(38,775)</u>	<u>\$ (4,957)</u>

Significant components of the Company's deferred tax assets and liabilities at December 31 are as follows (amounts in thousands):

	<u>2023</u>	<u>2022</u>
DEFERRED TAX ASSETS:		
Accounting reserves and accruals	\$ 22,371	\$ 23,095
Pension plans	4,249	5,413
Deferred management rights proceeds	40,280	42,875
Federal and State net operating loss carryforwards	102,032	97,832
Tax credits and other carryforwards	8,881	5,182
Other assets	<u>6,205</u>	<u>5,124</u>
Total deferred tax assets	184,018	179,521
Valuation allowance	<u>(5,557)</u>	<u>(118,015)</u>
Total deferred tax assets, net of valuation allowance.	<u>178,461</u>	<u>61,506</u>
DEFERRED TAX LIABILITIES:		
Property and equipment, net	91,314	67,744
Other liabilities.	<u>5,523</u>	<u>6,677</u>
Total deferred tax liabilities.	<u>96,837</u>	<u>74,421</u>
Net deferred tax assets (liabilities)	<u>\$ 81,624</u>	<u>\$ (12,915)</u>

TRS federal net operating loss carryforwards at December 31, 2023 totaled \$399.7 million, resulting in a deferred tax asset of \$83.9 million, and do not expire. All available federal operating loss carryforwards at the REIT were used to reduce taxable REIT income subject to distribution in 2022. The REIT has no federal net

operating losses as of December 31, 2023. The use of certain federal net operating losses, credits and other deferred tax assets is limited to the Company's future taxable earnings. As a result, a valuation allowance has been provided for certain federal deferred tax assets. The valuation allowance related to federal deferred tax assets increased (decreased) \$(87.3) million, \$(1.6) million and \$23.0 million in 2023, 2022 and 2021, respectively.

State net operating loss carryforwards at December 31, 2023 totaled \$546.8 million, resulting in a deferred tax benefit of \$18.1 million, which will expire between 2024 and 2043. The use of certain state net operating losses, credits and other state deferred tax assets is limited to the future taxable earnings of separate legal entities. As a result, a valuation allowance has been provided for certain state deferred tax assets, including loss carryforwards. The valuation allowance related to state deferred tax assets increased (decreased) \$(25.1) million, \$(5.8) million and \$4.7 million in 2023, 2022 and 2021, respectively.

The Company has concluded IRS examinations of the TRS through the 2015 tax year. For federal income tax purposes and substantially all the states with which the Company has nexus, the statute of limitations has expired through 2019. However, the Company has federal and state net operating loss carryforwards from closed years, which could be adjusted upon audit. The Company is routinely subject to other various jurisdictional income tax audits; however, there were no outstanding state or local audits at December 31, 2023. In addition, the Company has evaluated the effects of the Inflation Reduction Act signed into law in 2022 and believes that it has no material effect on the Company's financial statements.

At December 31, 2023 and 2022, the Company had no accruals for unrecognized tax benefits. The Company recognizes interest and penalties related to uncertain tax positions, if any, in income tax expense. At December 31, 2023 and 2022, the Company has accrued no interest or penalties related to uncertain tax positions.

11. Commitments and Contingencies

In April 2019, a subsidiary of the Company acquired a 50% equity interest in Circle and has made capital contributions of \$41.5 million through December 31, 2023. The Company accounted for its investment in this joint venture under the equity method of accounting. In September 2023, Company management determined to pivot from television network ownership in favor of a distribution approach. Therefore, the Company and its joint venture partner agreed to wind down the joint venture, with operations ceasing December 31, 2023. As a result, the Company incurred a loss related to Circle of approximately \$10.5 million, which is included in loss from unconsolidated joint ventures in the accompanying consolidated statement of operations for 2023. Included in this loss is approximately \$3.5 million, which is the Company's portion of the remaining net obligations of the joint venture, which the Company has committed to fund.

The Company entered into a tax protection agreement in connection with the December 31, 2018 purchase of additional interests in the Gaylord Rockies joint venture, which will generally require the Company to, among other things, indemnify certain minority partners that were members of the Gaylord Rockies joint venture for 50% of any income taxes incurred by them as a result of a direct or indirect sale or other disposition of the Gaylord Rockies joint venture, within seven years of closing, and for 100% of any income taxes incurred by them as a result of the failure to comply with certain obligations related to nonrecourse liability allocations and debt guarantee opportunities for the purpose of protecting such parties' tax bases.

In connection with the purchase of Block 21, the Company provided (i) limited guarantees to the Block 21 lenders under the Block 21 CMBS Loan via a guaranty agreement, a guaranty of completion agreement and an environmental indemnity, and (ii) a letter of credit drawable by the Block 21 lenders in the event of a default of the Block 21 CMBS Loan.

The Company is self-insured up to a stop loss for certain losses relating to workers' compensation claims and general liability claims through September 30, 2012, and for certain losses related to employee medical benefits through December 31, 2012. The Company's insurance program subsequently transitioned to a low or no deductible program. As of January 1, 2022, the Company again became self-insured for certain losses related to employee medical benefits. The Company has purchased stop-loss coverage in order to limit its exposure to any significant levels of claims relating to workers' compensation, employee medical benefits and general liability for which it is self-insured.

The Company has entered into employment agreements with certain officers, which provide for severance payments upon certain events, including after a change of control.

The Company, in the ordinary course of business, is involved in certain legal actions and claims on a variety of other matters. It is the opinion of management that such legal actions will not have a material effect on the financial statements of the Company.

12. Fair Value Measurements

The Company uses a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The investments held by the Company in connection with its deferred compensation plan consist of money market and mutual funds traded in an active market. The Company determined the fair value of these assets based on the net asset value per unit of the funds or the portfolio, which is based upon quoted market prices in an active market. Therefore, the Company has categorized these investments as Level 1.

The Company's interest rate swaps consist of over-the-counter swap contracts, which are not traded on a public exchange. The Company determines the fair value of these swap contracts based on a widely accepted valuation methodology of netting the discounted future fixed cash flows and the discounted expected variable cash flow, using interest rates derived from observable market interest rate curves and volatilities, with appropriate adjustments for any significant impact of non-performance risk of the parties to the swap contracts. Therefore, these swap contracts have been classified as Level 2.

The Company has consistently applied these valuation techniques in all periods presented and believes it has obtained the most accurate information available for the types of instruments it holds.

The Company's assets and liabilities that are required to be measured at fair value on a recurring basis at December 31, were as follows (in thousands):

	December 31, 2023	Markets for Identical Assets (Level 1)	Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
Deferred compensation plan investments	\$33,073	\$33,073	\$ —	\$—
Total assets measured at fair value	\$33,073	\$33,073	\$ —	\$—
Variable to fixed interest rate swaps	\$ 1,322	\$ —	\$1,322	\$ —
Total liabilities measured at fair value	\$ 1,322	\$ —	\$1,322	\$—
	December 31, 2022	Markets for Identical Assets (Level 1)	Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
Deferred compensation plan investments	\$29,245	\$29,245	\$ —	\$—
Variable to fixed interest rate swaps	11,350	—	11,350	—
Total assets measured at fair value	\$40,595	\$29,245	\$11,350	\$—
Variable to fixed interest rate swaps	\$ 1,164	\$ —	\$ 1,164	\$—
Total liabilities measured at fair value	\$ 1,164	\$ —	\$ 1,164	\$—

The remainder of the assets and liabilities held by the Company at December 31, 2023 are not required to be measured at fair value, and financial assets and liabilities approximate fair value, except as described below.

As discussed in Note 4, "Debt," the Company has outstanding \$400.0 million in aggregate principal amount of the \$400 Million 7.25% Senior Notes. The carrying value of these notes at December 31, 2023 was \$393.8 million, net of unamortized DFCs. The fair value of these notes, based upon quoted market prices (Level 1), was \$417.8 million at December 31, 2023.

As discussed in Note 4, “Debt,” the Company has outstanding \$600.0 million in aggregate principal amount of the \$600 Million 4.50% Senior Notes. The carrying value of these notes at December 31, 2023 was \$593.0 million, net of unamortized DFCs. The fair value of these notes, based upon quoted market prices (Level 1), was \$560.6 million at December 31, 2023.

As discussed in Note 4, “Debt,” the Company has outstanding \$700.0 million in aggregate principal amount of the \$700 Million 4.75% Senior Notes. The carrying value of these notes at December 31, 2023 was \$694.9 million, net of unamortized DFCs and premiums. The fair value of these notes, based upon quoted market prices (Level 1), was \$680.0 million at December 31, 2023.

See the “JW Marriott Hill Country Transaction” and the “Block 21 Transaction” sections of Note 1 for additional disclosures related to the fair value measurements used in accounting for the purchase of JW Marriott Hill Country and Block 21.

13. Financial Reporting By Business Segments

The Company’s continuing operations are organized into the following principal business segments:

- *Hospitality*, which includes the Gaylord Hotels properties, JW Marriott Hill Country (effective June 30, 2023), the Inn at Opryland and the AC Hotel;
- *Entertainment*, which includes the OEG business, specifically, the Grand Ole Opry, the Ryman Auditorium, WSM-AM, Ole Red, Block 21, the Company’s investment in Circle, and the Company’s Nashville-based attractions; and
- *Corporate and Other*, which includes the Company’s corporate expenses.

The following information (amounts in thousands) is derived directly from the segments’ internal financial reports used for corporate management purposes.

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Revenues:			
Hospitality	\$1,833,478	\$1,537,974	\$ 786,583

- (1) Pledged as collateral under the Company's credit facility. At December 31, 2023, \$510.8 million in borrowings and letters of credit were outstanding under such facility.
- (2) Pledged as collateral under the Gaylord Rockies term loan. At December 31, 2023, \$800.0 million in borrowings were outstanding under such loan.
- (3) The aggregate cost of these assets for federal income tax purposes (unaudited) is approximately \$3.5 billion at December 31, 2023.
- (4) Other deductions represents assets transferred as part of an internal reorganization.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of Ryman Hospitality Properties, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Ryman Hospitality Properties, Inc. and subsidiaries (the Company) as of December 31, 2023 and 2022, the related consolidated statements of operations, comprehensive income (loss), equity (deficit) and noncontrolling interest and cash flows for each of the three years in the period ended December 31, 2023, and the related notes and financial statement schedules listed in the Index at Item 15(a)(2) (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2023, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company’s internal control over financial reporting as of December 31, 2023, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework), and our report dated February 23, 2024, expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

National bonds credit loss reserve

Description of the Matter

At December 31, 2023, the Company holds within Notes Receivable two issuances of governmental bonds (the Bonds) received in connection with the development of the Gaylord National Resort & Convention Center which are reported at a total carrying value of \$61.8 million, net of a credit loss reserve of \$38.0 million. At December 31, 2023, the Series B bond is fully reserved. The Series A bond is of higher priority than other tranches which fall between the Company's two issuances. The Company assesses the Bonds for credit losses, which requires an estimate of projected tax revenues that will service the Bonds over the remaining term. The Bonds and related accounting are more fully described in Note 3 to the consolidated financial statements.

Auditing management's assessment of the valuation of the credit loss reserve for the Bonds was complex and judgmental due to the significant estimation required in projecting tax revenues, specifically property tax increments, hotel taxes and special hotel rental taxes generated from the Gaylord National Resort & Convention Center which provide revenues to fund the Bonds. In particular, the estimate of credit losses is impacted by the projections of hotel taxes (which are based on estimated hotel revenues) and property taxes, both of which are judgmental as the Bonds and related projected cash flows continue for an extended period of time through 2037.

How We Addressed the Matter in Our Audit

We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Company's estimation of the credit loss reserve for the Bonds, including controls over management's review of the projections described above.

To test the Company's determination of the credit loss reserve as of December 31, 2023, we performed audit procedures that included, among others, assessing the methodology utilized by management, testing the projections discussed above and the related underlying data used by the Company in its evaluation, and testing the mathematical accuracy of the calculations. In performing those procedures, we compared hotel revenue projections used by management to current industry forecasts. We also involved valuation specialists to assist in assessing the Company's hotel revenue projections used in the credit loss analysis and a property tax specialist to assist in assessing the Company's property tax projections used in the credit loss analysis.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of Ryman Hospitality Properties, Inc.

Opinion on Internal Control Over Financial Reporting

We have audited Ryman Hospitality Properties, Inc. and subsidiaries' internal control over financial reporting as of December 31, 2023, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, Ryman Hospitality Properties, Inc. and subsidiaries (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2023, based on the COSO criteria.

As indicated in the accompanying Management's Report on Internal Control over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of JW Marriott Hill Country, which is included in the 2023 consolidated financial statements of the Company and which constituted 16.4% and 4.3% of total assets and total revenues, respectively, as of and for the year ended December 31, 2023. Our audit of internal control over financial reporting of the Company also did not include an evaluation of the internal control over financial reporting of JW Marriott Hill Country.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the 2023 consolidated financial statements of the Company, and our report dated February 23, 2024 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.
